British Fiction Since 1800 Barbara Korte, Stefanie Lethbridge, 2016-11-09 This book is about the manifestations and explorations of the heroic in narrative literature since around 1800 It traces the most important stages of this representation but also includes strands that have been marginalised or silenced in a dominant masculine and higher class framework the studies include explorations of female versions of the heroic and they consider working class and ethnic perspectives The chapters in this volume each focus on a prominent conjuncture of texts histories and approaches to the heroic Taken together they present an overview of the literary heroic in fiction since the late eighteenth century *Being Kipling* W.

Dillingham, 2016-04-30 *Being Kipling* exposes Rudyard Kipling's identity as he himself perceived it through the lens of a collection of works composed over a period of years and brought together in the volume *Land and Sea Tales for Scouts and Guides* Dillingham uses this extraordinary collection ostensibly put together for the inspiration of Boy Scouts and Girl Guides and frequently ignored by critics and biographers to offer rare insight into formative events from Kipling's youth that shaped his personality and made him the man and writer that he became The eight stories eight poems and three essays of *Land and Sea Tales for Scouts and Guides* are all examined closely both for what they reveal about Kipling's life and worldview and for their rarely perceived but considerable literary merit

Nagai, 2010-10-13 Featuring an internationally distinguished list of contributors *Kipling and Beyond* reassesses Kipling's texts and their reception in order to explore new approaches in postcolonial studies The collection asks why Kipling continues to be a significant cultural icon and what this legacy means in the context of today's Anglo American globalization **In Our Own Image: Fictional**

Representations of William Shakespeare David Livingstone, 2020 This publication looks at fictional portrayals of William Shakespeare with a focus on novels short stories plays occasional poems films television series and even comics In terms of time span the analysis covers the entire twentieth century and ends in the present day The authors included range from well known figures G B Shaw Kipling Joyce to more obscure writers The depictions of Shakespeare are varied to say the least with even interpretations giving credence to the Oxfordian theory and feminist readings involving a Shakespearian sister of sorts The main argument is that readings of Shakespeare almost always inform us more about the particular author writing the specific work than about the historical personage *How the Few Became the Proud* Heather Venable, 2019-11-15 For more

than half of its existence members of the Marine Corps largely self identified as soldiers It did not yet mean something distinct to be a Marine either to themselves or to the public at large As neither a land based organization like the Army nor an entirely sea based one like the Navy the Corps missions overlapped with both institutions This work argues that the Marine Corps could not and would not settle on a mission and therefore it turned to an image to ensure its institutional survival The process by which a maligned group of nineteenth century naval policemen began to consider themselves to be elite warriors benefited from the active engagement of Marine officers with the Corps historical record as justification for its very being Rather than look forward and actively seek out a mission that could secure their existence late nineteenth century

Marines looked backward and embraced the past They began to justify their existence by invoking their institutional traditions their many martial engagements and their claim to be the nation s oldest and proudest military institution This led them to celebrate themselves as superior to soldiers and sailors Although there are countless works on this hallowed fighting force How the Few Became the Proud is the first to explore how the Marine Corps crafted such powerful myths

A Partial Enlightenment Avram Alpert,2021-04-06 In many ways Buddhism has become the global religion of the modern world For its contemporary followers the ideal of enlightenment promises inner peace and worldly harmony And whereas other philosophies feel abstract and disembodied Buddhism offers meditation as a means to realize this ideal If we could all be as enlightened as Buddhists some imagine we could live in a much better world For some time now however this beatific image of Buddhism has been under attack Scholars and practitioners have criticized it as a Western fantasy that has nothing to do with the actual experiences of Buddhists Avram Alpert combines personal experience and readings of modern novels to offer another way to understand modern Buddhism He argues that it represents a rich resource not for attaining perfection but rather for finding meaning and purpose in a chaotic world Finding unexpected affinities across world literature Rudyard Kipling in colonial India Yukio Mishima in postwar Japan Bessie Head escaping apartheid South Africa as well as in his own experiences living with Tibetan exiles Alpert shows how these stories illuminate a world in which suffering is inevitable and total enlightenment is impossible Yet they also give us access to partial enlightenments powerful insights that become available when we come to terms with imperfection and stop looking for wholeness

A Partial Enlightenment reveals the moments of personal and social transformation that the inventions of modern Buddhism help make possible

At Home and under Fire Susan R. Grayzel,2012-01-09 Although the Blitz has come to symbolize the experience of civilians under attack Germany first launched air raids on Britain at the end of 1914 and continued them during the First World War With the advent of air warfare civilians far removed from traditional battle zones became a direct target of war rather than a group shielded from its impact This is a study of how British civilians experienced and came to terms with aerial warfare during the First and Second World Wars Memories of the World War I bombings shaped British responses to the various real and imagined war threats of the 1920s and 1930s including the bombing of civilians during the Spanish Civil War and ultimately the Blitz itself The processes by which different constituent bodies of the British nation responded to the arrival of air power reveal the particular role that gender played in defining civilian participation in modern war

Literary and Cultural Readings of Goddess Spirituality Anway Mukhopadhyay, 2016-12-14 This volume explores the potentials of Goddess spirituality in the field of cultural critique and strings together innovative readings of already existing literary texts and cultural phenomena from the critical perspective of Goddess spirituality The chapters explore a colourful array of texts and authors and focus on issues as diverse as the persistence of the figure of the Magna Mater in the life writing and thought of Swami Vivekananda and Sri Aurobindo the inability of Advaita Vedanta to come out of the shadow of the Great Mother the possibility of pluralizing the Eurocentric notion of the Muse by invoking the figure of Goddess Sarasvati in the field of English

Studies and a reappraisal of Kipling's Kim from the perspective of the philosophical and spiritual discourses of Prajnaparamita the Buddhist Goddess of Perfect Wisdom The book also offers a comparative study of Minoan Goddess Spirituality and tantric philosophy with reference to Aphrodite Diotima and the Indian Mother Goddesses the possibility of simultaneously tantricizing notions of modernity and modernizing tantra itself with reference to the works of Lata Mani and William Schindler and an investigation of the Mother centric spiritual sensibilities in various religious discourses and devotional literatures among other discussions In short this book investigates the possibilities of inserting the figure of the Great Mother into the critical domain of cultural pluralism thereby celebrating a multiculturalism that is not based on violence and conflict antagonism but grounded in harmony The Mother is seen by the discourse articulated here mainly as a middle ground between flesh and spirit knowledge and passion justice and compassion and in the red shadow of the Mother social epistemologies and academic discourses are radically renegotiated **African American Fraternities and Sororities** Tamara L. contributed to cultural studies in many ways especially within written texts such as literary works As few critics have investigated the intersections of politics and literature there is a tremendous need for material that does just this Language Power and Ideology in Political Writing Emerging Research and Opportunities is an essential reference book that focuses on the use of narrative and writing to communicate political ideologies This publication explores literature spurring from politics the disadvantages of political or highly ideological writing writers awareness of the outside world during the composition process and how they take advantage of political writing Featuring a wide range of topics such as gender politics indigenous literature and censorship this book is ideal for academicians librarians researchers and students specifically those who study politics international relations cultural studies women s studies gender studies and political and ideological studies

Sport, War and the British Peter Donaldson, 2020-03-10 Spanning the colonial campaigns of the Victorian age to the War on Terror after 9 11 this study explores the role sport was perceived to have played in the lives and work of military personnel and examines how sporting language and imagery were deployed to shape and reconfigure civilian society s understanding of conflict From 1850 onwards war reportage complemented and reinforced by a glut of campaign histories memoirs novels and films helped create an imagined community in which sporting attributes and qualities were employed to give meaning and order to the chaos and misery of warfare This work explores the evolution of the Victorian notion that playing field and battlefield were connected and then moves on to investigate the challenges this belief faced in the twentieth century as combat became initially industrialised in the age of total warfare and subsequently professionalised in the post nuclear world Such a longitudinal study allows for the first time new light to be shed on the continuities and shifts in the way the reality of war was captured in the British popular imagination Drawing together the disparate fields of sport and warfare
