Dead That Walk Chairman of Chime, the European Foundation for Chinese Music Research, Leverhulme Research Fellow at the School of Oriental and African Studies, Stephen Jones, 2010-09

Of all the monstrous threats to humanity, zombies are the most horrific. That's because they are not uncommon or alien; they're human. Or more correctly, were human. Anywhere that there are humans, there are zombies, and they can never be completely annihilated because by breeding more humans, we breed more zombies. In *The Ultimate Book of Zombies*, these decomposing monsters are demolished, decapitated and destroyed. The gore flows as humans and zombies dispatch each other in blood-curdling battles fought in big city alleys, high school playgrounds and even suburban living rooms. In addition, the living dead are fully deconstructed in these wide-ranging and fascinating stories. More than just brain-eating assaults and acid-bath retaliations, the tales in this book explore all elements of zombie existence and their interaction with the humans they live among.

Byzantium and the West Nikolaos Chrissis, Athina Kolia-Dermizaki, Angeliki Papageorgiou, 2019-02-11

The interaction between Byzantium and the Latin West was intimately connected to practically all the major events and developments which shaped the medieval world in the High and Late Middle Ages: for example, the rise of the papal monarchy, the launch of the Crusades, the expansion of international and long-distance commerce or the flowering of the Renaissance. This volume explores not only the actual avenues of interaction between the two sides: trade, political and diplomatic contacts, ecclesiastical dialogue, intellectual exchange, armed conflict, but also the image each side had of the other and the way perceptions evolved over this long period in the context of their manifold contact. Twenty-one stimulating papers offer new insights and original research on numerous aspects of this relationship, pooling the expertise of an international group of scholars working on both sides of the Byzantine-Western divide on topics as diverse as identity formation, ideology, court ritual, literary history, military technology and the economy among others. The particular contribution of the research

presented here is the exploration of how cross cultural relations were shaped by the interplay of the thought world of the various historical agents and the material circumstances which circumscribed their actions The volume is primarily aimed at scholars and students interested in the history of Byzantium the Mediterranean world and more widely intercultural contacts in the Middle Ages **Ford Administration Stifles Juvenile Justice Program** United States.
