Karla J. Nielson

Rugs To Riches Guide To Buying Oriental Rugs:

Rugs to Riches Caroline Bosly, 1985 *Rugs to Riches* is an authoritative lively and eminently practical guide for people who want to learn the dos and don'ts of choosing handmade oriental rugs. Caroline Bosly, one of the foremost rug brokers in the world, describes the various types of rugs and their origins, explains the difference between buying new and antique rugs, and tells you how to buy a rug of any size at the best possible price. Written in a simple straightforward style that strips away the mystique from oriental rugs, *Rugs to Riches* also advises you on determining whether a rug is handmade or not and whether it has been altered in any way. Evaluating a rug's condition and determining whether the retail price is a fair one using a simple point system. Bargaining down the price of a rug no matter what type of store you find it in. Selling a rug and making a profit. Decorating with oriental rugs and ensuring that they remain clean and in good repair. **Oriental Rugs** George W.

O'Bannon, 1994-10 An essential reference work for all oriental rug scholars, collectors, dealers, and Islamic art historians, this is the first comprehensive bibliography written in English on the oriental rug and carpet literature, beginning with the first publication on oriental rugs in 1877 and including all known publications in any language published through 1992. O'Bannon has attempted to identify all single publications, including reprints of articles from journals and periodicals, on this topic. 2,875 separate entries in all. The bibliography is divided into three major categories: Carpets, Islamic Arts, and Textiles, and Maintenance, Care, and Related Books, with general and geographic subdivisions. Related topics include wool dyeing, looms, technical aspects of weaving, and the history of oriental carpets. Numbered for easy reference, entries are listed alphabetically by author and include standard bibliographic information and brief annotations. Titles of non-English language publications are transliterated into English. There are several cross-references to geographic areas, tribal weavings, exhibitions, basic reference works, and private and public collections of oriental rugs. **Interior Textiles** Karla J. Nielson, 2007-07-10

When it comes to both the technical and aesthetic considerations of using textiles in interior design, this book gives working professionals what they need to know. You'll receive expert guidance to the process of textile specifications, selection, installation, and maintenance, as well as an understanding of the properties of fabric types and a historical context of styles. Sustainable design and code issues are also considered. More than 500 illustrations and photographs elucidate key ideas. This survey of textiles for interior design is divided into three main parts: Fabrics, The interior design textile industry and marketplace, A study of fibers, yarns, constructions, and finishes, Codes and green design, Applications, Textile specifications and coordination of upholstery and wall coverings, window treatments, linens and accessories, and rugs and carpeting. Period Style, Oriental styles, Renaissance and Formal styles, Medieval, Colonial, Country, and Provence styles, Regional and Ethnic styles, and Modern styles.
