Rumania Russias Dissident Ally:

Human Rights and Political Dissent in Central Europe Jakub Tyszkiewicz, 2021-12-06 This volume examines to what extent the positive atmosphere created by the Helsinki Accords contributed to the change in political circumstances seen in the countries of Central Europe under Soviet domination It focuses in particular on firstly a consequent new impetus to bolster human rights in international politics as Western democracies especially the US integrated human rights concerns into its foreign policy relations with Soviet Bloc countries and secondly how this Western embrace of human rights seemed to create new incentives for increased dissident activity in Central and Eastern Europe and from 1976 onward Finally the book reminds us of the significant role of the Helsinki Accords in developing democratic practices in Eastern European societies under Soviet domination in 1975 1989 and in creating the conditions for the peaceful transition to democratic government in the years that followed This book will be of key interest to scholars and students of the history of communism post Soviet Russian and central and East European politics the history of human rights and democratization

Military Occupation and Diplomacy Sergiu Verona, 1992 In 1958 after fourteen years of military occupation Khrushchev in an unprecedented act withdrew the Soviet Union's troops from Romania as part of a political move intended to encourage the withdrawal of Western military forces from Europe In analyzing this crucial historic episode Sergiu Verona's comprehensive study illustrates the dynamics of Soviet military presence in Romania and provides a framework for understanding Soviet security policy then and now as well as the interaction between Soviet military objectives and diplomacy Drawing on declassified archival material in the United States and the United Kingdom the author considers Khrushchev's reversal of Stalinist expansionism by examining the motivation function and operation of the initial occupation of Romania the complex involvement of Soviet diplomacy and its perception by the United States and other Western powers the process by which Khrushchev decided to withdraw Soviet troops from that country and the impact of this decision on Soviet policy Verona extends his analysis providing comparisons between Khrushchev's and Gorbachev's approaches to Eastern Europe noting that similarities exist not only in domestic policies but in the realm of foreign policy as well

Press, Propaganda and Politics Rubén Jarazo Álvarez, Andrada Fatu-Tutoveanu, 2014-08-11 This collective work aims to compare media and in particular cultural press in Francoist Spain and Communist Romania placing the two opposing paradigms in a common approach with the intention of identifying shared

patterns and intricate connections between them but at the same time without ignoring their radical differences This comparison is performed both explicitly through several chapters focusing on the general methodological implications of such a comparison between Francoist Spain and Communist Romania in the development of totalitarian dictatorial propagandistic systems and implicitly by offering the academic frame to a series of case studies from both regimes The contributors to this volume Spanish Anglo Saxon and Romanian scholars approach several aspects of media in relation to politics propaganda historical or social aspects in the two regimes based on their academic backgrounds history cultural studies media and literature The volume intends to suggest through its collection of general comparative or analytic chapters as well as through a new approach on two political and cultural phenomena otherwise studied as opposing paradigms the need for a larger debate on the potential of the approach to these phenomena in a common framework Samizdat, Tamizdat, and Beyond Friederike Kind-Kovács, Jessie Labov, 2013-03-01 In many ways what is identified today as cultural globalization in Eastern Europe has its roots in the Cold War phenomena of samizdat do it yourself underground publishing and tamizdat publishing abroad This volume offers a new understanding of how information flowed between East and West during the Cold War as well as the much broader circulation of cultural products instigated and sustained by these practices By expanding the definitions of samizdat and tamizdat from explicitly political print publications to include other forms and genres this volume investigates the wider cultural sphere of alternative and semi official texts broadcast media reproductions of visual art and music and in the post 1989 period new media The underground circulation of uncensored texts in the Cold War era serves as a useful foundation for comparison when looking at current examples of censorship independent media and the use of new media in countries like China Iran and the former Yugoslavia *Ceausescu and the Securitate* Dennis Deletant, 2016-12-05 First Published in 2017 This book contains Deletant's research and view that an inescapable feature of life in Romania under Ceausescu was the ubiquity of the Securitate or the security police known officially for much of the period as the Department of State Security of the Ministry of the Interior He seeks to right the omission in Romanian literature until now of the mechanism of terror which Stalin used in Romania to enforce his will and about the organisation of the Department of State Security **Revolutionary Breakthroughs and National Development** Ken Jowitt, 2023-04-28 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1971 **United States Foreign Trade ... The Soviet Bloc, Unity and Conflict Zbigniew Brzezinski, 1967 This is the first full length study of relations among the communist states The study explores the implications of the status of Yugoslavia and China the significance of the Hungarian revolution and the position of Poland in the Soviet bloc and clarifies the Khrushchev Gomulka clash of 1956 and the complex role of Tito Zbigniew Brzezinski emphasizes the role of ideology and power in the relations among the communist states contrasting bloc relations and the

unifying role of Soviet power under Stalin with the present situation He suggests that conflicts of interest among the ruling elites will result either in ideological disputes or in weakening the central core of the ideology leading to a gradual decline of unity among the Communist states The author while on leave from his post as Professor and Director of the Research Institute on Communist Affairs Columbia University and serving on the U S State Department s Policy Planning Council has revised and updated his important study and added three new chapters on more recent developments He gives particular attention to the Sino Soviet dispute Problems of Communism ,1966 *Nationalism and Territory* George W. White,2000 Why do nations come into conflict What factors lead to the horrors of ethnic cleansing This timely book offers clear eyed answers to these questions by exploring how national identity is shaped by place focusing especially on Serbia Hungary and Romania Moving beyond studies of nationalism that consider only the economic and geostrategic value of territory George W White shows that the very core of national identity is intimately bound to specific places Indeed nations define themselves in terms of spaces that have historical linguistic and religious meaning as Serbs have clearly demonstrated in Kosovo These territories are concrete expressions of a nationAIs identity both past and present With his detailed analysis of the places that define national identity in Southeastern Europe White convincingly shows why territorial disputes so often escalate into war

Cohesion and Conflict in International Communism Peter Mayer,2012-12-06 The current conflict which threatens the very existence of the inter national communist movement as a single coherent entity must be looked for in the roots of Marxian philosophy The central concept of pre Leninist communism is contained in the notion of proletarian internationalism Yet the emergence of the communist party states has been squarely predicated on the requirements of single national states as viewed through the training and experience of the various communist leaders Thus the Soviet version has been shaped by the nationalism of Lenin Stalin and Khrushchev The only aberrant case the internationalism of Trotsky was doomed to failure The Chinese version of communism has as its root concepts the spirit of prolonged struggle against a superior enemy whose ultimate defeat is ensured through the dialectics of political growth The non communist societies are by definition decadent The movement came to power by exploiting the nationalism engendered within China by the Japanese invasion Its mass support was based on the peasantry although the transparent fiction of proletarian leadership was strictly maintained Further communism is a term which has lost its original encompassing definition Peking now narrowly defines it as policies consonant with the thought of Mao Tse tung Thus both the Soviet and the Chinese interpretation of commun ism are based on a concept which was anathema to the intellectual founders of the movement **Foreign and Domestic Policy in**
