Recasting Folk in the Himalayas Stefan Fiol, 2017-09-11 Colonialist nationalist and regionalist ideologies have profoundly influenced folk music and related musical practices among the Garhwali and Kumaoni of Uttarakhand Stefan Fiol blends historical and ethnographic approaches to unlock these influences and explore a paradox how the folk designation can alternately identify a universal stage of humanity or denote alterity and subordination Fiol explores the lives and work of Garhwali artists who produce folk music These musicians create art as both a discursive idea and as a set of expressive practices across strikingly different historical and cultural settings Juxtaposing performance contexts in Himalayan villages with Delhi recording studios Fiol shows how the practices have emerged within and between sites of contrasting values and expectations Throughout Fiol presents the varying perspectives and complex lives of the upper caste upper class male performers spearheading the processes of folklorization But he also charts their resonance with and collision against the perspectives of the women and hereditary musicians most affected by the processes Expertly observed *Recasting Folk in the Himalayas* offers an engaging immersion in a little studied musical milieu

Indian And Western Music Dr. Debabrata Chatterjee, 2025-01-15 In the grand multifaceted cosmos of music where sound transcends mere auditory perception to become a vessel for the deepest philosophical and spiritual contemplations, two monumental traditions emerge as towering titans: the classical music of India and the Western classical tradition. These musical heritages, born from the cradle of distinct civilizations, not only reflect the aesthetic proclivities of their respective cultures but also offer profound insights into the human condition itself. Indian classical music, an intricate web of raga, tala, and improvisation, resonates with the fluidity of time, invoking a metaphysical journey where sound becomes a conduit for transcendence, linking the temporal to the eternal. Each raga, with its nuanced emotional palette, is a pathway to the divine, a sonorous manifestation of the universe's cosmic order. In stark contrast, Western classical music, precisely notated and mathematically structured, reveals an intellectual rigor that mirrors the Western tradition's philosophical pursuit of harmony, logic, and order. Here, music is crafted with a meticulous attention to form and progression, where counterpoint, harmony, and orchestration are not mere techniques but intellectual exercises that echo the Enlightenment's desire for symmetry and rationality. The symphony, in all its grandeur, becomes a microcosm of human achievement, a testament to the capacity of the mind to structure chaos into beauty. As we embark upon this comparative odyssey, we will transcend the surface distinctions of sound and technique to probe the very essence of what music signifies in these two worlds. Through the lens of sacred practice, cultural ethos, and philosophical inquiry, we will

investigate how the raga system with its unspoken connection to the cosmos compares with the harmonic progression of the Western symphonic tradition which seeks to express the unfolding of human emotion and thought through disciplined organization. In this intellectual journey we will witness how despite their divergent paths Indian and Western classical music ultimately converge on the singular universal principle of music as a profound mirror of the human soul. Each note, each scale, each rhythm becomes not merely a sound but a symbol of the profound unity that binds all of humanity regardless of its cultural origins.

Words. Sounds. Images Amit Khanna, 2019-12-31. Ambitious and encyclopaedic in scope, this is a first of its kind book that presents the history of media and entertainment in India from the times of the Indus Valley Civilization right up to the twenty-first century. The book starts with an examination of the origins, looking at a wide array of aspects such as the state of entertainment during Harappan and Vedic times, including details from the *Natyashastra*, the early drama, music and dance of Kalidasa, the development of ragas, musical instruments and early folk traditions, the genesis of classical dance forms, developments through the ages, including in the Mughal period, in the southern kingdoms, in the north-east and under the Marathas and the British. Independence onwards, the book takes a decade-wise look at the evolution of newspapers, cinema, music, television, dance, theatre and radio. The author himself, a film producer, director and lyricist who has worked in the entertainment industry all his life, brings his unique perspective to bear on the subject. This pioneering work is a must-read not just for the students and practitioners of the arts and media but also for their lay consumers.
