

PROTOCOL ON STRATEGIC ENVIRONMENTAL ASSESSMENT TO THE CONVENTION ON ENVIRONMENTAL IMPACT ASSESSMENT IN A TRANSBOUNDARY CONTEXT

The Parties to this Protocol,

Recognizing the importance of integrating environmental, including health, considerations into the preparation and adoption of plans and programmes and, to the extent appropriate, policies and legislation,

Communing themselves to promoting sustainable development and therefore basing themselves on the conclusions of the United Nations Conference on Environment and Development (Rio de Janeiro, Brazil, 1992), in particular principles 4 and 10 of the Rio Declaration on Environment and Development and Agenda 21, as well as the outcome of the third Ministerial Conference on Environment and Health (London, 1999) and the World Summit on Sustainable Development (Johannesburg, South Africa, 2002),

Bearing in mind the Convention on Environmental Impact Assessment in a Transboundary Context, done at Expo, Finland, on 25 February 1991, and decision II/9 of its Parties at Sofia on 26 and 27 February 2001, in which it was decided to prepare a legally binding protocol on strategic environmental assessment,

Recognizing that strategic environmental assessment should have an important role in the preparation and adoption of plans, programmes, and, to the extent appropriate, policies and legislation, and that the wider application of the principles of environmental impact assessment to plans, programmes, policies and legislation will further strengthen the systematic analysis of their significant environmental effects,

Acknowledging the Convention on Access to Information, Public Participation in Decision-making and Access to Justice in Environmental Matters, done at Aarhus, Denmark, on 25 June 1998, and taking note of the relevant paragraphs of the Lucca Declaration, adopted at the first meeting of its Parties,

Conscious, therefore, of the importance of providing for public participation in strategic environmental assessment,

Acknowledging the benefits to the health and well-being of present and future generations that will follow if the need to protect and improve people's health is taken into account as an integral part of strategic environmental

assessment, and recognizing the work led by the World Health Organization in this respect,

Mindful of the need for and importance of enhancing international cooperation in assessing the transboundary environmental, including health, effects of proposed plans and programmes, and, to the extent appropriate, policies and legislation,

Have agreed as follows:

Article 1

OBJECTIVE

The objective of this Protocol is to provide for a high level of protection of the environment, including health, by:

- (a) Ensuring that environmental, including health, considerations are thoroughly taken into account in the development of plans and programmes;
- (b) Contributing to the consideration of environmental, including health, concerns in the preparation of policies and legislation;
- (c) Establishing clear, transparent and effective procedures for strategic environmental assessment;
- (d) Providing for public participation in strategic environmental assessment; and
- (e) Integrating by these means environmental, including health, concerns into measures and instruments designed to further sustainable development.

Article 2

DEFINITIONS

Transboundary Environmental Interference and the Origin of State Liability R. Lefeber, 1996-06-03 On going deterioration of the state of the environment and the continuous risk of an environmental disaster has forced society to reconsider its environmental and developmental objectives For economic and environmental reasons the costs of prevention and reparation of environmental harm should be channelled to the polluter However such channelling may run counter to legal principles This work scrutinizes this field of

tension between economic and legal principles at state level It provides a unique analysis of traditional thinking on state liability for transboundary harm and the theories which have challenged it since the proliferation of hazardous activities in the 1960s The author favours a return to traditional thinking but has an eye for the theories that challenged it with the aim of safeguarding the compensation of victims of transboundary harm **Mercury in the Environment** Michael S.

Bank,2012-05-31 Mercury deposition and contamination is widespread and well documented and it continues to be a public health concern for certain sectors of the global human population in both developed and developing countries This edited volume focuses on integrating the diverse sciences involved in the process of mercury cycling in the environment from the atmosphere through terrestrial and aquatic food webs and human populations to develop a comprehensive perspective on this important environmental pollutant Using a systems level approach this book provides recommendations on mercury remediation risk communication education and monitoring In response to a growing need for understanding the cycling of this ubiquitous pollutant the science of mercury has grown rapidly expanding into several interdisciplinary fields and encompassing such disparate academic and scientific disciplines as biogeochemistry economics sociology public health decision sciences physics global change and mathematics Only recently have scientists really begun to establish more holistic approaches to studying mercury pollution giving rise to investigations that have furthered the integration of a multi tiered approach especially by using chemistry biology and human health sciences collectively The study of mercury pollution has produced a variety of contributions to domestic and international policies related to the management of mercury in the environment Provided by publisher **Strategic Environmental Assessment in International and European Law**
