Runaway World How Globalization Is Reshaping Our Lives

Anthony Giddens

Runaway World How Globalization Is Reshaping Our Lives:

Runaway World Anthony Giddens, 2003 Giddens shows how growing global interdependence directly affects everyday lives its impact on culture traditions families and politics This eloquent volume is the starting point for anyone concerned about the increasingly connected world

Runaway World Anthony Giddens, 2002 Before the current global era it is impossible to imagine that comparable events like September 11 could have occurred reflecting as they do our new found interdependence The rise of global terrorism like world wide networks involving in money laundering drug running and other forums of organised crime are all parts of the dark side of globalisation From the new Preface This book is based on the highly influential BBC Reith lecture series on globalisation delivered in 1999 by Anthony Giddens Now updated with a new chapter addressing the post September 11th global landscape this book remains the intellectual benchmark on how globalisation is reshaping our lives The changes are explored in five main chapters Globalisation Risk Tradition Family Democracy

Critical Perspectives on Globalization Ann Malaspina, 2006-01-15 Primary and secondary source documents discuss the role of governments and corporations in globalizing the world how globalization affects economies the role of technology globalization and society and the future of globalization

Runaway World Anthony Giddens, Before the current global era it is impossible to imagine that comparable events like September 11 could have occurred reflecting as they do our new found interdependence The rise of global terrorism like world wide networks involving in money laundering drug running and other forums of organised crime are all parts of the dark side of globalisation From the new Preface This book is based on the highly influential BBC Reith lecture series on globalisation delivered in 1999 by Anthony Giddens Now updated with a new chapter addressing the post September 11th global landscape this book remains the intellectual benchmark on how globalisation is reshaping our lives

Globalization Andrew Jones, 2010-07-13 Globalization Key Thinkers offers a critical commentary on the leading thinkers in the contemporary globalization debate as well as new arguments about the future direction of globalization thinking The book guides the reader through the key arguments of leading thinkers explaining their place in the wider globalization debate and evaluating their critical reception Eleven thematic chapters focus on one or two key thinkers covering every aspect of the globalization debate including the theoretical arguments of Anthony Giddens and Manuel Castells to the positive arguments of Thomas Friedman and Martin Wolf and the reforming ideas of Joseph Stiglitz Other chapters variously address the ideas of Immanuel Wallerstein Arjun Appadurai Paul Hirst Naomi Klein Grahame Thompson David Held Anthony McGrew Michael Hardt Antonio Negri Saskia Sassen and Peter Dicken Each chapter also provides some carefully selected recommendations for further reading for the thinkers discussed The book ends with a concluding chapter that examines how thinking about globalization is likely to develop in future Whilst individual chapters can stand alone the book is designed as a whole to enhance the reader's understanding of how different thinkers ideas relate and contrast to each other

Globalization and Free Trade Natalie

Goldstein,2010-06-23 Outlines the history of the expansion and globalization of national economies and explains how globalization evolved to its present state *Globalization and the Mission of the Church* Neil J. Ormerod,Shane Clifton,2011-10-27 Various social political economic and cultural commentators are presently arguing that human history is reaching a decisive stage in its development a stage marked by increased interconnection between peoples the compression of space and time a sharing of ideas at unprecedented levels global trade and finance and so on The shorthand word used to encompass these phenomena is globalization Some embrace it others reject it while still others dispute its existence But with the abundance of literature and debate that it generates the topic cannot be ignored From its inception in the missionary mandate of Jesus Matthew 28 Christianity has had a global dimension to its mission Christianity is not a spectator to globalization but one of its agents one of the forces at work which have extended interconnection between peoples shared ideas and promoted social political and cultural links The purpose of the present work is not to provide a complete response to the question of the mission of the church in a globalizing world but to establish a framework within which answers may be sought Grounded in the writings of Bernard Lonergan and Robert Doran it develops a theology of history and addresses the churches response to the impact of globalization on vital social cultural personal and religious values The project brings together the perspectives of Catholicism and Pentecostalism the former providing a depth of wisdom and tradition the latter drawing on the insight of a newly emerging movement that has taken root in every continent with remarkable energy and enthusiasm *Re-presenting the Johannine Community* Yak-hwee Tan,2008 Re Presenting the Johannine Community A Postcolonial Perspective explores the characterization of the Johannine community in the Farewell Discourse of the Fourth Gospel from a postcolonial perspective The community is scrutinized with the lens of an integrated literary rhetorical and ideological postcolonial approach The disciples emerge as both the Self insofar as they resist an imperial reality represented by the world and the Other with respect to Jesus and the Father As such far from immutable and bland the Johannine community is portrayed as chameleonic and engaged in an emerging strategy of resistance Book Jacket **Introduction to Sociological Theory** Michele Dillon,2020-01-07 The revised third edition of the text that combines classical and contemporary theories of sociological theory Thoroughly revised and updated the third edition of an Introduction to Sociological Theory offers an in depth introduction to classical and contemporary theories and demonstrates their relevance to offer a clear understanding of a broad range of contemporary issues and topics As with the previous editions the text continues to combine carefully selected primary quotations from a broad range of theorists with extensive discussion and illustrative examples from a diverse range of countries helpful timelines of important and thematically relevant events biographical notes contemporary topic boxes analytical photos and chapter glossaries The text addresses topics such as the persistence of economic and social inequality Brexit post truth society same sex marriage digital surveillance and the on demand gig economy Written in an engaging style Introduction to Sociological Theory offers a comprehensive introduction to

the pluralistic breadth and wide ranging applicability of sociological theory This updated edition of the authoritative text Contains both classical and contemporary theories in a single text Builds on excerpts from original theoretical writings with detailed discussion of the concepts and ideas under review Includes new examples of current empirical topics such as Brexit Donald Trump s presidency China s growing economic power global warming intersectionality social media and much more Offers additional resources including a website that contains multiple choice and essay questions a thoroughly refreshed set of PowerPoint slides for each chapter with multimedia links to content illustrative of sociological processes a list of complementary primary readings a quotation bank and other background materials Written for undergraduate courses in contemporary and classical sociological theory the third edition of an Introduction to Sociological Theory continues to provide a comprehensive in depth and empirically engaging introduction to sociological theory

Trying to Measure Globalization Marco Caselli, 2012-01-05 The aim of this book is to conduct a critical survey of the main tools devised for the synthetic measurement of globalization processes To this end the first part of the book discusses the meaning of the concept considered highlighting the different and often contradictory interpretations put forward in its regard in the literature Subsequently analysed are the passages and issues that must be addressed when constructing an instrument intended to measure a social phenomenon of such complexity as globalization Stressed in particular is that the researcher s subjectivity is repeatedly involved in these passages so that no instrument can have objective validity Given these premises the book presents the principal tools employed in attempts to measure globalization starting with those whose unit of analysis is the state In this regard particular space is devoted to indexes which take a multidimensional approach to the concept of globalization There follows a comparison among the results obtained using these indexes and criticisms are made of the ways in which the latter have been constructed A limitation or if one wishes a paradox concerning such tools is that they measure in relation to states a process which has as one of its principal features the fact that it extends beyond the confines of states For this reason the final chapter considers whether globalization can be measured with different units of analysis in particular people and cities The books concludes with discussion of the general limitations of globalization indexes

The Social Thought of Talcott Parsons Uta Gerhardt, 2016-02-17 The Social Thought of Talcott Parsons offers an insightful new reading of the work of Talcott Parsons keeping in view at once the important influences of Max Weber on his sociology and the central place occupied by methodology which enables us to better understand the relationship between American and European social theory Revealing American democracy and its nemesis National Socialism in Germany as the basis of his theory of society this book explores the debates in which Parsons was engaged throughout his life with the Frankfurt School C Wright Mills and the young radicals among the disobedient student generation as well as economism and utilitarianism in social theory the opponents that Parsons confronted in the interests of humanism In addition to revisiting Parsons extensive oeuvre Uta Gerhardt takes up themes in current research and theory including social inequality civic culture and

globalization offering a fascinating demonstration of what the conceptual approaches of Parsons can accomplish today Revealing methodology and the American ethos to be the cornerstones of Parsons social thought this book will appeal not only to those with interests in classical sociology and who wish to fully understand what this classic has to offer but also to those who wish to make sociology answer to the problems of the society of the present **Contemporary Sociological**

Theory and Its Classical Roots George Ritzer,Jeffrey Stepnisky,2017-12-08 Now with SAGE Publishing Contemporary Sociological Theory and Its Classical Roots The Basics is a brief survey of sociology s major theorists and theoretical approaches from the Classical founders to the present With updated scholarship in the new Fifth Edition authors George Ritzer and Jeffrey Stepnisky connect many theorists and schools of thought together under broad headings that offer students a synthesized view of sociological theory This text is perfect for those who want an accessible overview of the entire tradition of sociological thinking with an emphasis on the contemporary relevance of theory Transforming Korean Politics Young Whan Kihl,2015-03-26 Over the past fifteen years South Korea has transformed itself from an authoritarian government into a new democracy with a vibrant capitalist economy Modernization democratization and globalization have played important roles in this transformation and have greatly influenced the programs and policies of Korea s Sixth Republic Covering developments through the 2003 elections this book shows how the South Korean government and society have been shaped not only by the dynamics of these forces but also by their interaction with the cultural norms of a post Confucian society The author provides a conceptual framework and baseline for examining political developments in Korea and offers an analysis of the factors that are transforming Korean institutions society and politics He discusses the forces shaping Korea s political economy and the performance of successive ROK governments and also highlights the challenges faced by the newly elected administration of Roh Moo Huan the North Korean issue and more Social Justice Education, Globalization, and Teacher Education Lydiah Nganga,John Kambutu,2015-11-01 The primary purpose of this book is to serve as a resource in teacher preparation programs It is also intended to serve as an instructional resource in P 12 education The book will be especially useful in methods of teaching and foundational courses both at the elementary and secondary education levels The book contains pertinent instructional topics units and lessons in global education and social justice themes The secondary purpose of this book is to serve as a resource for graduate students and researchers whose interest is global and social justice education This unique book provides for an interdisciplinary approach to teacher education Additionally this book is intended to create a deeper sense of relevancy to issues of curriculum in teacher education Together global educators and social justice educators can forge pedagogical content knowledge that bridges the gap between affirming one s own identity and maintaining unity with the whole thus exemplifying a robust notion of social justice Consequently content in this book will help pre service teachers to gain confidence and deeper knowledge around issues of global interest responsibilities and uncertainties associated with their role as teachers who will teach children within the intersection of local and international

neighborhoods **Globalization** Thomas Hylland Eriksen, 2014-02-13 For the first time in human history the vast majority of the world's population is connected through trade travel production media and politics Ours is an era of ubiquitous mobile communication economic outsourcing mass migration and imported consumer goods At the same time people everywhere are concerned to keep their identities rooted and sense of place in the face of momentous change This new edition of Thomas Hylland Eriksen's concise and engaging landmark textbook outlines the main debates and controversies around globalization and develops a unique perspective to show how globalization is an inherently double process taking place both from above and below Each chapter is supported by boxed case studies and bullet points summarizing the core information suggestions for further reading and essay and discussion questions making this the ideal guide for both the classroom and independent study Focusing on key concepts of globalization and drawing on international examples this book is essential for anyone wishing to understand the fundamental processes underlying the contemporary world and the consequences these have for all of us **The Worldwide Transformation of Higher Education** David P. Baker, Alexander W. Wiseman, 2008-05-19 Enrollment in institutions of higher education around the world is growing Some scholars have suggested that one reason for this expansion is that the role of higher education has shifted over the last 50 years from an elite to a mass institution This book discusses the worldwide transformation of higher education from multiple perspectives **Globalization's**

Contradictions Dennis Conway, Nik Heynen, 2006-11-22 Since the 1980s globalization and neoliberalism have brought about a comprehensive restructuring of everyone's lives People are being disciplined by neoliberal economic agendas transformed by communication and information technology changes global commodity chains and networks and in the Global South in particular destroyed livelihoods debilitating impoverishment disease pandemics among other disastrous disruptions are also globalization's legacy This collection of geographical treatments of such a complex set of processes unearths the contradictions in the impacts of globalization on people's lives Globalizations Contradictions firstly introduces globalization in all its intricacy and contrariness followed on by substantive coverage of globalization's dimensions Other areas that are covered in depth are globalization's macro economic faces globalization's unruly spaces globalization's geo political faces ecological globalization globalization's cultural challenges globalization from below fair globalization Globalizations Contradictions is a critical examination of the continuing role of international and supra national institutions and their involvement in the political economic management and determination of global restructuring Deliberately this collection raises questions even as it offers geographical insights and thoughtful assessments of globalization's multifaceted faces and spaces Globalization: Specialized applications and resistance to globalization Roland Robertson, Kathleen E. White, 2003

The Idea of Good Governance and the Politics of the Global South Haroon A. Khan, 2015-08-11 One of the major objectives of good governance is human development Many worry that without good governance many developing countries may become failed states Using one of the worst industrial disasters in Bangladesh to date Haroon A Khan helps further our

understanding of the importance of bureaucratic capacity for achieving good governance and offers a new paradigm for a merit system to improve governance In doing so he introduces the reader to the concept of good governance and its importance by investigating its relationship with failed states globalization bureaucratic effectiveness and human development The Idea of Good Governance and the Politics of the Global South will be useful for the students interested in political science public administration and international relations History Made Conscious Geoff Eley, 2023-08-22 How History has changed in the half century since the 1960s During the last fifty years the writing of history underwent two massive transformations First powered by Marxism and other materialist sociologies the great social history wave instated the value of social explanation Then responding to new theoretical debates the cultural turn upset many of those freshly earned certainties Each challenge was profoundly informed by politics from issues of class gender and race to those of identity empire and the postcolonial The resulting controversies brought historians radically changed possibilities expanding subject matters unfamiliar approaches greater openness to theory and other disciplines a new place in the public culture History Made Conscious offers snapshots of a discipline continuously rethinking its charge How might we understand the social and the cultural together How do we collaborate most fruitfully across disciplines If we take theory seriously how does that change what historians do How should we think differently about politics
