Sham Ruins Brian Willems, 2021-11-29 In the middle of the eighteenth century a new fad found its way into the gardens of England's well-to-do building fake Gothic ruins Newly constructed castle towers and walls looked like they were already falling apart even on the first day of their creation Made of stone plaster or even canvas these sham ruins are often considered an embarrassing blip in English architectural history However *Sham Ruins A User's Guide* expands the specific example of the sham ruin into a general principle to examine the way purposely broken objects can be used to both uncover old truths and invent new ones Along with architecture work by Ivan Vladislavi Tom Stoppard Alain Mabankou Aleksei Fedorchenko Michael Haneke and Sturtevant is used to develop this thesis as well as artifacts such as pre-torn jeans fake histories and broken screen apps Using these examples one of the key questions the book raises is what is it that sham ruins ruin In other words if real ruins are ruins of what they actually are then sham ruins should be considered ruins of what they are not Thus sham ruins are about imposing new meaning where such meaning does not and should not exist They also can show how things we think are functioning well are actually already broken Sham ruins do this and much more by being lies ruses and embarrassments This is what gives them the power with which we can think about objects in new unintended ways

Hamilton, Nuria Silleras-Fernandez, 2021-04-30 The Iberian Peninsula has always been an integral part of the Mediterranean world from the age of Tartessos and the Phoenicians to our own era and the Union for the Mediterranean The cutting edge essays in this volume examine what it means for medieval and early modern Iberia and its people to be considered as part of the Mediterranean

Housing the New Romans Katharine T. von Stackelberg, Elizabeth Macaulay-Lewis, 2017 In the last twenty years reception studies have significantly enhanced our understanding of the ways in which Classics has shaped modern Western culture but very little attention has been directed toward the reception of classical architecture *Housing the New Romans Architectural Reception and Classical Style in the Modern World* addresses this gap by investigating ways in which appropriation and allusion facilitated the reception of Classical Greece and Rome through the requisition and redeployment of classicizing tropes to create neo-Antique sites of dwelling in the 19th and early 20th centuries The volume across nine essays will cover both European and American iterations of place making including Sir John Soanes house in London the Hotel de Beauharnais in Paris and the Getty Villa in California By focusing on structures and places that are oriented towards private life houses hotels clubs tombs and gardens the volume directs the critical gaze towards diverse and complex sites of curatorial self-fashioning The goal of the volume is to provide a multiplicity of

interpretative frameworks e.g. object agency enchantment hyperreality memory infrastructure that may be applied to the study of architectural reception This critical approach makes *Housing the New Romans* the first work of its kind in the emerging field of architectural and landscape reception studies and in the hitherto textually dominated field of classical reception
