Psyche On The Development Of The Soul Dunquin Series:

Psyche Carl Gustav Carus,1970 *Psyche* Carl Gustav Carus,1970 Psyche Carl Gustav Carus,1970 **Nietzsche and Jung** Lucy Huskinson,2004-07-22 Was Jung s interpretation and assessment of Nietzsche accurate Nietzsche and Jung considers the thought and personalities of two icons of twentieth century philosophical and psychological thought and reveals the extraordinary connections between them Through a thorough examination of their work Nietzsche and Jung succeeds in illuminating complex areas of Nietzsche s thought and resolving ambiguities in Jung s reception of these theories The location and analysis of the role played by opposites in the whole self according to Jung is considered revealing the full extent of Nietzsche s influence This rigorous and original analysis of Jungian theory and its philosophical roots supported by Jung s seminars on Nietzsche s Zarathustra leads to the development of a fresh interpretation of the theories of both The shared model of selfhood is put into practice as the personalities of Nietzsche and Jung are evaluated according to the other s criteria for mental health attempting to determine whether Nietzsche and Jung were themselves whole Nietzsche and Jung demonstrates how our understanding of analytical psychology can be enriched by investigating its philosophical roots and considers whether the whole self is a realistic possibility for each of us This book will prove fascinating reading for students in psychology philosophy and religion as well as practicing Jungian analysts **Psyche** Carl Gustav Carus,1970 Psyche: The unconscious, and a précis of parts two and three by Murray Stein Carl Gustav Carus,1989 *Journal of the History of Philosophy* ,1990 **Catalog of the Kristine Mann Library of the Analytical Psychology Club of New York, Inc** Kristine Mann Library,1978 *Psychoanalysis Beyond the End of Metaphysics* Robin S. Brown,2016-08-05 Winner of the Theoretical Category of the American Board Academy of Psychoanalysis Book Prize for best books published in 2016 *Psychoanalysis Beyond the End of Metaphysics* offers a new paradigm approach which advocates reengaging the importance of metaphysics in psychoanalytic theorizing The emergence of the relational trend has witnessed a revitalizing influx of new ideas reflecting a fundamental commitment to the principle of dialogue However the transition towards a more pluralistic discourse remains a work in progress and those schools of thought not directly associated with the relational shift continue to play only a marginal role In this book Robin S Brown argues that for contemporary psychoanalysis to more adequately reflect a clinical ethos of pluralism the field must examine the extent to which a theoretical commitment to the notion of relationship can grow restrictive Suggesting that in the very effort to negotiate theoretical biases psychoanalytic practice may occlude a more adequate recognition of its own evolving assumptions Brown proposes that the profession s advance requires a return to first principles Arguing for the fundamental role played by faith in supporting the emergence of consciousness this work situates itself at the crossroads of relational Jungian and transpersonal approaches to the psyche *Psychoanalysis Beyond the End of Metaphysics* will be of significant interest to all psychodynamically oriented clinicians alongside scholars of depth psychology and the philosophy of mind It will also be helpful to advanced and postgraduate students of psychoanalysis
