Psychedelic Prayers After the Tao Te Ching Timothy Leary, 1970 **Psychedelic Prayers After the Tao Te Ching** Timothy Leary, 1966 **Psychedelic Prayers** Timothy Leary, 2010-09-15 Leary's only book of meditative poetry Manual to higher consciousness inspired by Lao Tse's Tao Te Ching Way of Life Includes six rediscovered poems photos and drawings from the cover of the German edition by H R Giger and photos of Leary in India along with essays by Michael Horowitz Rosemary Woodruff Leary and Ralph Metzner who was with Leary in India when he wrote the book A companion volume to High Priest My objective Leary wrote was to find the seed idea in each Sutra and rewrite it in the lingua franca of psychedelia The result was this handy take along prayer book It is intended to be read slowly during a session as a guide to transcendental experiences Tao Te Ching Timothy Leary, Julio Mario Santo Domingo Collection, 1972 **Psychedelic Mysticism** Morgan Shipley, 2015-11-12 Concerned with scholarly popular and religious backdrops that understand the connection between psychedelics and mystical experiences to be devoid of moral concerns and ethical dimensions a position supported empirically by the rise of acid fascism and psychedelic cults by the late 1960s Psychedelic Mysticism Transforming Consciousness Religious Experiences and Voluntary Peasants in Postwar America traces the development of sixties psychedelic mysticism from the deconditioned mind and perennial philosophy of Aldous Huxley to the sacramental ethics of Timothy Leary Richard Alpert and Ralph Metzner to the altruistic religiosity practiced by Stephen Gaskin and The Farm Building directly off the pioneering psychedelic writing of Huxley these psychedelic mystics understood the height of psychedelic consciousness as an existential awareness of unitive oneness a position that offered worldly alternatives to the maladies associated with the postwar moment e.g. vapid consumerism and materialism lifeless conformity unremitting racism heightened militarism In opening a doorway to a common world Morgan Shipley locates how psychedelics challenged the coherency of Western modernity by fundamentally reorienting postwar society away from neoliberal ideologies and toward a sacred understanding of reality defined by mutual coexistence and responsible interdependence In 1960s America psychedelics catalyzed a religious awakening defined by compassion expressed through altruism and actualized in projects that sought to ameliorate the conditions of the least advantaged among us In the exact moments that historians and cultural critics often locate as signaling the death knell of the counterculture Gaskin and The Farm emerged not as a response to the perceived failures of the hippies nor as an alternative to sixties politics but in an effort to fulfill the religious obligation to help teach the world how to live more harmoniously Today as we continue to confront issues of socioeconomic inequality entrenched differences widespread violence and the limits of religious pluralism Psychedelic Mysticism serves as a timely reminder of how religion in America can operate as a tool for destabilization and as a means to actively reimagine the very basis of how people relate such a legacy can aid in our own efforts to build a more peaceful sustainable and compassionate world **Tao Te Ching (Daodejing)** Laozi, 2018 A new translation of the ancient Chinese book of the Tao Dust jacket front

Chryssides, 2011-11-25 New religious movements commonly known as cults are defined as organizations that have arisen within the last 200 years Most treatments of these movements have typically resorted to sensationalism rather than objectivity and New religious movements tend to receive negative media publicity Despite their unfavorable portrayal in popular culture however new religious movements are a global phenomenon and much remains to be studied about these movements In this newly updated second edition of the Historical Dictionary of New Religious Movements George D Chryssides traces the rise and development of new religious movements throughout the world An updated introduction summarizes the phenomenon of new religious movements and lays out the changes to the dictionary since the 2001 edition while the main body of the dictionary consists of close to 600 cross referenced entries on key figures ideas themes and places related to various new religious movements An index organizes the information in the dictionary and a comprehensive bibliography leads the researcher to further sources This book is an excellent access point for students researchers and anyone wanting to know more about new religious movements **The Tao of Women** Pamela K. Metz, Jacqueline L. Tobin, 1995-06 For centuries women have remained quiet suppressed by society Yet in their silence a singing can be heard celebrating their truths In *The Tao of Women* female voices speak out Finally the wisdom of Taoist philosophy is linked with the deep and mysterious wisdom of women *The Tao of Women* captures and presents the power and wisdom generated by centuries of women s lives with the hope that this wisdom will not be lost These brief and poignant meditations amplify the voices of our grandmothers and their mothers before them they illuminate the connections over time and space and culture allowing us to understand the women who came before and the daughters who will follow In 1950 a secret language was discovered near Hunan Province China It was not until 1982 that anyone collected and translated this secret women s script Known as Nu Shu this ancient language was developed and used by women to communicate with each other when their society would not allow them to learn to read and write For the first time in America 81 original Nu Shu illustrations and their translations can be seen in *The Tao of Women* *Metaphors of Consciousness* Ronald S. Valle, Rolf von Eckartsberg, 2012-12-06 As we move into the 1980s there is an increasing awareness that our civilization is going through a profound cultural transformation At the heart of this transformation lies what is often called a paradigm shift a dramatic change in the thoughts perceptions and values which form a particular vision of reality The paradigm that is now shifting comprises a large number of ideas and values that have dominated our society for several hundred years values that have been associated with various streams of Western culture among them the Scientific Revolution of the seventeenth century The Enlightenment and the Industrial Revolution They include the belief in the scientific method as the only valid approach to knowledge the split between mind and matter the view of nature as a mechanical system the view of life in society as a

competitive struggle for survival and the belief in unlimited material progress to be achieved through economic and technological growth All these ideas and values are now found to be severely limited and in need of radical revision

day *Hermaphrodites, Gynomorphs and Jesus* David C. A. Hillman, 2014-02-17 The first western god was both male and female All of western religion springs from the veneration of a bi gender entity known to the ancient world as the Gynomorph The worship of hermaphroditic gods like the Gynomorph surfaces in ancient pagan cults as well as early Christianity The celebration of female gods with penises impacted the development of western culture Veneration of the Gynomorph is the basis for modern western law courts The founders of democracy worshipped similar female divinities who possessed penises Ritual sodomy as a means of celebrating hermaphroditic gods directly promoted the birth of western democracy In fact ancient priestesses responsible for guiding the worship of hermaphroditic goddesses laid the very foundations for democracy science and philosophy The oldest western pharmaceuticals were sex drugs used in religious initiations in celebration of the Gynomorph Snake venoms used in cultic sex rituals were immensely popular in both Greece and Rome In addition abortion inducing drugs promoted the first scientific investigations Classical civilization relied heavily upon the use of cannabis opiates and hallucinogens which were mixed with sexual stimulants Greco Roman witches who served a prominent hermaphroditic goddess Hecate were among the earliest western scientists and naturalists Devotees of gynomorphic divinities were the first westerners to promote the religious practice known as necromancy The first baptists were cross dressing necromancers who celebrated the Gynomorph Eunuchs who served the same goddess were chemically castrated with scorpion venom Ancient pre Christian oracles declared that the messiah must be a hermaphrodite Christianity tried to assimilate and employ the use of necromancy The earliest Christians used designer sex drugs in their rituals in order to venerate a messiah given gynomorphic status by church bishops Sacred Mushrooms Carl A. P. Ruck, 2016-01-18 In the ancient world men and women joined cults known as Mysteries to unite with the deities of the otherworld and achieve eternal life The most important of the Mysteries existed for two millennia at the village of Eleusis Its deities were Demeter and Persephone interchangeable in their roles as mother and daughter The initiations and other rituals of this goddess based cult were a profound secret divulging information was punishable by death For centuries scholars have probed the secrets of the Eleusinian Mysteries and kykeon its sacramental Eucharist a sacred drink containing psychoactive chemicals similar to those in LSD Their discoveries have been buried in the arcane language of alchemy the occult sciences and secret societies Here in prose accessible to all readers Carl Ruck unravels the Mysteries revealing the awesome powers of the goddesses as well as the pagan underpinnings of Western culture *Entheogens, Myth, and Human Consciousness* Carl A. P. Ruck, Mark Alwin Hoffman, 2012-12-11 ENTHEOGENS MYTH AND HUMAN CONSCIOUSNESS is a much needed accessible exploration into the role of psychoactive sacramentsentheogens in religion mythology and history and also includes most treatments of the subject focus on modern scientific research psychotherapy are auto bibliographic accounts or are agenda driven or otherwise naive and myopic A great mystery of altered states of consciousness and species development is expanding with new archeological and anthropological discoveries Religious story telling myth is a timeless journey Surprisingly it s not

about truth It s about finding one s self in the midst of the discovery of the Other It is the story of what is separate and unknown that creates self consciousness Our entire life consists ultimately in the discovery of the Other which gives meaning to the discovery of the self The arts and language are the fossil remnants scattered on our path ENTHEOGENS MYTH AND HUMAN CONSCIOUSNESS discusses the influence of psychoactive substances on consciousness human evolution and mystical experiences It explores how religion mythology art and culture stem from entheogenic consciousness and why it s important to us today Entheogens or psychoactive sacraments have a long storied history that has played an essential role in the evolution of consciousness mythology culture religion art and even history and politics ENTHEOGENS MYTH AND HUMAN CONSCIOUSNESS outlines this suppressed yet seminal undercurrent of history giving examples of the role of entheogens from the primal shamanic religions through the historical religions esoteric mystical traditions including the Mystery Religions alchemy and Freemasonry and into contemporary expressions Authors Ruck and Hoffman draw upon decades of research and personal experience in discussing the best documented examples of historically important entheogenic evidences various ongoing threads of research and speculation to muse upon the meaning of it all Our hominid ancestors experienced a spiritual awakening at the very dawn of consciousness that set them apart from the other creatures of our planet It was a journey to another realm induced by a special food that belonged to the gods This was a plant that was animate with the spirit of deity It was an entheogen It was the visionary vehicle for the trip of the first shaman The story was told over and over again until it achieved the perfect form of a myth The realm was imagined as a topographical place the outer limit of the cosmos the fiery empyrean or its geocentric opposite our own planet Gaia Myths multiplied over time but they always preserved this primordial truth These myths provide a road map a scenario if you can read them for whoever today wants to follow However it is not an easy journey and it is also fraught with many dangers of getting lost of finding no return Access to the entheogens is now largely prohibited or strictly licensed The restrictions constitute an infringement of cognitive freedom limiting the further evolution of human potential into productive creative imagination and experiences that lie beyond the normal the traditional province of shamans who can understand the speech of plants and animals change shape at will and journey both physically and in the spirit to distant exotic realms In addition religions have staked out territorial claims to this realm of spiritual consciousness They have colonized it identified it with their god often reserving the access for their own elite Similarly trade in drugs both medicinal and illegal has colonized the etheogens making them only chemicals rationally depriving them of their spirit ENTHEOGENS MYTH AND HUMAN CONSCIOUSNESS is a guide for the curious that provides a historical overview of the role that entheogens have played in the development of our unique supremacy as a species and offers also pathways and advice for reconnecting with the primordial sources of nature s power ENTHEOGENS MYTH AND HUMAN CONSCIOUSNESS investigates the role entheogens have played in the evolution of humankind s attempt to define reality in a context of metaphysical or theological dimensions Although other botanical
