Confronting Failures of Justice Paul H. Robinson, Jeffrey Seaman, Muhammad Sarahne, 2024-08-06 Most murderers and rapists escape justice a horrifying fact that has gone largely unexamined until now This groundbreaking book tours nearly the entire criminal justice system examining the rules and practices that regularly produce failures of justice in serious criminal cases Each chapter outlines the nature and extent of justice failures in present practice describing the interests at stake and providing real world examples Finally each chapter reviews proposed and implemented reforms that could balance the competing interests in a less justice frustrating manner and recommends one sometimes completely original reform to improve the system A systematic study of justice failures is long overdue As this book discusses regular failures of justice in serious criminal cases undermine deterrence and the criminal justice system's credibility with the community as a moral authority The damage caused by unpunished crime is immense and even worse falls primarily on vulnerable minority communities Now for the first time students researchers policymakers and citizens have a resource that explains why justice failures occur and what can be

done about them **Confronting Failures of Justice** is accessible for use by college freshman through graduate students and law students and is designed to be main text for a course on justice failures but it could be used in conjunction with other texts in a broad range of courses touching on criminal justice It presents arguments in a highly organized fashion and provides dozens of case studies many with photographs to gain student interest and to bring the academic discussions to life The Emerald Handbook of Crime, Justice and Sustainable Development Jarrett Blaustein, Kate Fitz-Gibbon, Nathan W. Pino, Rob White, 2020-11-18 This volume brings together a diverse collection of essays that critically examine issues relating to crime and justice in the United Nations 2030 Agenda for Sustainable Development Chapters examine the issues that practitioners face in working to advance this agenda and the possibilities that exist to advance sustainable development outcomes

**Justice Framed** Marcos Zunino, 2019-03-14 Why are certain responses to past human rights violations considered instances of transitional justice while others are disregarded This study interrogates the history of the discourse and practice of the field to answer that question Zunino argues that a number of characteristics inherited as transitional justice emerged as a discourse in the 1980s and 1990s have shaped which practices of the present and the past are now regarded as valid responses to past human rights violations He traces these influential characteristics from Argentina's transition to democracy in 1983 the end of communism in Eastern Europe the development of international criminal justice and the South African truth commission of 1995 Through an analysis of the post World War II period the decolonisation process and the Cold War Zunino identifies a series of episodes and mechanisms omitted from the history of transitional justice because they did not conform to its accepted characteristics **Justice and Administrative Law** William Alexander Robson, 1928 Law, Governance, and Justice, 2013-01-14 How law is made how governance works and the response of the governed remain

crucial modern questions whose roots in many parts of the world reach deep into the past of medieval England Scholars have long discussed these issues and new perspectives regularly emerge This volume brings together contemporary views from leaders in the field and from younger scholars both historians and literary critics Classic themes and incidents are creatively revisited and new avenues of approach are suggested **The Ethics of Justice Without Illusions** Louis E.

Wolcher, 2016-06-17 The founding premise of this book is that the nimbus of prestige which once surrounded the idea of justice has now been dimmed to such a degree that it is no longer sufficient to secure the possibility of a good conscience for those who undertake in good faith to make the world a better place in the spheres of politics and law The many decent human beings who have noticed and experienced this diminishment of justice's prestige find themselves in a thoroughly disenchanted existential situation For them the attempt to do justice without the illusion of being grounded in something beyond the sheer facticity of their own performances is a distinctly ethical theme which cries out to be investigated in its own right Heeding the cry this book asks and attempts to answer the following fundamental ethical question is a life in the law even one spent in the pursuit of justice worth living and if so how can a disenchanted person come to bear the living of it

without constantly having to engage in self deception If Nietzsche is right that living without illusions is impossible for human beings then the most important ethical implication of this essentially anthropological fact goes far beyond the question of what illusions we ought to choose It must also include the question of whether we should succumb to that most seductive and pernicious of all illusions namely the belief that exercising great care and responsibility in choosing our illusions which we might then call our principles of justice excuses us ethically for what we do to others in their name The culmination of a 10 year legal philosophical project this book will appeal to graduate students scholars and curious non academic intellectuals interested in continental philosophy critical legal theory postmodern theology the philosophy of human rights and the study of individual ethics in the context of law      **Transitional Justice** Neil J. Kritz,1995 KGB Files and Agents      **Forms of Pleadings and Precedents in the Law Courts of the State of New Jersey** Fred Prout,1907

**Rule Of Law In China: Progress And Problems** Lin Li,2020-04-28 This book comprehensively introduces the development of rule of law and law based governance in China Through theoretical interpretation background analysis and empirical analysis of several key issues this book answers why and how China promotes its rule of law and how the country identifies major challenges of promoting rule of law It also looks at how China solves its problems in the process of practicing socialist rule of law      **Justice, Law and Culture** J.K. Feibleman,2012-12-06 The following pages contain a theory of justice and a theory of law Justice will be defined as the demand for a system of laws and law as an established regulation which applies equally throughout a society and is backed by force The demand for a system of laws is met by means of a legal system The theory will have to include what the system and the laws are intended to regulate The reference is to all men and their possessions in a going concern In the past all such theories have been discussed only in terms of society justice as applicable to society and the laws promulgated within it However men and their societies are not the whole story in recent centuries artifacts have played an increasingly important role To leave them out of all consideration in the theory would be to leave the theory itself incomplete and even distorted For the key conception ought to be one not of society but of culture Society is an organization of men but culture is something more I define culture civilization has often been employed as a synonym as an organization of men together with their material possessions Such possessions consist in artifacts material objects which have been altered through human agency in order to reduce human needs The makers of the artifacts are altered by them Men have their possessions together and this objectifies and consolidates the culture      *The Social Psychology of Procedural Justice* E.Allan Lind,Tom R. Tyler,2013-06-29 We dedicate this book to John Thibaut He was mentor and personal friend to one of us and his work had a profound intellectual influence on both of us We were both strongly influenced by Thibaut's insightful articulation of the importance to psychology of the concept of procedural justice and by his empirical work with Laurens Walker in reactions to legal institutions demonstrating the role of procedural justice The great importance we accord the Thibaut and Walker work is evident throughout this volume If anyone person can be said to have

created an entire field of inquiry John Thibaut created the psychological study of procedural justice To honor Thibaut thus in no sense reduces our recognition of the contributions of his co worker Laurens Walker in the creation of the field We are as certain that Walker would endorse our statement as we are that Thibaut with characteristic modesty would demur from it Even to praise Thibaut in this fashion falls short of recognizing all of his contributions to procedural justice Not only did he initiate the psychological study of the topic he also built much of the intellectual foundation upon which the study of procedural justice rests Thibaut's work with Harold Kelley 1959 Kelley Thibaut 1978 created a social psychological theory of interdependence that among many other applications serves as the basis for one of the major models of the psychology of procedural justice
