Baev,1999 Challenges and Options in the Caucasus and Central Asia Pavel Baev,1997 That Russia has vital strategic interests in the Caucasus and Central Asia can be taken as an established political fact What is remarkable about this fact is that the nature of these interests as well as the nature and intensity of challenges to them have changed quite drastically during Russia s 5 years of existence as a post Soviet state It is no wonder that Russian policymakers are permanently agonizing over reassessment of these interests and are now nowhere close to producing a coherent strategy of their advancement This monograph will argue that Russia s ability to meet the challenges from the South is a major factor in determining its future as a world power 1 There is no doubt that the Caucasus and Central Asia are two separate regions in the turbulent post Soviet geopolitical space with different political dynamics and plenty of internal diversities and conflicts Even looking from Moscow it is obvious that these differences are of such a scale that no single integrated strategy could possibly embrace both regions two essentially different policies are required and were in fact pursued Still the author attempts to take these two regions together seeking to trace interplay among Russia s economic political and strategic interests and to discover parallels in Moscow s past current and possible future activities This paper will first take a brief look at the evolution of Russia s policies in the Caucasus and Central Asia in 1992 94 then the impact of the Chechen War will be evaluated This is followed by the analysis of the growth of the economic interests first of all related to oil and the increase in influence of the regional processes in Russia itself Finally an attempt to distinguish between the real and misperceived security challenges for the near future will be undertaken **A Bear in the Mountains** Kenneth Ora Archbold,2012 The Caucasus region is an integral part of Russian history politics and culture both in the arenas of internal and external policy Throughout the centuries Russia has spent much blood and treasure to maintain its influence in this vital region The purpose of this thesis is to highlight the Russian government s efforts to maintain political economic and cultural influence in the Caucasus and how those efforts led Russia into two Chechen wars and a brief but consequential armed conflict with Georgia This thesis paper will briefly examine the history of Russian conquest in the Caucasus and how the region became so important to Russia politically culturally and economically The paper will also explore the effects that the fall of the Soviet Union had on relations between the Russian central government and the North Caucasus republics and how the conditions that the break up created led to the first Chechen War The work will also examine the causes of the second Chechen War and the role of radical Islam in the conflict

between the Russian federal government and rebels in the North Caucasus This paper will also analyze the possible threats to Russian hegemony in the Caucasus including radical Islam terrorism and a Georgian government that seems determined to exit Russia's sphere of influence The work will also analyze the 2008 Russo Georgian War and how it impacted not just Russo Georgian relations but also how it helped define Russia's relationship with the West and its role in world politics Finally the thesis will study Russia's future prospects in the region whether Russian hegemony will remain in the South Caucasus and what should be done to ensure peace and stability in the North Caucasus *The State of Law in the South Caucasus* C. Waters, 2005-10-26 This book evaluates the strength of the rule of law in the South Caucasus a volatile and strategically important region of the former Soviet Union Contributors all of whom who have lived and worked in Armenia Azerbaijan or Georgia tackle this question from the perspectives of both law and politics A wide range of specific issues are addressed including corruption in the justice system forced migration telecommunications and environmental protection

Contested Borders in the Caucasus Bruno Coppieters, 1996 The contributions to this book cover the ethnic conflicts in the Caucasus over Nagorno Karabakh South Ossetia and Abkhazia and the conflict in the North Caucasus between the Ingush and Ossetes Alexei Zverev gives a broad overview of all these conflicts Ghia Nodia's contribution focuses on the consequences of Georgian independence for the conflict with South Ossetia Dmitri Trenin and Dmitri Danilov discuss Russia's interests and policies in the region Eric Remacle and Olivier Paye deal with the mediation policies of the CSCE and the UN in the main conflict there Firouzeh Nahavandi and Abdollah Ramezanzadeh analyse Iranian policies in the region while Freddy De Pauw describes Turkish disillusionment with its co operation projects with Azerbaijan The conclusions of Bruno Coppieters examine the Caucasus as an issue of regional security **Effects of Russian Foreign Policy on Political**

Stability in the South Caucasus Olga Bogatyrenko, 2003 *The Caucasus Policy of Russia in the Early 21st Century* Vefa Kurban, 2020-08-20 This book discusses the Caucasus analysing its strategic aspects and the policies of Russia towards the region throughout history and especially during the Putin administration It also considers Russia's relations with both Azerbaijan and Georgia after they gained their independence and sheds light on the Chechen Russian conflict and Russo Georgian Wars that took place following the dissolution of the Soviet Union Crossroads and Conflict Gary K.

Bertsch, Cassady B. Craft, Scott A. Jones, Michael D. Beck, 2013-10-08 The world's second largest reserves of petroleum lie beneath the land locked Caspian Sea making the Caucasus of vital importance to both regional and global economic and security interests This book brings together experts from the US Russia and the Caucasus to examine the issues of conflict foreign policy tradeoffs and security in the region It takes into account the geopolitical factors Western and Russian involvement and the interaction between domestic and external pressures Crossroads and Conflict looks at the challenges faced by these countries and examines the possibilities for future peace and prosperity in the region Authoritarian Stability in the South Caucasus Matteo Fumagalli, Koba Turmanidze, 2018-04-18 In recent years competitive authoritarianism

has become an increasingly common form of non democratic politics What is the relationship between the demand for particular public policies and a regime s durability in office in such cases How does policy making interact with organizational power the willingness to resort to coercion and patronage politics in countries home to democratic looking institutions that none the less fall short of democratic standards In this book we show that such regimes do more than just survive and collapse Moreover we argue that far from being passive pawns in the hands of their leaders voters in competitive authoritarian regimes do matter are taken seriously We investigate how regimes and voters interact in the cases of Georgia and Armenia two post Soviet countries in the South Caucasus to identify how voters preferences feed into policy making and gauge the extent to which the regimes adjustment of their policies crucially affects regime stability To these ends we draw on a variety of quantitative and qualitative methods including a survey experiment carried out in the two countries The volume was originally published as a special issue of the journal *Caucasus Survey* **Ethnic Conflict and Russian Intervention**

in the Caucasus [sic] Fred Wehling,1995 Security, Society and the State in the Caucasus Kevork Oskanian,Derek Averre,2018-12-07 The Caucasus including the South Caucasus states and Russia s North Caucasus continues to be an area of instability and conflict This book based on extensive original research explores in detail at both the local and regional level the interaction between state and society and the impact of external actors engagement in the region within a conceptual framework linking security and democracy Unlike other books on the subject which tend to examine the issues from a Western political science perspective this book incorporates insights from sociology geography and anthropology as well as politics and contains contributions from scholars who have carried out extensive research in the region within a European Commission funded Seventh Framework Programme project **The South Caucasus - Security, Energy and**

Europeanization Meliha B. Altunışık,Oktay F. Tanrisever,2017-10-02 This book explores developments in the countries of the South Caucasus Armenia Azerbaijan and Georgia since the EU included the region in the European Neighbourhood Policy in 2003 It considers issues related to energy ethnic conflict steps towards regional integration and above all security including the involvement of Russia Iran Turkey and the United States It assesses the key importance of energy argues that the prospects for regional integration are weak and contends that while the approach of Europe and the United States has been confused and weak not holding out great hope of EU or NATO membership Russia s interest and involvement in the region is strong and growing The Caucasus and Caspian Region United States. Congress. House. Committee on

International Relations. Subcommittee on Europe,2001 *Russian Foreign Policy in the South Caucasus* Brian Robert Marksberry,2011 For about a decade Russia has been a flush with money and economic prosperity after the financial chaos of the 1990s This boom has been driven largely by Moscow s exports of natural gas and oil and helped by record high energy prices Much of this energy sources have been carried on pipelines that run through Russia s unstable North Caucasus region However Western backed pipelines in the South Caucasus pose a threat towards Russia s newfound prosperity In order to

undermine future pipelines in the region Moscow has sought to destabilize the region by encouraging and manipulating separatist tensions in the pivotal nation of Georgia These tensions culminated in the brief conflict in August 2008 Three years later relations between Tbilisi and Moscow remain high and the West continues to see Georgia as a pivotal transit route for its pipelines much to Moscow's chagrin

Small States, Russia and the West Eduard Abrahamyan, 2025-05-15 This book offers an in depth investigation of the contemporary geopolitics of the Caucasus through a multi level analysis of regional political transformations It delves into the contrasting foreign policies of small states in the Caucasus in response to the Russian interventions in Georgia in 2008 and Ukraine in 2014 and 2022 which marked Russia's return as an order forming power challenging the agenda of Euro Atlantic integration The author expands and adapts Constellation Theory to examine emerging non Western regional orders using a relational polarity framework to argue that the choices of Armenia Azerbaijan and Georgia are not merely products of Russian or Western influence but are shaped by each state's unique geocultural propensities distinct asymmetric relationships with divergent power poles and differing perceptions of reality This book enriches the emerging discourse on the regional complexities of the multipolar world order with multifaceted interpretations of politics and decision making through its nuanced regional focus and innovative theoretical grounding It contributes significantly to International Relations theory geopolitics small states and area studies offering invaluable insights into small state foreign policy dynamics in the age of rising global multipolarity
