Rupert Annual Ian Paul Robinson, John Harrold, Gina Hart, 2000-09-01 **The Heart of the Matter** Ian Smillie, Lansana Gberie, Ralph Hazleton, 2000 How diamonds have been the cause of widespread death misery destruction for almost a decade in the West African country of Sierra Leone Through the 1990s Sierra Leone's rebel war became a tragedy of major humanitarian political historic proportions but the story goes back 60 years to the discovery of the diamonds The diamond mining sector has become influenced by organized crime by the smuggling not just of diamonds but of guns drugs by vast sums of money in search of a laundry No peace agree would be sustainable until the problems of mining selling diamonds had been addressed both inside Sierra Leone internationally Tables *New Statesman*, 1998 **Talking Animals in British Children's Fiction, 1786-1914** Tess Cosslett, 2017-03-02 In her reappraisal of canonical works such as *Black Beauty* *Beautiful Joe* *Wind in the Willows* and *Peter Rabbit* Tess Cosslett traces how nineteenth century debates about the human and animal intersected with or left their mark on the venerable genre of the animal story written for children Effortlessly applying a range of critical approaches from Bakhtinian ideas of the carnivalesque to feminist postcolonial and ecocritical theory she raises important questions about the construction of the child reader the qualifications of the implied author and the possibilities of children's literature compared with literature written for adults Perhaps most crucially Cosslett examines how the issues of animal speech and animal subjectivity were managed at a time when the possession of language and consciousness had become a vital sign of the difference between humans and animals Topics of great contemporary concern such as the relation of the human and the natural masculine and feminine child and adult are investigated within their nineteenth century contexts making this an important book for nineteenth century scholars children's literature specialists and historians of science and childhood **Libya and the United States, Two Centuries of Strife** Ronald Bruce St John, 2002-06-25 Diplomatic relations between the United States and Libya have rarely followed a smooth path Washington has repeatedly tried and failed to mediate lasting solutions to prevent recurrent crises and to secure its own national interests in a region of increasing importance to the United States Libya and the United States Two Centuries of Strife provides a unique and up to date analysis of U S Libyan relations assessing within the framework of conventional historical narrative the interaction of the governments and peoples of Libya and the United States over the past two centuries Drawing on a wide range of new and unfamiliar material Ronald Bruce St John an expert with over thirty years of experience in international relations charts the instances of ignorance misunderstanding treachery and suffering on both sides that have shaped and limited commercial and diplomatic intercourse St John argues that Cold War strategies resulted in a paradoxical and ambiguous U S policy toward Libya during the Idris regime of the 1960s strategies that contributed to the bankruptcy of that monarchy Following the Libyan revolution the U S wrongly believed Qaddafi would become an ally in support of U S policy to keep Soviet influence and communism out of the region his failure to do so marked the beginning of

an era of political tension and mutual distrust Libya and the United States Two Centuries of Strife documents how long standing policy differences over the Palestinian issue and such terrorist acts as the destruction of the U S embassy in Tripoli and the Pan Am explosion over Lockerbie in 1988 resulted in a sharp deterioration of relations St John contends that the ensuing demonization of Libya and the U S policy of confrontation which has spanned successive administrations in Washington have ironically often not served American interests in the region but rather have facilitated Qaddafi s survival

Monarchies and Nations Paul Dresch,James P. Piscatori,2005-05-27 Despite their small populations the Arab states of the Gulf exercise an enormous and global influence But all too often these states are treated as if their only importance were as pawns in a global strategic board game and are simply dealt with as mere models of the intersection of oil wealth and power Here Dresch and Piscatori bring together a more nuanced picture exploring how the citizen populations of these states define themselves in a wider context The Gulf provides extreme examples of the nexus of identities not only because these polities are so dependent on transnational flows of wealth and imagery but because at home the citizen workforce is often outnumbered by migrant labour Examining the issues such as Gulf owned transnational media
