The Homebrewed Christianity Guide to Church History Bill Leonard, 2017-06-30 Amid the ferment of dissent and the protests of heretics the church developed most significantly This guide introduces that history by looking at those periods A variety of questions have preoccupied Christian communities throughout history Christians have attempted to determine who Jesus is and whether his life and teaching have global significance They've battled over the nature of salvation and the sources of authority for Christian belief and practice They've argued about the nature and purpose of the Christian church and how is it to be organized They've drawn swords over the relationship between church and state And they've taken votes on who should be sainted and who

should be expelled Focusing on sources of unity and division within the church throughout its history and some of the most and least savory characters in the history this guide provides an overview of Christian responses to those and other formative questions all with the trademark Homebrewed Christianity wit and wisdom *Being a Deacon Today* Rosalind Brown, 2005-10-01 A theological explanation and practical handbook for those preparing for a diaconate in today's church All too often the time spent as a deacon is seen simply as the prelude to priestly ordination Yet the Bible defines three orders of ministry deacon priest and bishop each with its own distinctive characteristics and responsibilities In *Being A Deacon Today* Brown explores the three places where deacons minister the church the world and at the margins the three strands of their ministry in liturgy in pastoral care and as catechists and the three actions of their ministry praying loving and remembering This book excellent for classroom use and for transitional and permanent deacons will restore a fuller understanding of the diaconal ministry and nurture deacons in their work and spiritual life **Seasons of Love** Eleanor Sampeck, 2004 Twenty five years ago an extended family made a return to nature move to the country This magical book is the record of their struggles and growth The book achieves its vividly realistic tone by covering the family's lived experience from joy to sorrow life and death and lofty to such mundane details as manure for the garden Its pages are populated by four generations unusual in a time when the nuclear family is everything Although the work is supported by sound theological and psychological theory it never lingers too long in these realms but continues the daily drama of one family's risky living of the gospel **Saintly Women** Nancy Nienhuis, Beverly Mayne Kienzle, 2017-12-12 This ground breaking volume assesses the contemporary epidemic of intimate partner violence and explores how and why cultural and religious beliefs serve to excuse battering and to work against survivors attempts to find safety Theological interpretations of sacred texts have been used for centuries to justify or minimize violence against women The authors recover historical and especially medieval narratives whose protagonists endure violence that is framed by religious texts or arguments The medieval theological themes that redeem battering in saints' lives suffering obedience ownership and power continue today in most religious traditions This insightful book emphasizes Christian history and theology but the authors signal contributions from interfaith studies to efforts against partner violence Examining medieval attitudes and themes sharpens the readers' understanding of contemporary violence against women Analyzing both historical and contemporary narratives from a religious perspective grounds the unique approach of Nienhuis and Kienzle one that forges a new path in grappling with partner violence Medieval and contemporary narratives alike demonstrate that women in abusive relationships feel the burden of religious beliefs that enjoin wives to endure suffering and to maintain stable marriages Religious leaders have reminded women of wives' responsibility for obedience to husbands even in the face of abuse In some narratives however women create safe places for themselves Moreover some exemplary communities call upon religious belief to support their opposition to violence Such models of historical resistance reveal precedents for response through intervention or protection
