Proustian Quest:

The Proustian Quest William Carter, Jeffrey Lange, 1994-02 An ambitious study the fruit of sustained work over many years Professor Carter's book deploys a stunning knowledge of Proust and places Carter among the first line of Proust scholars in the country Roger Shattuck Boston University The Proustian Quest is the first full length study that explores the influence of social change on Proust's vision In Remembrance of Things Past Proust describes how the machines of transportation and communication transformed fashion social mores time space perception and the understanding of the laws of nature Concentrating on the motif of speed Carter establishes the centrality of the modern world to the novel's main themes and produces a far reaching synthesis that demonstrates the work's profound structural unity **Marcel Proust** Harold Bloom, 2004 A collection of essays written by various scholars critically analyzing the life and works of French author Marcel Proust Includes analyses of characters themes and symbolism in Proust's major works Also contains an annotated bibliography that can be used for finding further information **The Cambridge Introduction to Marcel Proust** Adam Watt, 2011-04-07 Proust's *A la recherche du temps perdu* In Search of Lost Time 1913-27 changed the course of modern narrative fiction This Introduction provides an account of Proust's life the socio historical and cultural contexts of his work and an assessment of his early works At its core is a volume by volume study of In Search of Lost Time which attends to its remarkable superstructure as well as to individual images and the intricacies of Proust's finely stitched prose The book reaches beyond stale commonplaces of madeleines and memory alerting readers to Proust's verbal virtuosity his preoccupations with the fleeting and the unforeseeable with desire jealousy and the nature of reality Lively informative chapters on Proust criticism and the work's afterlives in contemporary culture provide a multitude of paths to follow The book charges readers with the energy and confidence to move beyond anecdote and hearsay and to read Proust's novel for themselves **Proust's Cup of Tea** Emily Eells, 2017-03-02 Proust's Cup of Tea analyzes Proust's reading of various Victorian authors and shows how they contributed to *A la recherche du temps perdu* This book proves that British literature and art played a fundamental role in Proust's writing process by citing from the manuscript versions of his novel as well as from his correspondence essays and the lengthy critical apparatus accompanying his translations of Ruskin Eells reflects here on why Proust was attracted to Victorian culture and how he incorporated it into his novel The works of the British novelists he was most interested in Thomas Hardy and George Eliot address questions of gender which Proust develops in his own work He builds *Sodome et Gomorrhe I* the section of his novel focusing on homosexuality on a series of explicit citations and guarded allusions to Shakespeare Darwin Walter Scott Oscar Wilde and Robert Louis Stevenson Eells explores how Proust followed in the pioneering footsteps of those British writers who had ventured beyond the boundaries of conventional sexuality though he took pains to erase their traces in the definitive version of his work This study also highlights how Proust made his fictitious painter Elstir into a master of ambiguity by modeling his art on Turner the Pre Raphaelites and Whistler

Eells shows that Proust drew on Victorian culture in his depiction of sexual ambiguity arguing that he confounded eroticism and aestheticism in the way he inextricably linked the man woman figure with British art and literature As Proust aestheticized male and female homosexuality using references to British art and letters Eells coins the term Anglosexuality to refer to his characters of the third sex She defines Anglosexuality as an intersexuality represented through intertextuality as an artistic sensitivity an aesthetic stance and a new way of seeing Proust s Cup of Tea thus demonstrates that Victorian culture and homoeroticism form one of the cornerstones of Proust s monumental work Mourning and Creativity in Proust

Anna Magdalena Elsner,2017-03-09 This study explores Proust s answers to some of the fundamental challenges of the inevitable human experience of mourning Thinking mourning and creativity together allows for a fresh approach to the modernist novel at large but also calls for a reassessment of the particular historical and social challenges faced by mourners at the beginning of the twentieth century The book enables the reader to acknowledge loss and forgetting as an essential part of memory and it proposes that this literary topos has seminal implications for an understanding of the ethics aesthetics and erotic in Proust s *A la recherche du temps perdu* Drawing on the works of Sigmund Freud and Jacques Derrida Anna Magdalena Elsner develops an original theory of how mourning and creativity are linked by emphasizing that ethical dilemmas are central to an understanding of the novel s final aesthetic apotheosis This sheds new light on the enigmatic and versatile nature of mourning but also pays tribute to those fertile tensions and paradoxes that have made Proust s novel captivating for readers since its publication **A Reader's Guide to Proust's 'In Search of Lost Time'** David

Ellison,2010-02-18 A detailed analysis of Proust s masterpiece aimed at students coming to the work for the first time

Science and Structure in Proust's *A la Recherche Du Temps Perdu* Nicola Luckhurst,2000 Proust is read as a writer of maxims and metaphors of short and long sentences as at once an aesthete and a scientific thinker His *A la recherche du temps perdu* is a hybrid a novel essay an epistemological debate that crosses the boundaries between two cultures art and science *Science and Structure* explores the epistemological alertness and anxiety of Proust s masterpiece and in so doing illuminates the interrelations between modernist art and science **The Senses of Modernism** Sara

Danius,2019-01-24 In *The Senses of Modernism* Sara Danius develops a radically new theoretical and historical understanding of high modernism The author closely analyzes Thomas Mann s *The Magic Mountain* Marcel Proust s *Remembrance of Things Past* and James Joyce s *Ulysses* as narratives of the sweeping changes that affected high and low culture in the age of technological reproduction In her discussion of the years from 1880 to 1930 Danius proposes that the high modernist aesthetic is inseparable from a technologically mediated crisis of the senses She reveals the ways in which categories of perceiving and knowing are realigned when technological devices are capable of reproducing sense data Sparked by innovations such as chronophotography phonography radiography cinematography and technologies of speed this sudden shift in perceptual abilities had an effect on all arts of the time Danius explores how perception notably sight and

hearing is staged in the three most significant modern novels in German French and British literature The Senses of Modernism connects technological change and formal innovation to transform the study of modernist aesthetics Danius questions the longstanding acceptance of a binary relationship between high and low culture and describes the complicated relationship between modernism and technology challenging the conceptual divide between a technological culture and a more properly aesthetic one Atlantic Automobilmism Gij's Mom,2014-12-01 Our continued use of the combustion engine car in the 21st century despite many rational arguments against it makes it more and more difficult to imagine that transport has a sustainable future Offering a sweeping transatlantic perspective this book explains the current obsession with automobiles by delving deep into the motives of early car users It provides a synthesis of our knowledge about the emergence and persistence of the car using a broad range of material including novels poems films and songs to unearth the desires that shaped our present car society Combining social psychological and structural explanations the author concludes that the ability of cars to convey transcendental experience especially for men explains our attachment to the vehicle **Twilight of the Belle Epoque** Mary McAuliffe,2014-03-16 Mary McAuliffe s Dawn of the Belle Epoque took the reader from the multiple disasters of 1870 1871 through the extraordinary re emergence of Paris as the cultural center of the Western world Now in Twilight of the Belle Epoque McAuliffe portrays Paris in full flower at the turn of the twentieth century where creative dynamos such as Picasso Matisse Stravinsky Debussy Ravel Proust Marie Curie Gertrude Stein Jean Cocteau and Isadora Duncan set their respective circles on fire with a barrage of revolutionary visions and discoveries Such dramatic breakthroughs were not limited to the arts or sciences as innovators and entrepreneurs such as Louis Renault Andr Citro n Paul Poiret Fran ois Coty and so many others including those magnificent men and women in their flying machines emphatically demonstrated But all was not well in this world remembered in hindsight as a golden age and wrenching struggles between Church and state as well as between haves and have nots shadowed these years underscored by the ever more ominous drumbeat of the approaching Great War a cataclysm that would test the mettle of the City of Light even as it brutally brought the Belle Epoque to its close Through rich illustrations and evocative narrative McAuliffe brings this remarkable era from 1900 through World War I to vibrant life Benjamin, Barthes and the Singularity of Photography Kathrin Yacavone,2012-02-02 Benjamin Barthes and the Singularity of Photography presents two figures of the twentieth century in a comparative light Pursuing aspects of Benjamin s and Barthes s engagement with photography it provides interpretations of texts argues that despite the different historical philosophical and cultural contexts of their work Benjamin and Barthes engage with similar issues and problems that photography poses including the relationship between the photograph and its beholder as a confrontation between self and other and the dynamic relation between time subjectivity memory and loss Each writer emphasizes the singular event of the photograph s apprehension and its ethical and existential aspects rooted in the power and poignancy of photographic images The book mapping the relationship between photographic

Proust and the Arts Christie McDonald, François

Proulx, 2015-11-05 Proust and the Arts brings together expert Proustians and renowned interdisciplinary scholars in a major reconsideration of the novelist's relation to the arts. Going beyond the classic question of the models used by Proust for his fictional artists, the essays collected here explore how he learned from and integrated in highly personal ways the work of such creators as Wagner or Carpaccio. This volume reveals the breadth of Proust's engagement with varied art forms from different eras from primitive arts to sound recordings from medieval sculpture to Art Nouveau glassmaking and from portrait photography to the private art of doodling. Chapters bring into focus issues of perception and detail in examining how Proust encountered and responded to works of art and attend to the ways art shaped his complex relationship to identity, sexuality, humor, and the craft of writing.

Airspaces David Pascoe, 2004-08-01 This book argues that airspace, the transitional area between check-in desk and baggage carousel, must be regarded as a discrete destination on any map of our age.

The Invisible Middle Term in Proust's A la Recherche Du Temps Perdu Roxanne Hanney, 1990 This volume seeks to offer a new way of reading *A la Recherche du Temps Perdu* using a fluid manner of interpretation which suggests process rather than product. This study contends that everything in Proust's work is threefold. The middle term is the common ground shared by the two terms of comparison that constitute a metaphor.

The Seduction of Pessimism in the Novel Tom

Ribitzky, 2024-10-31 *The Seduction of Pessimism in the Novel: Eros, Futility, and the Quarrel with Philosophy* explores the novel as a response to the Platonic myth that narrates the rift at the core of our being. Eros is supposedly the consolation for this rift, but the history of the novel documents its expression as one of frustrated desires, neuroses, anxieties, and cosmic doom. As if repeating the trauma from that original split in Plato, a split that also divides philosophy from literature, the novel treats eros as a site of loss and grief. From the medieval romances to Goethe, Emily Brontë, Proust, Mann, Woolf, D. H. Lawrence, and Nabokov, the pessimism that emerges from this eros tells us something fundamental about who we are, something that only the novel can say. At a time when both education and leisure are increasingly ignoring the novel's imperative to sit with ambiguity, complexity, and contingency, and as we are hurtling toward a bleak future of climate catastrophe and political instability, the novel is one of the last bastions of humanity, even as it is quickly being eroded.

The Art of Subtraction Bruno Lessard, 2017-05-08 *The Art of Subtraction* is the first full-length study on the CD-ROM as a creative platform. Bruno Lessard traces the rise and relatively rapid fall of the CD-ROM in the 1980s and 1990s and its impact as a creative platform for media artists such as Jean-Louis Boissier, Zoe Beloff, Adrienne Jenik, and Chris Marker. Although the CD-ROM was not a lasting commercial success, it was a vibrant medium that allowed for experimentation in adapting literary works. Building on the work of Gilles Deleuze and Michele Foucault, Lessard establishes a comparative framework for linking digital adaptations with innovative concepts such as subtractive adaptation and the object image that will be of interest to researchers examining literary adaptations on other digital platforms such as websites, smart phones, tablets, and digital games. *The Art of*

Subtraction is a fascinating study of intermediality in the late twentieth century and it provides the first chapter in the yet unwritten history of digital adaptation Emotions, the Social Bond, and Human Reality Thomas J.
