**Ruling Passions** Andrew Sabl, 2009-02-09 How should politicians act When should they try to lead public opinion and when should they follow it Should politicians see themselves as experts whose opinions have greater authority than other people's or as participants in a common dialogue with ordinary citizens When do virtues like toleration and willingness to compromise deteriorate into moral weakness In this innovative work Andrew Sabl answers these questions by exploring what a democratic polity needs from its leaders He concludes that there are systematic principled reasons for the holders of divergent political offices or roles to act differently Sabl argues that the morally committed civil rights activist the elected representative pursuing legislative results and the grassroots organizer determined to empower ordinary citizens all have crucial democratic functions But they are different functions calling for different practices and different qualities of political character To make this case he draws on political theory moral philosophy leadership studies and biographical examples ranging from Everett Dirksen to Ella Baker Frances Willard to Stokely Carmichael Martin Luther King Jr to Joe McCarthy Ruling Passions asks democratic theorists to pay more attention to the governing pluralism that characterizes a diverse complex democracy It challenges moral philosophy to adapt its prescriptions to the real requirements of democratic life to pay more attention to the virtues of political compromise and the varieties of human character And it calls on all democratic citizens to appreciate democratic constancy the limited yet serious standard of ethical character to which imperfect democratic citizens may rightly hold their leaders and themselves

Against Politics Anthony De Jasay,2014-05-08

Is the state a

necessity a convenience or neither It enforces collective choices in which some override the preferences and dispose of the resources of others Moreover collective choice serves as its own source of authority and preempts the space it wishes to occupy The morality and efficacy of the result are perennial questions central to political philosophy In *Against Politics* Jasay takes a closely reasoned stand based on modern rational choice arguments for rejecting much of mainstream thought about these matters In the first part of the book *Excuses* he assesses the standard justification of government based consent the power of constitutions to achieve limited government and ideas for reforming politics In the second part *Emergent Solutions* he explores the force of first principles to secure liberties and rights and some of the potential of spontaneous conventions for generating ordered anarchy Written with clarity and simplicity this powerful volume represents the central part of Jasay's recent work Fully accessible to the general reader it should stimulate the specialist reader to fresh thought **Secret**
