Canada's Residential Schools: The Inuit and Northern Experience Commission de vérité et réconciliation du Canada,2016-01-01 Between 1867 and 2000 the Canadian government sent over 150 000 Aboriginal children to residential schools across the country Government officials and missionaries agreed that in order to civilize and Christianize Aboriginal children it was necessary to separate them from their parents and their home communities For children life in these schools was lonely and alien Discipline was harsh and daily life was highly regimented Aboriginal languages and cultures were denigrated and suppressed Education and technical training too often gave way to the drudgery of doing the chores necessary to make the schools self sustaining Child neglect was institutionalized and the lack of supervision created situations where students were prey to sexual and physical abusers Legal action by the schools former students led to the creation of the Truth and Reconciliation Commission of Canada in 2008 The product of over six years of research the Commission s final report outlines the history and legacy of the schools and charts a pathway towards reconciliation Canada s Residential Schools The Inuit and Northern Experience demonstrates that residential schooling followed a unique trajectory

in the North As late as 1950 there were only six residential schools and one hostel north of the sixtieth parallel Prior to the 1950s the federal government left northern residential schools in the hands of the missionary societies that operated largely in the Mackenzie Valley and the Yukon It was only in the 1950s that Inuit children began attending residential schools in large numbers The tremendous distances that Inuit children had to travel to school meant that in some cases they were separated from their parents for years The establishment of day schools and what were termed small hostels in over a dozen communities in the eastern Arctic led many Inuit parents to settle in those communities on a year round basis so as not to be separated from their children contributing to a dramatic transformation of the Inuit economy and way of life Not all the northern institutions are remembered similarly The staff at Grandin College in Fort Smith and the Churchill Vocational Centre in northern Manitoba were often cited for the positive roles that they played in developing and encouraging a new generation of Aboriginal leadership The legacy of other schools particularly Grollier Hall in Inuvik and Turquetil Hall in Igluligaarjuk Chesterfield Inlet is far darker These schools were marked by prolonged regimes of sexual abuse and harsh discipline that scarred more than one generation of children for life Since Aboriginal people make up a large proportion of the population in Canada s northern territories the impact of the schools has been felt intensely through the region And because the history of these schools is so recent the intergenerational impacts and the legacy of the schools are strongly felt in the North

Upending the Ivory Tower Stefan M. Bradley, 2018-09-25 Winner 2019 Anna Julia Cooper and C L R James Award given by the National Council for Black Studies Finalist 2019 Pauli Murray Book Prize in Black Intellectual History given by the African American Intellectual History Society Winner 2019 Outstanding Book Award given by the History of Education Society The inspiring story of the black students faculty and administrators who forever changed America s leading educational institutions and paved the way for social justice and racial progress The eight elite institutions that comprise the Ivy League sometimes known as the Ancient Eight Harvard Yale Princeton Penn Columbia Brown Dartmouth and Cornell are American stalwarts that have profoundly influenced history and culture by producing the nation s and the world s leaders The few black students who attended Ivy League schools in the decades following WWII not only went on to greatly influence black America and the nation in general but unquestionably awakened these most traditional and selective of American spaces In the twentieth century black youth were in the vanguard of the black freedom movement and educational reform *Upending the Ivory Tower* illuminates how the Black Power movement which was borne out of an effort to edify the most

disfranchised of the black masses also took root in the hallowed halls of America's most esteemed institutions of higher education. Between the close of WWII and 1975 the civil rights and Black Power movements transformed the demographics and operation of the Ivy League on and off campus. As desegregators and racial pioneers, black students, staff, and faculty used their status in the black intelligentsia to enhance their predominantly white institutions while advancing black freedom. Although they were often marginalized because of their race and class, the newcomers altered educational policies and inserted blackness into the curricula and culture of the unabashedly exclusive and starkly white schools. This book attempts to complete the narrative of higher education history while adding a much needed nuance to the history of the Black Power movement. It tells the stories of those students, professors, staff, and administrators who pushed for change at the risk of losing what privilege they had. Putting their status and sometimes even their lives in jeopardy, black activists negotiated, protested, and demonstrated to create opportunities for the generations that followed. The enrichments these change agents made endure in the diversity initiatives and activism surrounding issues of race that exist in the modern Ivy League. Upending the Ivory Tower not only informs the civil rights and Black Power movements of the postwar era but also provides critical context for the Black Lives Matter movement that is growing in the streets and on campuses throughout the country today. As higher education continues to be a catalyst for change, there is no one better to inform today's activists than those who transformed our country's past and paved the way for its future. *The Iron Age Directory*, 1911
