Hitler's and Stalin's Misuse of Science S. D. Tucker, 2023-12-30 S D Tucker delves into the Nazi and Soviet historical hijacking of science by extreme ideologies revealing the dangerous consequences of pseudoscientific narratives in today's world In today's world science itself which we are constantly being told is a neutral vehicle for wholly objective ideas and theories is increasingly being hijacked and abused by the toxic modern cult of identity politics of both left and right But

should we be too surprised by any of this No because this exact same sorry process has happened time and again before under the rule of totalitarian political cults like the Nazis and the Soviets both of which vigorously promoted various pseudoscientific theories of Aryan Science and Marxist Science on the sole grounds that they were ideologically correct as opposed to being factually so Nazi racial pseudoscience and belief in nonsense like the World Ice Theory which claimed that stars did not really exist and were actually just reflections of the sun off giant floating space icebergs were widely encouraged in the Third Reich and used for long term military weather forecasting purposes Likewise the ideas of the renegade biologist Trofim Lysenko who developed a deluded anti capitalist theory of genetics opposed to Darwin s were responsible for widespread famine in the USSR when Stalin allowed him to apply them practically towards the nation s crop harvests Those academics and functionaries who disputed these clearly false pseudoscientific notions often found themselves in deep trouble or ultimately dead In this incisive and challenging study author S D Tucker explores the often weird and fanciful theories that were proposed and took hold under these extreme regimes and in doing so sends a word of warning to the modern world of the internet and social media where similar bizarre ideas are expounded and consumed with frightening gullibility Everywhere from Western universities schools and hospitals to Vladimir Putin s Russia absurd stories of sexist glaciers racist gravity socialist trees and NATO backed mutant extra terrestrial potatoes are being promoted as items of politically mandated scientific fact by compliant collaborators and credulous social media followers Pseudoscientific narratives are even now used to justify the 2022 invasion of Ukraine much as they were once used to justify the Nazi conquest of Europe or the spread of Communist revolution across the globe *Sorenken no yojigen kagaku* Ostrander, Sheila, Schroeder, Lynn, 1973 *New Revolutions for a Small Planet* Kingsley Dennis, 2012-01-01 According to sociologist Kingsley L Dennis our current economic woes are part of a larger shift in the way our global systems function In his recent book *New Revolutions for a Small Planet* Watkins November 2012 Dennis provides a strong dose of hope for young adults everywhere especially those hit hardest by the current economic crisis According to Dennis we are witnessing the last throes of the industrial revolution model and mindset The signs are all around us he says pointing to the rise of decentralized communications the growth of NGOs and volunteerism and rising social unrest against dysfunctional political systems These are all harbingers of the next phase of our socio cultural evolution *New Revolutions* looks at what young people can expect in the years ahead The birth of the empathic mind which is heralded by greater global interconnections networked communication and a participatory culture A burgeoning sense of a dynamic enchanting cosmos and the increased urge to find personal meaning and fulfillment in life Greater awareness of how new innovations will lead to creative new ways of thinking that will solve the world s current problems New systems and models that will emerge to eventually make the old models obsolete In his conclusion Dennis writes that *Revolutions in communications and energy technology go together with our shifting forms of consciousness and that life upon this planet is about to undergo a period of transition that will test our*
