## **Provincial Matters:**

**Canada and Its Provinces** Sir Arthur George Doughty, 1914 *Proceedings of the Conference of Federal and Provincial Governments, Ottawa, December 4-7, 1950* Conference of Federal and Provincial Governments, Ottawa, 1950, 1953

**Canada and Its Provinces: Political evolution**, 1914 **Law in the Roman Provinces** Kimberley Czajkowski, Benedikt Eckhardt, Meret Strothmann, 2020-06-10 The study of the Roman Empire has changed dramatically in the last century with significant emphasis now placed on understanding the experiences of subject populations rather than a sole focus on the Roman imperial elites Local experiences and interactions between periphery and centre are an intrinsic component in our understanding of the empire's function over and against the earlier top down model But where does law fit into this new decentralized picture of empire This volume brings together internationally renowned scholars from both legal and historical backgrounds to study the operation of law in each region of the Roman Empire from Britain to Egypt from the first century BCE to the end of the third century CE Regional specificities are explored in detail alongside the emergence of common themes and activities in a series of case studies that together reveal a new and wide ranging picture of law in the Roman Empire balancing the practicalities of regional variation with the ideological constructs of law and empire BLS Report, 1953 **2007** Paul Volken, Andrea Bonomi, 2009-04-27 2007 was arguably the most extraordinary year in recent memory for the development of Private International Law Reflecting the vitality and fluidity of a subject that is in constant motion Volume IX of the Yearbook of Private International Law is again a very rich and multi faceted book An entire thematic section of this volume is devoted to the Rome II Regulation on the law applicable to non contractual obligations which was adopted by the EC institutions in July 2007 Being the first EC regulation on pure applicable law issues this text opens up a new era in the process of creating a European PIL system It deserved therefore a detailed commentary and analysis of its main provisions by experts from several EU States Because of the interest that this European text presents for third party States some distinguished scholars from non European areas the US Japan Latin America and Australia were also asked to express their views on this important piece of Community legislation and the possible influence it may have on conflict developments in their respective countries and regions **Law and Society** Steven Vago, Adie Nelson, Veronica Nelson, Steven E. Barkan, 2017-09-26 Law and Society provides a balanced and comprehensive analysis of the interplay between law and society using both Canadian and international examples This clear and readable text is filled with interesting information ideas and insights All materials and supporting statistics have been carefully updated This edition includes an expanded discussion of the law and First Nations people recent developments impacting LGBTIQ2S persons and persons with disabilities and a new section on civil procedures Each chapter is structured similarly with an outline learning objectives key terms chapter summaries critical thinking questions and an array of additional resources Federalism and the Charter Peter Russell, 1989-07-15 This extensive revision of the landmark Leading Constitutional Decisions brings

together recent Charter cases with the classical cases on the Canadian Constitution An introductory essay traces the evolution and distinctive features of judicial review in Canada and includes references to the Constitution Act 1982 and the important changes resulting from it      *Relationship Between the Chinese Central Authorities and Regional Governments of Hong Kong and Macao: A Legal Perspective* Zhenmin Wang,2018-09-19 This book discusses the basic theories and structures employed in handling the Central SAR relationship under the One Country Two Systems policy from the perspective of ruling by law It also explores the fundamental principles and methods used in the division of powers between the central authorities and the SARs and investigates the institutions responsible for handling the Central SAR relationship and their practices Further it presents case studies since 1997 to help readers better understand the Central SAR relationship Lastly the author raises some new questions for readers who want to further study this topic      **The British Left and India** Nicholas Owen,2007-11-15 From the formation of the Indian National Congress in 1885 to the winning of independence in 1947 this book traces the complex and often troubled relationship between anti imperialist campaigners in Britain and in India Nicholas Owen traces the efforts of British Radicals and socialists to identify forms of anti imperialism in India which fitted comfortably with their existing beliefs and their sense of how authentic progressive movements were supposed to work On the other side of the relationship he charts the trajectory of the Indian National Congress as it shifted from appeals couched in language familiar to British progressives to the less familiar vocabulary and techniques of Mahatma Gandhi The new Gandhian methods of self reliance had unwelcome implications for the work that the British supporters of Congress had traditionally undertaken leading to the collapse of their main organisation and the precipitation of anti imperialist work into the turbulent cross currents of left wing British politics Metropolitan anti imperialism became largely a function of other commitments whether communist theosophical pacifist socialist or anti fascist Revealing the strengths and weaknesses of these connections *The British Left and India* looks at the ultimate failure to create the durable alliance between anti imperialists which the British Empire s governors had always feared Drawing on a wide range of newly available archival material in Britain and India including the records of campaigning organizations political parties the British government and the imperial security services this book is a powerful account of the diverse and fragmented world of British metropolitan anti imperialism      *Annual Report of the Department of the Interior* United States. Department of the Interior,1903

**Citizens' Hall** André Carrel,2001 Based on years of practical experience in small towns Carrel argues for municipal autonomy for turning what are now colonies of the federal and provincial orders of government into independent mature and fully democratic entities For Carrel the citizen is the sole legitimate source of political power and the best tool for citizen empowerment is the controversial tool of the referendum This is the story of how a small municipality broke the rules of local government It also recounts the author s irreverence for the status quo and his ideas on the rebuilding of citizenship at the community level      ,      **History of Indian Administration and Constitution** Nanumal N. Lalla,1926      **Report of the**
