Mark Lindsay, David Lester, PhD.

Running Amok:

Running Amok John C. Spores, 1988 Amok one of the few Malay words commonly appearing in English names a syndrome of unpredictable and indiscriminate homicidal behavior with suicidal intent In tracing the development of this behavioral pattern Spores examines historical data including frequently colorful colonialist accounts of such episodes from British Malaya and the Netherlands East Indies during the period 1800 1925 Spores presents a basic etiological distinction between reactive motivated and a spontaneous unmotivated amok the one an intentional act capable of establishing or restoring dignity and self respect the other a result of organic disturbance He also explores the social psychological dynamics of engagement in the two types of solitary amok and suggests possible behavioral chains Further his study demonstrates the impact of social forces and processes of the late nineteenth and early twentieth century which significantly altered factors in traditional Malay society important in generating expressions of solitary amok Running amok demonstrates the utility of bringing historical data to bear on the examination of specific social phenomena particularly suggesting that the understanding of some present day forms of mental disorder or other aberrant or deviant behavior can be facilitated and enriched through such analysis

Ethnopsychiatry Henri F. Ellenberger, 2020-12-17 What is the

relationship between culture and mental health Is mental illness universal Are symptoms of mental disorders different across social groups In the late 1960s these questions gave rise to a groundbreaking series of articles written by the psychiatrist Henri Ellenberger who would go on to publish *The Discovery of the Unconscious: The History and Evolution of Dynamic Psychiatry* in 1970 Fifty years later they are presented for the first time in English translation introduced by historian of science Emmanuel Delille *Ethnopsychiatry* explores one of the most controversial subjects in psychiatric research the role of culture in mental health In his articles Ellenberger addressed the complex clinical and theoretical problems of cultural specificity in mental illness collective psychoses differentiations within cultural groups and biocultural interactions He was especially attuned to the correlations between rapid cultural transformations in postwar society urbanization and the frequency of mental illness Ellenberger drew from a vast and varied primary and secondary literature in several languages as well as from his own findings in clinical practice which included work with indigenous peoples In analyzing Ellenberger's contributions Delille unveils the transnational and interdisciplinary origins of transcultural psychiatry which grew out of knowledge networks that crisscrossed the globe The book has a rich selection of appendices including Ellenberger's lecture notes on a case of peyote addiction and his correspondence with anthropologist and psychoanalyst Georges Devereux These original essays and their masterful contextualization provide a compelling introduction to the foundations of transcultural psychiatry and one of its most distinguished and prolific researchers [Cambridge Dictionary of American Idioms](#) Paul Heacock, 2003-09-22 This book unlocks the meaning of more than 5 000 idioms used in American English today [The Popular Science Monthly](#), 1894 **Ten Follies: A Journey Around the World in Ten Forms of Madness** Marco Innamorati, 2025-07-22 *Ten Follies: A Journey Around the World in Ten Forms of Madness* focuses on a critical question in the history of psychiatry to what extent does psychopathology describe phenomena that exist before or beyond their description Marco Innamorati probes the view that any description of a psychopathological phenomenon is to a significant extent the result of a construction by the subject describing it or a co construction made by the clinician and the patient a perspective also known as the constructivist approach Starting from the work of the philosopher and historian of science Ian Hacking who proposed the concept of transient mental illness i e an illness that appears at a given time in a given place and then disappears Hacking 1998 Innamorati explores some forms of madness that seem to arise in a particular environment and in specific historical circumstances developing through a kind of epidemic and then disappearing almost definitively The author evaluates strengths and weaknesses of the constructivist approach by juxtaposing evolving hermeneutical questions to cultural factors From hysteria to demonic possession from the mad travellers to arctic shamanism until the recent mushrooming of the hikikomori phenomenon *Ten Follies* is an unconventional journey around the world in ten forms of madness which takes the reader through astonishing stories of suffering and healing Against the trend of mapping a single globalised discourse of folly this book embraces a kind of philosophical perspectivism ten follies which echoes the

contemporary cultural transformation of the many narratives of madness

Violent Internal Conflicts in Asia Pacific Asvi Warman Adam, Dewi Fortuna Anwar, 2005 The last decade has seen an upsurge in violent internal conflicts in southern Thailand southern Philippines Sri Lanka and a number of regions in Indonesia and the Pacific Like terrorism and nuclear proliferation violent internal conflicts are increasingly being seen as a global security issue The Glass Islands Mark Heyward, 2023-07-01 When Australian Mark Heyward decides to build a home and raise a family on the island of Lombok east of Bali he has little idea of what is to come Riots and battles mythical princesses magical voyages birth and death love and loss the story takes us into the heart of Indonesia a country where Mark has lived on and off for twenty years but never on an island like this The call to prayer echoes in the valleys as the sun drops behind the island The oceans answer to the tug of the moon the seasons turn the rains come and go Some things never change The love of a man for his wife for his children his desire to build to create to leave a mark on this good earth his struggle to survive his love of life his fear of death This is the heart warming story of one family s attempt to build a new life in paradise Suicide by Cop Mark Lindsay, David Lester, PhD., 2019-03-18 This book examines what we know about the phenomenon of suicide by cop and places this behavior in a broader context For example some murder victims perhaps as many as a quarter provoke the murderer to some extent into killing them so called victim precipitated homicide In some cases it has been suspected that murderers kill and act thereafter in such a way as to provoke the state into executing them The authors then examine some of the issues specific to suicide by cop such as whether there is a racial bias in these acts and what the legal implications are Finally they discuss the process of hostage negotiation since those involved in suicide by cop often take hostages during the confrontation with police the need to provide counseling for police officers involved in suicide by cop incidents and how we might reduce the incidence of this behavior *Living with the AK-47* Younes Saramifar, 2015-05-13 Understanding resistance movements and armed militias in the Middle East is key in unravelling this complex and sensitive region This book focuses on the Hezbollah group in Lebanon combining extensive ethnography with critical insights drawn from a range of disciplines including sociology psychology and philosophy Instead of approaching resistance or violence through received macro formulations the book concentrates on micro narratives and spatial dynamics of two critical spaces namely Dahiya a Shia majority suburb of Beirut and Hezbollah s stronghold and training camps where volunteers metamorphose into militants The book is unique in that it juxtaposes ethnographic narratives in such a way that they script their own rich tale of bodily tactics resistance and possible subjectivity in the realm of everyday life They create a

complex palimpsest of the history of Lebanon Hezbollah and individuals striving to live under the Islamic sphere of influence offsetting stereotypes and dominant historiography This volume is a must read for scholars researchers media analysts and policy groups engaged with the Middle East It will be particularly relevant to the disciplines of Sociology Social Anthropology Geography Psychology International Relations and Area Studies with a focus on Lebanon *Banishment and Belonging* Ronit Ricci, 2019-11-21 Lanka Ceylon Sarandib merely three disparate names for a single island Perhaps Yet the three diverge in the historical echoes literary cultures maps and memories they evoke Names that have intersected and overlapped in a treatise a poem a document only to go their own ways But despite different trajectories all three are tied to narratives of banishment and exile Ronit Ricci suggests that the island served as a concrete exilic site as well as a metaphor for imagining exile across religions languages space and time Sarandib where Adam was banished from Paradise Lanka where Sita languished in captivity and Ceylon faraway island of exile for Indonesian royalty under colonialism Utilising Malay manuscripts and documents from Sri Lanka Javanese chronicles and Dutch and British sources Ricci explores histories and imaginings of displacement related to the island through a study of the Sri Lankan Malays and their connections to an exilic past **Puppets** Hatta, 2010 **Politics of Pasts and Futures in (Post-)Imperial Contexts** Sebastian Fahner, Christian Feichtinger, Rogier E.M. Heijden, 2024-11-18 Although empires have played a decisive role in political thinking and the orientation of political goals at all times the focus of research has so far mostly been on spatial and ideological aspects This volume on the other hand offers a multi disciplinary collection of studies that deal with the instrumentalization and ongoing impacts of perspectives on empire and their place in time Coming from archaeology history art history literary studies and social sciences the individual case studies discuss perceptions of imperial histories and imagined futures of empires both in imperial and in post imperial contexts The transcending historical significance of the imperial ideas and ideals shows the deep and long lasting effects of empire in landscapes mindscapes and social structures The diachronic cut through all epochs from antiquity to modern times is complemented by a broad global view to deepen the temporal understanding of imperial imaginaries as well as their political implications *Anger in the Air* Joyce A. Hunter, 2016-04-15 The new realities of airline travel came into full focus after the September 11 terrorist attacks These horrific events escalated air rage incidents by 400% but more importantly they put the entire airline industry under the spotlight In subsequent years the general public began to voice frustrations with the industry in very dramatic ways a marked shift in consumer behavior from that of before 9 11 The International Transport Workers Federation responded with a call to action to bring about major changes to raise the airline industry to a level of service quality sufficient to meet the needs of 21st Century passengers The quality of services that airline customers expect and the propensity toward air rage needs to be understood Undoubtedly some passengers are prone to air rage by factors in no way related to customer service However a better understanding of the customer's perception of service and airlines offerings is one way of addressing the air rage crisis combating the contributing factors long before they

conspire to provoke a damaging incidence Anger in the Air Combating the Air Rage Phenomenon provides airlines with valuable input to help them better meet the service expectations of their customers and avoid instances of air rage on their flights What do today s customers need and expect What do airline customers perceive as the quality of services and how can the gap be closed between expectations and perceptions The book addresses these key issues in five stages 1
