## **Ramses II And His Time A Volume In The Ages In Chaos Series:**

Ramses II and His Time Immanuel Velikovsky, 2010 In his book *Ramses II and His Time* Immanuel Velikovsky continues his reconstruction of ancient history This volume covers the best known of old Egypt's pharaohs Ramses II and his adversary who turns out to have been none other than Nebuchadnezzar **Ages in Chaos: Ramses II and his time** Immanuel Velikovsky, 1978 *Ages in Chaos III: Peoples of the Sea*, **Empire of Thebes, Or, Ages in Chaos Revisited** Emmet John Sweeney, 2006 Inspired by Velikovsky's *Ages in Chaos* Sweeney embarks on a 3 part work to complete the reconstruction of ancient history he calls for a much more radical shortening of ancient chronology and asserts that Velikovsky placed too much reliance on the Bible as a chronological measuring rod *Ages in Chaos I: From the Exodus to the End of Akhenaton*, *The Pseudoscience Wars* Michael D. Gordin, 2024-05-31 Properly analyzed the collective mythological and religious writings of humanity reveal that around 1500 BC a comet swept perilously close to Earth triggering widespread natural disasters and threatening the destruction of all life before settling into solar orbit as Venus our nearest planetary neighbor Sound implausible Well from 1950 until the late 1970s a huge number of people begged to differ as they devoured Immanuel Velikovsky's major best seller *Worlds in Collision* insisting that perhaps this polymathic thinker held the key to a new science and a new history Scientists on the other hand assaulted Velikovsky's book his followers and his press mercilessly from the get go In *The Pseudoscience Wars* Michael D Gordin resurrects the largely forgotten figure of Velikovsky and uses his strange career and surprisingly influential writings to explore the changing definitions of the line that separates legitimate scientific inquiry from what is deemed bunk and to show how vital this question remains to us today Drawing on a wealth of previously unpublished material from Velikovsky's personal archives Gordin presents a behind the scenes history of the writer's career from his initial burst of success through his growing influence on the counterculture heated public battles with such luminaries as Carl Sagan and eventual eclipse Along the way he offers fascinating glimpses into the histories and effects of other fringe doctrines including creationism Lysenkoism parapsychology and more all of which have surprising connections to Velikovsky's theories Science today is hardly universally secure and scientists seem themselves beset by critics denialists and those they label pseudoscientists as seen all too clearly in battles over evolution and climate change *The Pseudoscience Wars* simultaneously reveals the surprising Cold War roots of our contemporary dilemma and points readers to a different approach to drawing the line between knowledge and nonsense *The Theban Empire* Emmet Sweeney, 2020-05-01 Burma is a resource rich country in transition from monarchy to British colony from independence to military dictatorships and from the Generals to the Lady Aung San Suu Kyi This book traces one of the longest civil wars in history It's about the Rohingya a brutally persecuted people It's about pro democracy uprisings about sacrifice and above all the human resilience and capacity for hope The book is based on true events and provides unique firsthand insights into key players in this enigmatic and troubled nation **Ages in Chaos II** Immanuel Velikovsky, 2018-06

In his book *Ramses II and His Time* Immanuel Velikovsky continues his reconstruction of ancient history This volume covers the best known of old Egypt's pharaohs Ramses II and his adversary who turns out to have been none other than Nebuchadnezzar Egypt's Ramesside Pharaohs and the Persians Emmet Sweeney, 2021-10-01 The accepted chronology of ancient Egypt Persia and Babylonia is wrong to a dramatic degree with some major historical events mis dated by several centuries Matching events matching biographies and matching cultural artifacts show that many important people whom we are taught lived in different eras were in fact contemporaries Modern Egyptologists tell us that Seti I and Ramses II reigned 700 years before the rise of the Medes and Persians but Emmet Sweeney marshals archeological and linguistic evidence to show that Ramses II's dynasty was terminated by the Persian Conquest of Egypt 525 BC Seti II hailed by the Egyptians as a warrior and hero turns out to be one and the same as Inaros the Egyptian patriot who waged war against Xerxes and was eventually impaled on the orders of Artaxerxes I Egypt's Ramesside Pharaohs and the Persians represents the final volume in the reconstruction of Near Eastern antiquity bringing us from the start of the 6th century down to the early 3rd The history presented here will appear at the same time both familiar and startlingly new Readers will see how Ramses II normally believed to have reigned during the 14th 13th century BC was actually a contemporary of Cyrus the Great founder of the mighty Persian Empire They shall find how during the latter years of Ramses II Cyrus usurped the Median throne and under the Assyrian title of Tukulti apil esharrā Tiglath Pileser conquered Lydia Babylon and all of Palestine as far as the borders of Egypt Names well known from biblical history such as Sargon and Nebuchadnezzar are shown to be identical to characters equally well known from classical history including Darius I Artaxerxes I and others Analyzing events like the Persian War against Greece and Alexander's conquest of Persia Emmet Sweeney goes far beyond studying the monuments of each land He has consulted ancient authors such as Manetho and Herodotus as well as the hieroglyphic documents of Egypt but in addition Sweeney discusses how the design of chariots for example went through a very definite evolution an evolution accurately depicted by the artists of the time Close study of such evidence may help to date the reign of a king with a high degree of accuracy Three dozen illustrations and a variety of timelines help bring the startling picture into sharp focus

**Symposium on Inflation (JCR Vol. 07 No. 01)** Bruce Bartlett, M. A., Carl Bogue, Th.D., Donald Kemmerer, Ph.D., Robert Metcalf, Gary North, Ph.D., Tommy W. Rogers, Ph.D., Tom Rose, M.A., Hans Sennholz, Ph.D., Mark Skousen, Ph.D., Stan F. Vaninger, M.S., Jim West, M.Div., The inflation crisis is now an international phenomenon The whole industrialized world is suffering from chronic price inflation and no government seems to be able to do anything about it When those of us associated with Chalcedon began warning people of the impending inflation back in 1964 few listeners took us seriously They simply could not accept the fact that governments would not control their monetary policies But year after year as monetary inflation has continued thereby producing price inflation people have learned the grim reality of what we

warned about a decade and a half ago The problem facing us today is massive Few people understand the inflation process and when people don't understand what the cause of their problem is and the problem gets serious enough then they are likely to make serious errors personal financial errors political errors and policy errors If Christians have no better understanding of the causes and cures for inflation than the secular world does then we are not going to be in a position to exercise effective leadership The trouble is everyone thinks he knows what inflation is all about A person who wouldn't venture an opinion concerning physical chemistry or astrophysics is ready with an explanation for inflation About the only things not going up in price today are dime a dozen solutions to inflation And given their value they shouldn't be going up in price the supply of them keeps increasing too fast What the latest issue of The Journal covers is the inflation question causes effects cures and ineffective solutions that have failed in the past We hope that people who have read this issue will have a far better perspective on the subject what to do about it personally what the political authorities should do and what we can expect them to do We can expect them to take steps that will compound the problems The intellectual father of modern price inflation was John Maynard Keynes It is the universal popularity of Keynes ideology and ideology favorable to government intervention and printing press money which has led to the monetary policies of today Ideas have consequences and Keynes had some exceedingly bad ideas The professors in the universities who have infected two generations of students with Keynesian economic theory are still in power fully tenured and still somewhat respectable But these men are now trapped by their own ideology price inflation is wiping out faculty salaries and pensions This is precisely what Keynes said would happen the reduction of real purchasing power despite nominal increases in wages Instead of the workers getting deceived by this phenomenon it has been the professors When this era's economics are destroyed by the ravages of inflation controls unemployment and market instability the utter nonsense published by the economists over the last 40 years will be seen for what it was incomprehensible overly mathematical propaganda for the construction of a statist society What Christian laymen need to understand in advance is that professional economists supposedly orthodox in their Christian faith have generally bought the Keynesian ideology We have to be ready to abandon all such attempts to fuse Keynesian economics and Christian faith We have to disassociate ourselves from all versions of baptized Keynesianism so that when public repudiation comes in the wake of economic destruction Christians will be able to say We warned you about this Now listen to us while we lay out the answers One of the nicest features of the last 15 years of international price inflation has been the erosion of faculty pension funds university endowments and the reputation of the big name Keynesian advisors They still have some prestige left just as they still have some money left in their pension funds but they are in trouble The public is beginning to catch on If these economic doctors can't seem to be able to beat inflation in their own lives why should anyone take them seriously These two bit emperors have no clothes All they have left to cover themselves are their Ph.D.s Now that these have been debased through overproduction they don't mean as much as they used to The Bible does have answers It has solutions

to the problem of inflation They Keynesians have never taken the Bible seriously as a guide to economic policy including the Keynesians who teach on Christian college campuses We have to be able to spot nonsense solutions when they are offered in the name of Science or Christianity Can we have inflation and unemployment simultaneously The Keynesians used to say no Now we see both Can the boom bust cycle be avoided through fine tuning the economy the Keynesians used to say yes Now we know how wrong they have been Will the government be able to find a politically acceptable solution to inflation before mass inflation wipes out the middle class None has been able to do it so far Will the middle class wake up in time Some of them have but as they do prices rise even more rapidly as they seek to find inflation hedges Will any of these hedges really work Did any of them work in the great German inflation of 1921 23 What will be the effect on society of continuing inflation Who will be hurt most Will anyone profit All of these questions are covered in the latest issue Keynesians in the classroom won't appreciate the answers but The Journal isn't aimed at them anyway except insofar as you would aim a shotgun The economies of the West are in serious trouble and this trouble is going to become far worse over the next half decade Christians had better be forewarned If Christians fare no better in the coming crises than humanists then they will hardly be in a position to offer advice after the crash

**Hatshepsut, Queen of Sheba** Emmet Scott, 2012 Over the centuries the figure of the Queen of Sheba has loomed large in poetry and romance The mysterious Queen who is said to have visited Solomon in Jerusalem has cast her spell over poets painters and storytellers of many lands The people of Ethiopia have always claimed her as her own and to this day boast that her son Menelik fruit of the union between the Queen and Solomon stole the Ark of the Covenant from the Temple in Jerusalem after Solomon's death For all that historians have been more sanguine and increasingly over the past century the academic community has veered towards consigning both royal characters to the fairyland of myth and romance In 1952 however Immanuel Velikovsky made an astonishing claim He announced that not only did the Queen of Sheba exist but that she left numerous portraits of herself as well as an account of her famous journey to Israel The Queen of Sheba Velikovsky announced was none other than Hatshepsut the female pharaoh of Egypt who built a beautiful temple outside Thebes on the walls of which she immortalized the most important event of her life an expedition to the Land of Punt Punt said Velikovsky was one and the same as Israel In this volume historian Emmet Scott brings forward dramatic new evidence in support of Velikovsky He finds among other things that Ancient Israel just like Punt was a renowned source of frankincense a Egyptian documents generally ignored in academic circles unequivocally place Punt in the region of Syria Palestine a The goddess Hathor was known as the Lady of Punt but she was also known as the Lady of Byblos The Egyptians claimed to be of Puntite origin but Jewish and Phoenician legends claimed that the Egyptians came from their part of the world and the Phoenicians named Misor almost certainly the same as Osiris as the Phoenician hero who founded the Nile Kingdom This and a wealth of additional evidence has Scott argues shifted the burden of proof onto Velikovsky's critics and the identification of Hatshepsut with the Queen of Sheba will eventually compel the rewriting of

all the history books Joyce Tyldesley's *Hatchepsut* deals with the same character but from an entirely conventional viewpoint. She never even raises the possibility that the accepted chronology of Hatshepsut's life may be wrong. In his *Ages in Chaos*, however, Immanuel Velikovsky did raise this possibility and was the first to suggest that Hatshepsut be identified with the Queen of Sheba. Velikovsky's work remains extremely popular and the present book aims to take his ideas forward, exploring new evidence that has come to light since his death. This new evidence, Scott argues, puts the equation of Hatshepsut with the Queen of Sheba virtually beyond doubt.
