# MEDIEVAL MAGIC ALPHABETS

While the runes held sway in Western Europe, the creation and use of mystical alphabets and secret codes had become a sophisticated art among the Arabs, who were renowned in the early Middle Ages as magicians. The North African Moors had extended their empire by 711 AD to include the Sahara and parts of Southern Europe. In the eighth century an army of seven thousand Berber tribesmen invaded Spain and were to hold it as a Moslem stronghold until 1492. Arab supremacy in Europe was complete.

During the period when Spain was under Moorish rule it became a centre for the study and practice of magic and occultism. Scholars and students from England, France and Germany travelled to sit at the feet of Arab, Christian and Jewish philosophers in Spain, and at Toledo was founded the only university ever established to teach magic and sorcery. In the thirteenth century, the cabbala – or mystical inner teaching of the Judaic religion – was first written down from its original oral sources by a Spanish Rabbi and this philosophy became the foundation stone of medieval occultism. It is also the guiding light of the modern revival of magical practices.

In such an atmosphere it is little wonder that the lore of secret alphabets flourished. In AD 855, the occult scholar Abu Bakir Ahmad was the first to include magical Arab scripts in his treatise *Kitab Shaug Almustsham Fi Manifat Rumaz Al-Oghlan* or *The Book Of The Frenzied Devotee To Learn About The Ancient*

**Runic Amulets and Magic Objects** Mindy MacLeod, Bernard Mees, 2006 A fresh examination of one of the most contentious issues in runic scholarship magical or not The runic alphabet in use for well over a thousand years was employed by various Germanic groups in a variety of ways including inevitably for superstitious and magical rites Formulaic runic words were inscribed onto small items that could be carried for good luck runic charms were carved on metal or wooden amulets to ensure peace or prosperity There are invocations and allusions to pagan and Christian gods and heroes to spirits of disease and even to potential lovers Few such texts are completely unique to Germanic society and in fact most of the runic amulets considered in this book show wide ranging parallels from a variety of European cultures The question of whether runes were magical or not has divided scholarship in the area Early criticism embraced fantastic notions of runic magic leading not just to a healthy scepticism but in some cases to a complete denial of any magical element whatsoever in the runic inscriptions This book seeks to re evaluate the whole question of runic sorcery attested to not only in the medieval Norse literature dealing with runes but primarily in the fascinating magical texts of the runic inscriptions themselves Dr MINDY MCLEOD teaches in the Department of Linguistics Deakin University Melbourne Dr BERNARD MEES teaches in the Department of History at the University of Melbourne
