Ruling Canada Corporate Cohesion And Democracy:

Ruling Canada Jamie Brownlee, 2005 The economic elite has long been thought to cooperate at a corporate level to impact state and national policies and programs at the expense of the Canadian citizenry However this work reveals the expanding reach of the elite and their current encroachment into the noncorporate arena as yet another opportunity to exert their formidable influence Citing the increasingly unified and class conscious aspects of the group this text reveals the degree to which this minority continues to prosper dominate and threaten Canadian democracy through numerous unifying mechanisms corporate director interlocks concentrated economic ownership ties to the mass media and the many business oriented think tanks philanthropic foundations and corporate policy organizations Maintaining that these existing relations need not be considered inevitable the author challenges concerned citizens to come together to disrupt the political and economic status quo

Canadian Labour Policy and Politics John Peters, Don Wells, 2022-11-01 Canadian Labour Policy and Politics is essential reading for undergraduates studying Canada's labour market This comprehensive textbook traces the causes and rise of labour inequities and outlines solutions for a more sustainable future Written in clear and accessible language by leading experts and practitioners this book demonstrates how and why laws and public policy intended to protect workers often leave employees vulnerable and with little economic or social security Based on up to date data and framed in the context of international developments this essential text provides readers with real world examples and case studies of how globalization labour laws employment standards COVID 19 and other issues affect workers on and off the job Canadian Labour Policy and Politics invites students into defining a policy agenda for developing greater economic equality and political inclusiveness while fostering a green recovery Key features include chapter summaries and outlines suggestions for further reading and glossaries of key terms

Handbook of Anti-Environmentalism Tindall, David, Stoddart, Mark C. J., Dunlap, Riley E., 2022-03-22 This thought provoking Handbook provides a theoretical overview of the wide variety of anti environmentalisms and offers an integrative research agenda for future research on the topic Probing the ways in which groups have organized to oppose environmental movements and pro environmental policies in recent decades it examines those involved in these countermovements and studies their motivations and support systems This Handbook explores core topics in the field including contestation over climate change wind power mining forestry food sovereignty oil and gas pipelines and population issues

Policy Analysis in Canada Laurent Dobuzinkis, David H. Laycock, Michael Howlett, 2007-01-01 This volume offers a comprehensive overview of the many ways in which the policy analysis movement has been conducted and to what effect in Canadian governments and for the first time in business associations labour unions universities and other non governmental organizations

The Making of a Transnational Capitalist Class

William K. Carroll, 2013-04-04 Throughout the world there has been a growing wave of interest in global corporate power and the rise of a transnational capitalist class triggered by economic and political transformations that have blurred national borders and disembedded corporate business from national domiciles Using social network analysis William Carroll maps the changing field of power generated by elite relations among the world's largest corporations and related political organizations Carroll provides an in depth analysis that spans the three decades of the late 20th and early 21st century when capitalist globalization attained unprecedented momentum propelled both by the transnationalization of accumulation and by the political paradigm of transnational neoliberalism This has been an era in which national governments have deregulated capital international institutions such as the World Trade Organization and the World Economic Forum have gained prominence and production and finance have become more fully transnational increasing the structural power of capital over communities and workers Within this context of transformation the book charts the making of a transnational capitalist class reaching beyond national forms of capitalist class organization into a global field but facing spirited opposition from below in an ongoing struggle that is also a struggle over alternative global futures

Regime of Obstruction

William K. Carroll, 2021-04-23 Rapidly rising carbon emissions from the intense development of Western Canada's fossil fuels continue to aggravate the global climate emergency and destabilize democratic structures The urgency of the situation demands not only scholarly understanding but effective action Regime of Obstruction aims to make visible the complex connections between corporate power and the extraction and use of carbon energy Edited by William Carroll this rigorous collection presents research findings from the first three years of the seven year SSHRC funded partnership the Corporate Mapping Project Anchored in sociological and political theory this comprehensive volume provides hard data and empirical research that traces the power and influence of the fossil fuel industry through economics politics media and higher education Contributors demonstrate how corporations secure popular consent and coopt disorganize or marginalize dissenting perspectives to position the fossil fuel industry as a national public good They also investigate the difficult position of Indigenous communities who while suffering the worst environmental and health impacts from carbon extraction must fight for their land or participate in fossil capitalism to secure income and jobs The volume concludes with a look at emergent forms of activism and resistance spurred by the fact that a just energy transition is still feasible This book provides essential context to the climate crisis and will transform discussions of energy democracy Contributions by Laurie Adkin Angele Alook

Clifford Atleo Emilia Belliveau Thompson John Bermingham Paul Bowles Gwendolyn Blue Shannon Daub Jessica Dempsey Emily Eaton Chuka Ejeckam Simon Enoch Nick Graham Shane Gunster Mark Hudson Jouke Huizer Ian Hussey Emma Jackson Michael Lang James Lawson Marc Lee Fiona MacPhail Alicia Massie Kevin McCartney Bob Neubauer Eric Pineault Lise Margaux Rajewicz James Rowe JP Sapinsky Karena Shaw and Zoe Yunker Marginality and Condemnation, 3rd Edition Carolyn Brooks, Bernard Schissel, 2021-12-13T00:00:00Z Includes test bank and PowerPoint slides for professors who have adopted the text in their course Contact examrequest fernpub ca for more information This well received criminology textbook now in its third edition argues that crime must be understood as both a social and a political phenomenon Using this lens Marginality and Condemnation contends that what is defined as criminal how we respond to crime and why individuals behave in anti social ways are often the result of individual and systemic social inequalities and disparities in power Beginning with an overview of criminological discourse mainstream approaches and new directions in criminological theory the book is then divided into sections based on key social inequalities of class gender race and age each of which begins with an outline of the general issues for understanding crime and an introduction that guides readers through the empirical chapters that follow The studies provide insights into general issues in criminology ranging from the historical and current nature of crime and criminal justice to the various responses to criminality Readers are encouraged and challenged to understand crime and justice through concrete analyses rather than abstract argumentation In addition to a new introductory chapter that confronts how we define crime measure crime and understand and use criminology in this millennium the third edition provides new chapters examining crime in relation to the environment terrorism masculinity children and youth and Aboriginal gangs and the legacy of colonialism *Alternative Media in Canada* Kirsten Kozolanka, Patricia Mazepa, David Skinner, 2012-04-01 Alternative media hold the promise of building public awareness and action against the constraints and limitations of media conglomeration and cutbacks to public broadcasting But what exactly makes alternative media alternative This path breaking volume gets to the heart of this question by focusing on the three interconnected dimensions that define alternative media in Canada structure participation and activism The contributors reveal not only how various kinds of alternative media including indigenous anarchist ethnic and feminist media are enabled and constrained within Canada's complex policy environment but also how in the context of globalization the Canadian experience parallels media and policy challenges in other nations Jobs with Inequality John Peters, 2022-06-29 Income inequality has skyrocketed in Canada over the past few decades The rich have become richer while the average household income has deteriorated and job quality has plummeted Common explanations for these trends point to globalization technology or other forces largely beyond our control But as Jobs with Inequality shows there is nothing inevitable about inequality Rather runaway inequality is the result of politics and policies what governments have done to aid the rich and boost finance and what they have not done to uphold the interests of workers Drawing on new tax and income data John

Peters tells the story of how inequality is unfolding in Canada today by examining post democracy financialization and labour market deregulation. Timely and novel. *Jobs with Inequality* explains how and why business and government have rewritten the rules of the economy to the advantage of the few and considers why progressive efforts to reverse these trends have so regularly run aground. *How Societies Work, 5th Edition* Joanne Naiman, 2020-04-28T00:00:00Z In 2011 protesters around the world including Canada called for changes to the societies in which they live. Many observers were asking: What do they want? Some answers to this question can be found in *How Societies Work*, a unique and accessible introductory sociology textbook that introduces students to the structure of contemporary societies and the power relationships within them. In contrast to most introductory textbooks, *How Societies Work* explores a broad range of sociological concepts and theories while simultaneously creating a coherent picture of modern societies. Drawing on fields as diverse as anthropology, genetics, economics, social psychology, history, and politics, this innovative and popular text looks at both the roots of modern societies and the current structures within them. This approach helps undergraduate students make sense of our complex social world and encourages them to connect the social world to their own lived experiences. This extensively revised and updated fifth edition includes discussions of the roots of the recent global economic crisis and worldwide responses to it, growing social inequality, broader global struggles for change, the growth of the security state in Canada, and the sudden resurgence of political protest in North America. The final chapter looks to the future, examining such issues as the possible consequences of climate change, increased forced migration of peoples, and the changing dynamic of global power. More boxes, quotes, and think about it elements have been added to the fifth edition, while the language, clarity of presentation, and many examples make it even more accessible to readers. It is an introductory textbook that truly engages students in the sociological imagination. This fifth edition is presented in a large format, making it easier to read and even more student friendly. A testbank and power point presentation are available for instructors upon request. [Handbook of the International Political Economy of the Corporation](#) Andreas Nölke, Christian May, 2018-09-28 Over the past few decades, corporations have been neglected in studies of international political economy (IPE). Seeking to demystify them, what they are, how they behave, and their goals and constraints, this Handbook introduces the corporation as a unit of analysis for students of IPE. Providing critical discussion of their global and domestic power and highlighting the ways in which corporations interact with each other and with their socio-political environment, this Handbook presents a thorough and up-to-date overview of the main debates around the role of corporations in the global political economy. **Canadian Political Economy** Heather Whiteside, 2020-11-19 Engaging with themes of conflict, change, and crisis, this book reinvigorates the distinct interdisciplinary field of Canadian political economy. **The Sage Handbook of Social Network Analysis** John McLevey, John Scott, Peter J. Carrington, 2023-10-01 This new edition of *The Sage Handbook of Social Network Analysis* builds on the success of its predecessor, offering a comprehensive overview of social network analysis produced by leading

international scholars in the field Brand new chapters provide both significant updates to topics covered in the first edition as well as discussing cutting edge topics that have developed since including new chapters on General issues such as social categories and computational social science Applications in contexts such as environmental policy gender ethnicity cognition and social media and digital networks Concepts and methods such as centrality blockmodeling multilevel network analysis spatial analysis data collection and beyond By providing authoritative accounts of the history theories and methodology of various disciplines and topics the second edition of The SAGE Handbook of Social Network Analysis is designed to provide a state of the art presentation of classic and contemporary views and to lay the foundations for the further development of the area

PART 1 GENERAL ISSUES PART 2 APPLICATIONS PART 3 CONCEPTS AND METHODS **Power and Resistance**

Wayne Antony, Jessica Antony, Les Samuelson, 2020-05-06T00:00:00Z How do we make sense of the social problems that continue to plague Canadian society Our understanding of issues such as poverty racism violence homophobia crime and pollution stems from our view of how society is structured From the dominant neoliberal perspective social problems arise from individuals making poor choices From a critical perspective however these social troubles are caused by structural social inequalities Disparities in economic social and political power that is relations of power based on class race gender and sexual orientation are the central structural element of capitalist patriarchal colonialist societies The contributors to Power and Resistance use this critical perspective to explore Canadian social issues such as poverty colonialism homophobia violence against women climate change and so on This sixth edition adds chapters on the corporatization of higher education the lethal impacts of colonialism democracy the social determinants of health drug policy and sexual violence on campus

Beyond the Welfare State Sirvan Karimi, 2017-01-01 In Beyond the Welfare State Sirvan Karimi utilizes a synthesis of Marxian class analysis and the power resources model to provide an analytical foundation for the divergent pattern of public pension systems in Canada and Australia **Power and Resistance, 7th ed.** Jessica Antony, Wayne Antony, 2022-06-30T00:00:00Z Power and Resistance debunks the dominant neoliberal hyper individualist approach to society's problems that sees poverty as a result of laziness environmental crises as a result of market demands for products that pollute and Indigenous Peoples struggles as a result of not assimilating We argue that it is social inequality and oppression that are the underlying causes of social problems In a society like ours powerful groups make choices that benefit them and force those choices onto others creating life problems for others and society as a whole The powerful also have influence over what is and is not called a social problem Solving social problems requires changing the structures of inequality and oppression For example industrial corporate agriculture has created huge profits for a few gigantic food corporations but left much of the world hungry But farmers and their allies are pushing back through agroecology an agriculture based on local small scale ecologically sustainable farming that brings eaters and growers closer to one another The seventh edition of Power and Resistance includes new chapters on anti Black racism in schools Indigenous people and

mental health food security and sovereignty and work in the gig economy **Forces of Production, Climate Change and Canadian Fossil Capitalism** Nicolas Graham, 2020-12-29 Listen to the podcast In Forces of Production Climate Change and Canadian Fossil Capitalism Nicolas Graham reinterprets the concept of forces of production from an ecological standpoint and in the context of the deepening climate crisis He argues that ecological knowledge itself as well as associated developments in renewable energy technology and green infrastructure represent advancements in productive forces However such green productive forces are fettered by capitalist relations of production including the power of carbon capital In addition to a conceptual and theoretical reinterpretation case studies focusing on Canadian fossil capitalism provide a concrete complex analysis of the deepening of fossil fuelled productive forces and the process of fettering in both renewable energies and in the development and application of ecological knowledge **Radical Transformation** Kevin MacKay, 2018-02-06 Radical Transformation is a tour de force Thomas Homer Dixon author of The Upside of Down Catastrophe Creativity and the Renewal of Civilization Radical Transformation is a story about industrial civilization's impending collapse and about the possibilities of averting this fate Human communities first emerged as egalitarian democratic groups that existed in symbiotic relationship with their environments Increasing complexity led to the emergence of oligarchy in which societies became captive to the logic of domination exploitation and ecological destruction The challenge facing us today is to build a movement that will radically transform civilization and once more align our evolutionary trajectory in the direction of democracy equality and ecological sustainability
