Rubian Romanticism:

Interracial Intimacy Rachel F. Moran, 2001 Crossing disciplinary lines Moran looks in depth at interracial intimacy in America from colonial times to the present She traces the evolution of bans on intermarriage and explains why blacks and Asians faced harsh penalties while Native Americans and Latinos did not She provides fresh insight into how these laws served complex purposes why they remained on the books for so long and what led to their eventual demise As Moran demonstrates the United States Supreme Court could not declare statutes barring intermarriage unconstitutional until the civil rights movement coupled with the sexual revolution had transformed prevailing views about race sex and marriage

From Romanticism to Modernismo in Latin America David William Foster, Daniel Altamiranda, 1997 This volume traces the modern critical and performance history of this play one of Shakespeare's most loved and most performed comedies The essay focus on such modern concerns as feminism deconstruction textual theory and queer theory

Schmidt, 2011-01-01 It's a critical cliché that Cervantes' Don Quixote is the first modern novel but this distinction raises two fundamental questions First how does one define a novel And second what is the relationship between this genre and understandings of modernity In *Forms of Modernity* Rachel Schmidt examines how seminal theorists and philosophers have wrestled with the status of Cervantes' masterpiece as an exemplary novel in turn contributing to the emergence of key concepts within genre theory Schmidt's discussion covers the views of well known thinkers such as Friedrich Schlegel José Ortega y Gasset and Mikhail Bakhtin but also the pivotal contributions of philosophers such as Hermann Cohen and Miguel de Unamuno These theorists' examinations of Cervantes' fictional knight errant character point to an ever shifting boundary between the real and the virtual Drawing from both intellectual and literary history *Forms of Modernity* richly explores the development of the categories and theories that we use today to analyze and understand novels **The Americana**, 1923

Forms of Modernity Rachel Schmidt, 2011-04-09 It's a critical cliché that Cervantes' Don Quixote is the first modern novel but this distinction raises two fundamental questions: First, how does one define a novel? And second, what is the relationship between this genre and understandings of modernity? In *Forms of Modernity*, Rachel Schmidt examines how seminal theorists and philosophers have wrestled with the status of Cervantes' masterpiece as an exemplary novel in turn contributing to the emergence of key concepts within genre theory. Schmidt's discussion covers the views of well-known thinkers such as Friedrich Schlegel, José Ortega y Gasset, and Mikhail Bakhtin but also the pivotal contributions of philosophers such as Hermann Cohen and Miguel de Unamuno. These theorists' examinations of Cervantes' fictional knight errant character point to an ever-shifting boundary between the real and the virtual. Drawing from both intellectual and literary history, *Forms of Modernity* richly explores the development of the categories and theories that we use today to analyze and understand novels.

Fashion and Orientalism Adam Geczy, 2013-08-01 Orientalism is a central factor within the fashion system, both subtle and overt. In this groundbreaking book, the author shows the extent of the influence that the Orient had and continues to have on fashion. Our concept of Western fashion is unthinkable without it, whether in terms of the growth of the cotton industry or of garments we take for granted such as the dressing gown. From pre-modern to contemporary times, this book demonstrates that in the realms of fashion, the Orient is not simply a construction or a fascination of the imperial West with its eastern other. Rather, it reveals the extent of cross-pollination, exchange, and multiple translation that has taken place between East and West for the last 500 years. Exploring topics including Chinoiserie, masquerade, bohemianism, Japonisme, the de-Orientalization of the Orient, perfume, and the birth of couture, *Fashion and Orientalism* is an essential read for students and scholars of fashion, cultural studies, and history.

Women in the Short Stories of Pedro Antonio de Alarcón Colleen J. Combs, 1997 Examining Pedro Alarcón as a transitional figure between the Romantic and Realist movements, this volume explores the effect of his Romantic portrayal of women. A brief biographical background is also included, focusing in particular on his relationships with women.

Surrealism and film after 1945 Kristoffer Noheden, Abigail Susik, 2021-07-06 This is the first volume to focus on the diverse permutations of international surrealist cinema after the canonical interwar period. The collection features eleven original contributions by prominent scholars such as Tom Gunning, Michael L. Wy, Gavin Parkinson, and Michael Richardson, alongside other leading and emerging researchers. An introductory chapter offers a historical overview as well as a theoretical framework for specific methodological approaches. The collection demonstrates that renowned figures such as Leonora Carrington, Maya Deren, Alejandro Jodorowsky, and Jan van Kesteren took part in shaping a vibrant and distinctive surrealist film culture following the Second World War. Addressing highly influential films and directors related to international surrealism during the second half of the twentieth century, it expands the purview of both surrealism and film studies by situating surrealism as a major force in postwar cinema.

Anglo-American Hispanists and

the Spanish Civil War S. Faber, 2008-08-04 In this book Faber assesses the long term impact of the Spanish Civil War on Hispanic Studies as an academic field in the United States and Great Britain Combining institutional history with biography the book gives a compelling account of the dilemmas that the war posed for four Hispanists who turned their love of Spain into their life's work *Realism as Resistance* Denise DuPont, 2006 This book explores the fluid boundaries between realism and romanticism while considering this oscillation between discourses as the legacy of the Quijote to the nineteenth century Spanish novel Furthermore there are studies of characters who act as authors in Benito Perez Galdos's first series of Episodios Nacionales Pio Baroja's La lucha por la vida and Leopoldo Alas Clarin's La Regenta For many realists romanticism has negative associations quixotism exaggeration impracticality and femininity or effeminacy Unamuno's Theory of the Novel C. A. Longhurst, 2017-07-05 Miguel de Unamuno 1864-1936 is widely regarded as Spain's greatest and most controversial writer of the first half of the twentieth century Professor of Greek and later Rector at the University of Salamanca and a figure with a noted public profile in his day he wrote a large number of philosophical political and philological essays as well as poems plays and short stories but it is his highly idiosyncratic novels for which he coined the word novela that have attracted the greatest critical attention Niebla Mist 1914 has become one of the most studied works of Spanish literature such is the enduring fascination which it has provoked In this study C A Longhurst a distinguished Unamuno scholar sets out to show that behind Unamuno's fictional experiments there lies a coherent and quasi philosophical concept of the novelesque genre and indeed of writing itself Ideas about freedom identity finality mutuality and community are closely intertwined with ideas on writing and reading and give rise to a new and highly personal way of conceiving fiction
