Ideal : The Fundamentals of a New Philosophy of Life Rudolf Eucken, 1912 Life's Basis and Life's Ideal The Fundamentals of a New Philosophy of Life Philosophies of life representations of human life as a whole surround us to day in abundance and court our adherence The fusion of rich historical development with active reflection gives occasion to the most diverse combinations and makes it easy for the individual to project a representation corresponding to his circumstances and his mood Thus to day the philosophies of life of individuals whirl together in chaotic confusion gain and lose the passing favour displace one another and themselves change kaleidoscopically It is not the concern of philosophy to occupy itself more closely with opinions so accidental and so fleeting There are however philosophies of life of another kind conceptions of life which unite and dominate large numbers of people hold up a common ideal for their activity and constitute a power in the life of universal history These philosophies of life are rooted in particular concrete forms of life in actual

combinations of working and striving which with dominating power surround the individual 4 and point out his course With such ascendancy they may seem to him to be unassailable and a matter of natural necessity in reality they are a product of the industry of universal history and from this point of view appear merely as attempts to comprehend the boundless stream of life and to win a character for our otherwise indefinite existence For at first we stand defenceless and helpless in face of the wealth of impressions and suggestions which throng upon us and draw us in opposite directions Only in one way are we able to prevail life must concentrate and acquire a controlling centre within itself and from that begin a process of counteraction We lack distinction of centre and environment we need an inner aspiration an aspiration which seeks to draw the whole of existence to itself and to mould it in its own particular way This however is impossible unless at the same time a philosophy of life a profession of faith as to the nature of the whole a justification of our undertaking is evolved A philosophy of life established in this manner will be incomparably more powerful and fuller in content than the mere foam on the surface of time

Rudolf Eucken Meyrick Booth, 2015-06-24 Excerpt from Rudolf Eucken His Philosophy and Influence This little book is an attempt to provide a popular account of a philosophy which is playing a leading part in shaping the thought and life of the

modern world It has been my endeavour to avoid technical philosophical language and to treat the subject throughout in such a fashion as to appeal to those who have made no special study of philosophy or theology Professor Eucken has no dearer wish than that philosophy should cease to be a mere academic speciality and become a power in the life of the people and he seeks in particular to interest all those men and women who are growing tired of mere negation and agnosticism I feel therefore that my imperfect attempt to interpret his comprehensive work of construction perhaps needs no apology For Eucken has done much more perhaps than any other living man to render possible to modern people a belief in the reality and supremacy of the spiritual world And what he finally seeks is nothing less than the reconstruction of our entire life and civilisation upon a positive spiritual basis About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Rudolf Eucken Abel J. Jones, 2017-10-02 *Rudolf Eucken A Philosophy of Life* By Abel J Jones The name of Eucken has become a familiar one in philosophical and religious circles Until recent years the reading of his books was confined to those possessing a knowledge of German but of late several have been translated into the English language and now the students of philosophy and religion are agog with accounts of a new philosopher who is at once a great ethical teacher and an optimistic prophet There is no doubt that Eucken has a great message and those who cannot find time to make a thorough study of his works should not fail to know something of the man and his teachings The aim of this volume is to give a brief and clear account of his philosophical ideas and to inspire the reader to study for himself Eucken s great works Professor Rudolf Eucken was born in 1846 at Aurich in Frisia He attended school in his native town and then proceeded to study at the Universities of Gottingen and Berlin In 1874 he was invited to the Professorship of Philosophy at the University of Jena and here he has laboured for thirty eight years during this period he has been listened to and admired by many of the more advanced students of philosophy of all countries and continents
