Adaschik,2015-06-25 The citizens of the United States have been played for fools for the past 100 years Very few of us know what is behind the events that have shaped our world Most Americans assume that information provided by the news radio and television industries is the truth And most of it is However it is also true that on critical issues we only get part of the story and important information is deliberately left out 100 Years of Deception begins by establishing that passage of the Federal Reserve Act in 1913 constituted an overthrow of our government Since then the conspirators have pulled the strings that make us dance and controlled our Nation s media to keep us in the dark and compliant The conspirators eventually infiltrated most of the key institutions of our society Through propaganda and undue influence they have shaped how Americans view the world and left us hopelessly brainwashed This book not only demonstrates that our government was overthrown it also provides an accounting of the catastrophic consequences the world has suffered because of these conspirators and offers proposals for rectifying our deplorable state of affairs As Americans we owe it to ourselves and our children to seek the truth and put an end to the 100 Years of Deception that shaped the world within which we live
