**Love, Pray, Listen** Mary DeMuth, 2022-09-06 Love Pray Listen offers empathy and grounded biblical wisdom to help parents thrive no matter what path their adult kids take PASTOR STEVE STROOPE Wisdom and Hope for Parents of Grown Ups As a parent your role changes drastically after your kids grow up You fear heartache and strained relationships when your children choose difficult even seemingly wrong paths Love Pray Listen is the gracious practical resource you need for navigating the rocky terrain of parenting grown ups In this book mom and author Mary DeMuth answers questions like What do I do when my kids make choices that don't align with my values How do I keep communication lines open with my grown children When do I speak and when do I listen Is it possible to hold on to my joy when parenting is so hard How do I avoid the temptation of meddling in my kids lives Love Pray Listen offers a robust theology for long term parenting gleaned from the discipleship model Jesus exemplified one that carefully and thoughtfully applies his way of expressing love This is your invitation for spiritual growth and a path toward fulfilling relationships with your adult children **BareBlue**

Raziya, 2009-04 BareBlue a life lyric is an autobiographical collection of poetry that chronicles the transformation of a six year old girl into a thirty something year old woman *Children's Emotions and Moods* Michael Lewis, 2012-12-06 No one would deny the proposition that in order to understand human behavior and development one must understand feelings The interest in emotions is enduring Yet within the discipline of psychology the study of feelings and emotions has been somewhat less than respectable a stepchild to the fields of cognitive science and psycholinguistics Perusal of the language acquisition literature reveals a greater concern among psychologists for the acquisition of prepositions than for terms that convey feelings Without question issues related to emotion its development and its measurement have been neglected in the research literature until quite recently From a developmental perspective Piaget and his followers have articulated a complex theory of transition and change in intellectual behavior Nearly a century ago Freud proposed an elaborate theory of personality development in which some aspects of emotional growth were considered We await the construction of a comprehensive theory of emotional development Recognizing such a need we set out over a decade ago to solve what seemed to be a relatively simple problem By observing young children could one successfully classify children in terms of individual differences on emotional dimensions such as happiness fear and anger The task appeared easy One could send graduate students into a preschool and ask them to observe children for several days after which they would rank the children in terms of differences on various emotional dimensions *Healing Conversations on Race* Veola Vazquez, Joshua

Knabb, Charles Lee-Johnson, Krystal Hays, 2023-02-28 Racism complicates our relationships even when we reject it and seek to walk a better path In this book four experts in psychology and social work present a Scripturally grounded model for building and deepening cross race relationships These insights and practices will help Christians grow in Christlikeness and follow his example **The Works of that Famous English Poet, Mr. Edmond Spenser** Edmund Spenser, John
