Running Tide:

Tide Running Oonya Kempadoo, 2004-06-15 Cliff and Ossi have grown up in Plymouth on the island of Tobago their lives turning on the axis of small town life One day they watch the arrival of a couple and their child at a luxurious house overlooking the ocean The couple invites Cliff into their home and lives and in that cool flim style house the harsh brittle life of urban Plymouth is kept briefly at bay desires obscuring differences in class and race But then things begin to go wrong money vanishes the couple s car disappears and those differences are brought suddenly to light raising unsettling questions about relationships wealth and responsibility The Long Heat Andreas Malm, Wim Carton, 2025-10-07 The world is crossing the 1.5C global warming limit perhaps exceeding 2C soon after What is to be done when these boundaries set by the Paris Agreement have been passed In the overshoot era schemes proliferate for muscular adaptation or for new technologies to turn the heat down at a later date by removing CO2 from the air or blocking sunlight Such technologies are by no means safe they come with immense risks and provide an excuse for those who would prefer to avoid limiting emissions in the present But do they also hold out some potential Can the catastrophe be reversed masked or simply adapted to once it is a fact Or will any such roundabout measures simply make things worse The Long Heat maps the new front lines in the struggle for a liveable planet and insists on the climate revolution long overdue In the end no technology can absolve us of responsibility for our planet and each other **The Best of the Best** Francis S. Let Your Mind Run Deena Kastor, Michelle Hamilton, 2019-04-09 NEW YORK TIMES BESTSELLER Deena Kastor is one of the greatest bodies in distance running but this book captures what is so groundbreaking about her mind Alexi Pappas Olympian writer and filmmaker now featuring a workbook to help chart your mind's journey Inspiring fascinating and insightful Practical for anyone trying to overcome the biggest impediments to climbing that next hill of growth Shawn Achor author of *The Happiness Advantage* and *Big Potential* Deena Kastor was a star youth runner with tremendous promise yet her career almost ended after college when her competitive method run as hard as possible for fear of losing brought her to the brink of burnout On the verge of quitting she took a chance on legendary coach Joe Vigil who had started the first professional distance running team in the US At his Colorado training center she encountered the notion that shaping her mind to be more encouraging kind and resilient could make her faster than she'd ever imagined possible Building a mind so strong would take years of effort and discipline but it would propel Kastor to the

pinnacle of running to American records in every distance from the 5K to the marathon and to the accomplishment of earning America's first Olympic medal in the marathon in twenty years Let Your Mind Run is a fascinating intimate look inside the mind of an elite athlete a remarkable story of achievement and an insightful primer on how the small steps of cultivating possibility can give anyone a competitive edge

Stars to Steer By Julia Jones, 2025-05-08 The extraordinary stories of the fearless women who set their sights on the sea in an all male world paving the way for the female sailing superstars of today Gender issues are stark at sea Historically a ship's crew is all male and although vessels are referred to as she women's contributions to sailing have been largely ignored if not actively opposed Today's sailing legends such as Tracy Edwards and Ellen MacArthur compete with men on equal terms but they stand on the shoulders of many women before them who had to challenge preconceptions prejudice and even the law in their wish to sail Spanning the 19th century to today Julia Jones dives into the lives of an array of incredible and unconventional women we meet single handed sailors wealthy explorers long suffering wives and penniless chancers with a thirst for adventure Each had to face down barriers of official exclusion family imposed restriction social disapproval and often a resulting lack of self belief In the 21st century British women wear Admiral's uniforms and break global yachting records yet their journey to professional sailing remains challenging and the public face of sailing remains mostly male evident in the lack of female Commodores in prestigious yacht clubs Even as sailing becomes more accessible the remarkable contributions within these stories are a precious source of inspiration to all women facing their own challenges today

The Empty Place Graham Wilson, 2014-08-19 An English backpacker is on trial for murder in Australia The tabloids say she killed her lover and fed his body to crocodiles She refuses to say what happened She is trapped inside her mind in a place of horror and emptiness Only one person knows and can help her But he and his helicopter have vanished in the place that the locals call The Empty Place Her only escape is to end her life Is there any way out for Susan charged with murder alone and pregnant in a jail cell She is determined to plead guilty to protect her child from the deeds of the father She will kill herself before she reveals what occurred She awaits conviction and sentencing expecting to spend her life in jail One person has the knowledge that may help her it is the contents of Mark's diary But he and his helicopter vanish Everyone thinks he is dead They were last seen heading into The Empty Place a remote part of Australia's Northern Territory a place where no one lives and very few have reason to go to But the detective who discovered Susan's identity continues to seek the truth He knows there must be another story to explain why He must discover this man's past to unlock the secret The rest of officialdom just wants to lock this girl up and throw away the key As time ticks away towards the trial Susan's sanity is falling apart guilt for what she has done lonely depression at the prospect of years in prison without her child She loses hope when the helicopter vanishes and lives inside herself in

her own empty place Yet she must still keep alive the fathers good legacy for the sake of the child In her mind she sees an escape she will return to her lover and his crocodile spirit end it all and be free of this misery Her friends and the detective suspect the intentions desperate to help her but powerless to protect her from herself They must keep seeking truth It is a race against time Can the truth be uncovered before the trial ends Susan is increasingly desperate too She wants her escape she must keep the truth hidden the investigation is closing in She must divert them She has a plan her own death will be the diversion and will bury the secret forever
