Douglas Kenyon,2008-02-11 Reveals the cutting edge of New Science and shows how established science disallows inquiry that challenges the status quo even when it produces verifiable results Contains 43 essays by 19 researchers denoting cutting edge heretical or suppressed scientific research including Immanuel Velikovsky Nikola Tesla Rupert Sheldrake and Masaru Emoto Edited by Atlantis Rising publisher J Douglas Kenyon Following the model of his bestselling *Forbidden History* and *Forbidden Religion* J Douglas Kenyon has assembled from his bimonthly journal *Atlantis Rising* material that explores science and technology that has been suppressed by the orthodox scientific community from the true function of the Great Pyramid and the megaliths at Nabta Playa to Immanuel Velikovsky s astronomical insights free energy from space cold fusion and Rupert Sheldrake s research into telepathy and ESP There is an organized war going on in science between materialistic theory and anything that could be termed spiritual or metaphysical For example Masaru Emoto s research into the energetics of water although supported by photographic evidence has been scoffed at by mainstream science because he has asserted that humans affect their surroundings with their thoughts The materialism or absolute skepticism of the scientific establishment is detrimental to any scientific inquiry that thinks outside the box This mentality is interested in preserving funding for its own projects those that will not rock the establishment From Tesla s discovery of alternating current to Robert Schoch s re dating of the Sphinx this book serves as a compelling introduction to the true history of alternative and New Science research

fertilized with the right amount of money for society to be healthy Money is the root of all evil or the love of money is the root of all evil Do we assume that the problem is human nature not money itself This book demonstrates that the problem is not human nature and it is not money itself The problem is who issues the money how it is issued and what it is issued for Monetary reform is necessary but not sufficient to bring about the world we know in our hearts To bring about the world we know in our hearts we must share that knowing with each other This book aims to show that when the individual is Free to express the love that wells up naturally to fulfill their life's purpose when society is Just because it is based on the people's active consent and participation in adjudicating remediating harm and when everything that the people provide each other to satisfy their needs and desires is the result of a voluntary initiative inspired and supported by the Community and funded as a right then the individual will be sovereign and will be creating contributing to and maintaining a society that benefits everyone

You Are the Mystery David D Zink,2000-12-12 Joan and David Zink have woven for us an essential and timely fabric from the present day research tracing the dynamic development of the concept of psycho integration Through the exploration by psychologist of the phenomena associated with demonstrable alteration in skin temperatures and the cardiovascular responses to central control we have come to that point where bio feedback is available to the individual as a signpost for improving his own state of well being through his own intentional and conscious control Thus the paths of insight into the unconscious have now broadened We are each given the possibilities of accepting responsibility for our own growth and understating of our own levels of consciousness By their scholarly and critical reviews of the literature beginning with the insights of Freud and Jung and expanding since WWII through clinical physiologists sources of bio feedback Joan and David Zink have clearly delineated for us the problems of the mind body dichotomy Rational acceptance of functional psycho integration is now available for further exploration and for clinical applications Of special value are the chapters expanding and simplifying the evidence of the importance to man of his own inner development with discovery of his own powers in spiritual understanding and self direction Current research has provided a meeting ground for Occidental and Oriental philosophies Occidental man will thereby be enabled to pursue the development of his highest self and to achieve his own individual understanding of his place in the Greater Universe
