The Sisters: The Saga of the Mitford Family Mary S. Lovell,2011-06-13 Fascinating the way all great family stories are fascinating Robert Gottlieb New York Times Book Review This is the story of a close loving family splintered by the violent ideologies of Europe between the world wars Jessica was a Communist Debo became the Duchess of Devonshire Nancy was one of the best selling novelists of her day beautiful Diana married the Fascist leader Sir Oswald Mosley and Unity a close friend of Hitler shot herself in the head when England and Germany declared war The Mitfords had style and

presence and were remarkably gifted Above all they were funny hilariously and mercilessly so In this wise evenhanded and generous book Mary Lovell captures the vitality and drama of a family that took the twentieth century by storm and became in some respects its victims Feminine Fascism Julie V. Gottlieb,2021-04-28 The British Fascisti the first fascism movement in Britain was founded by a woman in 1923 During the 1930s 25 per cent of Sir Oswald Mosley s supporters were women and his movement was largely built up by the fanaticism of women What was it about the British form of Fascism that accounted for this conspicuous female support Gottlieb addresses these questions in the definitive work on women in fascism This book continues to fill a significant gap in the historiography of British fascism which has generally overlooked the contribution of women on the one hand and the importance of sexual politics and women s issues on the other Gottlieb s extensive research makes use of government documents a large range of contemporary pamphlets newspapers and speeches as well as original interviews with those personally involved in the movement This new edition includes a preface analysing the current affairs of the last 20 years reframing the book according to contemporary context Here Gottlieb looks at the resurgence of populism the rise of women as leaders of far right parties across Europe and North America and the normalisation of fascism in fiction and political discourse **Impossible Object** Nicholas Mosley,1985-11 In a series of inter related stories husbands wives and lovers attempt to come to grips with their impossible situations while the novel itself attempts to show in its formal inventiveness just how bewildering romantic love can be **The Stages of Life** Hugh Crago,2016-08-11 Is personality in the genes Do our infant experiences matter even though we can t remember them Why do patterns repeat within the lives of individuals and families The Stages of Life provides answers to these and other intriguing questions and presents a refreshingly readable introduction to human development from birth to death The book synthesises those theories and research findings that are most helpful in explaining the paradoxes and complexities of human personality and human problems The book provides a thought provoking discussion of several important topics including how personality evolves in response to both genetic and social influences how individuals differ and what this means for them how some problems tend to develop at particular stages of the life course from early childhood through to midlife and old age Throughout the book Hugh Crago relates both nature and nurture to the challenges individuals must face from early childhood through to old age He draws attention to often ignored clinical findings about cross generational repetition in families and shows how recent developments in epigenetics may supply an explanation for such mysterious phenomena Written without jargon and full of new and provocative ideas the book will be of great interest to students of counselling and psychotherapy and it is also has much to offer the general reader With its engaging examples from history literature and the author s own life readers will find that The Stages of Life illuminates puzzles in their own lives and opens a road to self acceptance *C.G.Jung and Literary Theory* S. From Chaos to Catastrophe? K. Ludwig Pfeiffer, 2018-03-19 This book focuses on the tensions between processes of consciousness and their products like worldviews theories models of thought etc Staying close to their technical meanings in chaos and catastrophe theory chaotic processes are described in mainly neurobiological and evolutionary terms while products are delineated in their evolutionary logic Given both a relative opacity of processes of the mind and of the outside world the dramatic quality of the processes a certain closeness to hysterical and schizophrenic tendencies and within the context of the weakening orientating power of worldviews an alarming catastrophic potential emerge As a consequence the book aims at a comparative cost benefit analysis of the transitionality between chaotic processes of consciousness and the often catastrophic implications of their products within historical frameworks The central thesis consists in the increasing failure in the orientation of action which cannot be contained by systems of ethics Materials for this analysis are mainly drawn from texts normally called literary in which the tension between biographical and historical dimensions provides profiles of chaos and catastrophe
