These collaborations seek to forge connections without perceived identity linking concepts and communities without violating the differences that constitute them seeking epistemic kinships while maintaining a willingness to not know In this way they form a critical conversation between seemingly distinct areas and demonstrate fundamental allegiances between diasporic and indigenous scholarship transnational and local knowledges legal and eco critical methodologies Links are forged between Indigenous knowledge and ecological and social justice creative critical reading and ambidextrous epistemologies unmaking the nation through translocalism and unsettling histories of colonial complicity through a poetics of relation Together these essays reveal how the critical methodologies brought to bear on literary studies can both challenge and exceed disciplinary structures presenting new forms of strategic transdisciplinarity that expand the possibilities of Canadian literary studies while also emphasizing humility complicity and the limits of knowledge In Translation Gabrielle Roy, Joyce Marshall, 2005-01-01 Gabrielle Roy was one of the most prominent Canadian authors of the twentieth century Joyce Marshall an excellent writer herself was one of Roy s English translators The two shared a deep and long lasting friendship based on a shared interest in language and writing In Translation offers a critical examination of the more than two hundred letters exchanged by Roy and Marshall between 1959 and 1980 In their letters Roy and Marshall exchange news about their general health and well being their friends and family their surroundings their travels and other writers as well as their dealings with critics editors and publishers They recount comical incidents and strange encounters in their lives and reflect on human nature current events and from time to time their writing Of particular interest to the two women were the problems they encountered during the translation process Many passages in the letters concern the ways in which the nuances of language can be shaped through translation Editor Jane Everett has arranged the letters here in chronological order and has added critical notes to fill in the historical and literary gaps as well as to identify various editorial problems Shedding light on the process of writing and translating In Translation is an invaluable addition to the study of Canadian writing and to the literature on these two important figures Legacy Andre Pratte, Jonathan Kay, 2019-08-20 A ground breaking work of nation building this unique

biographical book by many of English and French Canada's best known writers and thinkers Margaret Atwood Lucien Bouchard Dr Samantha Nutt Ken Dryden etc tells the story of the extraordinary legacy of the French contribution to our very way of life In 1913 schoolgirls found a heavy metal plaque peeking out of the soil in St Pierre South Dakota On it they saw engraved characters and signs they could not decipher They took the plaque back home and somehow it found its way into the hands of a local historian who immediately realized the importance of the artifact One hundred and seventy years earlier French Canadian explorer Pierre Gaultier de la V rendrye had written about his travels to the west in search of the elusive Western Sea In his journal he remembered I placed upon a hillock near the fort a lead plague with the arms and inscription of the King That was the plague found by the children the proof that de la V rendrye was the first white man to set eyes on the Rockies 60 years before Lewis and Clark's famous expedition Traces of the French Canadians contribution to North American history can be found in all regions of the continent More often than not we are unaware of or indifferent towards these signs Yet the descendants of the French travelled farther than one would expect exploring the land and a wide variety of fields of human activity science arts economy etc Through their audacity their courage and their determination they shaped Canada and to a smaller but still significant extent the United States In a unique partnership with Les ditions La Presse Legacy is the story of a dozen French Canadian pioneers from the era of Nouvelle France up to the 20th century This ambitious book project will take the form of a series of biographical essays written by Canadian personalities and leading authors Through the lives of these extraordinary persons the authors will reflect on the French Canadian legacy They are all convinced that Canada would not be what it is today were it not for these French speaking Canadians who explored the land hung on to their culture while respecting that of others longed for peace fought with courage and stood up for a brand of humanism that helped shape the country we live in today
