Rubicon Beach:

Rubicon Beach Steve Erickson, 2013-04-30 A brilliant novel about an alternate America that has been split in two San Francisco Chronicle In a dystopian Los Angeles Cale is a newly released political prisoner under surveillance Beset by dark visions and relegated to working in a desolate library he is told without explanation that he is the one everyone is looking for For Catherine a mysterious South American beauty the crossing is no less extreme Leaving her tribal life she undergoes various confinements and escapes before winding up at the door of a Hollywood screenwriter Finally Jack Mick Lake possessed by numerology must negotiate a river all his own Stark and ethereal Steve Erickson's tales connect to form a luminous and passionate whole *Rubicon Beach* Steve Erickson, 1988-01 Rubicon Beach Steve Erickson, 1986

Conversations with Steve Erickson Matthew Luter, Mike Miley, 2021-06-28 Much like his novels Steve Erickson b 1950 exists on the periphery of our perception a shadow figure lurking on the margins threatening to break through but never fully emerging Despite receiving prestigious honors Erickson has remained a subterranean literary figure receiving effusive praise from his fans befuddled or cautious assessments from reviewers and scant scholarly attention Erickson's obscurity comes in part from the difficulty of categorizing his work within current trends in fiction and in part from the wide variety of concerns that populate his writing literature music film politics history time and his fascination with his home city of Los Angeles His dream fueled blend of European modernism American pulp and paranoid late century postmodernism makes him essential to an appreciation of the last forty years of American fiction but difficult to classify neatly within that same realm He is at once thoroughly of his time and distinctly outside it In these twenty four interviews Erickson clarifies how his aesthetic and political visions are inextricable from each other He diagnoses the American condition since World War II only to reveal that America's triumphs and failures have been consistent since its inception and that he presciently described decades ago certain features of our present Additionally the interviews expose the remarkable consistency of Erickson's vision over time while simultaneously capturing the new threads that appear in his later fiction as they emerge in his thought *Conversations with Steve Erickson* will deepen readers understanding of how Erickson's books work and why this utterly singular writer deserves greater attention **The A to Z of Postmodernist Literature and Theater** Fran Mason, 2009-07-23

Postmodernist literature embraces a wide range of forms and perspectives including texts that are primarily self reflexive texts that use pastiche burlesque parody intertextuality and hybrid forms to create textual realities that either run in opposition to or in parallel with an external reality fabulations that develop both of these strategies texts that ironize their relationship to reality works that use the aspects already noted to more fully engage with political or cultural realities texts that deal with history as a fiction and texts that elude categorization even within the variety already explored For example in fiction a postmodernist novel might tell a story about a writer struggling with writing only perhaps to find that he is a character in a book by another writer struggling to write a book *The A to Z of Postmodernist Literature and Theater*

examines the different areas of postmodernist literature and the variety of forms that have been produced This is accomplished through a chronology an introductory essay a bibliography and several hundred cross referenced dictionary entries on individual postmodernist writers the important postmodernist aesthetic practices significant texts produced throughout the history of postmodernist writing and important movements and ideas that have created a variety of literary approaches within the form By placing these concerns within the historical philosophical and cultural contexts of postmodernism this reference explores the frameworks within which postmodernist literature of the late twentieth and early twenty first century operates

Outside, America Hikaru Fujii, 2013-04-25 The idea of the outside as a space of freedom has always been central in the literature of the United States This concept still remains active in contemporary American fiction however its function is being significantly changed *Outside America* argues that among contemporary American novelists a shift of focus to the temporal dimension is taking place No longer a spatial movement the quest for the outside now seeks to reach the idea of time as a force of difference à la Deleuze by which the current subjectivity is transformed In other words the concept is taking a temporal turn Discussing eight novelists including Don DeLillo Richard Powers Paul Theroux and Annie Proulx each of whose works describe forces of given identities masculine identity historical temporality and power etc which block quests for the outside Fujii shows how the outside in these texts ceases to be a spatial idea With due attention to critical and social contexts the book aims to reveal a profound shift in contemporary American fiction
