Rural Adaptation In Russia:

Rural Adaptation in Russia Stephen K. Wegren, 2022-05-19 The current dominant approach to Russian peasant behaviour emphasizes rural resistance to reform in broad terms and to the introduction of market forces in particular Bringing together some of the finest scholars on rural Russia this groundbreaking volume examines this perception with an analysis of both historical and contemporary patterns of rural adaptation in Russia Four articles included analyze peasant responses in the post Soviet era and focus on the relationship between poverty and rural adaptation the social origins of private farmers in southern Russia and Ukraine response patterns by large farms formerly collective and state farms household adaptation using a standardized set of criteria This fascinating book gives an illuminating picture of the ways in which peasants respond to new environmental conditions and stimuli created by reform The substantive material included draws on fieldwork and survey data collected from rural Russia from the Stolypin reforms in the pre Soviet era and collectivisation of agriculture during the 1930s in the Soviet era This book was previously as a special issue of The Journal of Peasant Studies *Special Issue on Rural Adaptation in Russia* Stephen K. Wegren, 2004

Land Reform in Russia Stephen K. Wegren, 2009-11-24 This ambitious work is the definitive account of Russia's land reform initiatives from the late 1980s to today In Russia a country controlling more land than any other nation land ownership is central to structures of power class division and agricultural production The aim of Russian land reform for the past thirty years to undo the collectivization of the Soviet era and encourage public ownership has been largely unsuccessful To understand this failure Stephen Wegren examines contemporary land reform policies in terms of legislation institutional structure and human behavior Using extensive survey data he analyzes household behaviors in regard to land ownership and usage based on socioeconomic status family size demographic distribution and regional differences Wegren's study is important and timely as Russian land reform will have a profound effect on Russia's ability to compete in an era of globalization

Russia's Food Policies and Globalization Stephen K. Wegren, 2005-01-01 The post Soviet period has witnessed Russia's increasing interdependence with other nations in its food trade as in the economy as a whole President Putin has repeatedly identified international integration as an economic necessity if Russia is to share in the benefits of globalization In Russia's Food Policies and Globalization author Stephen K Wegren analyzes the primary questions affecting Russia and globalization How do Russia's domestic and external food policies affect its efforts at international integration How prepared is Russia for global economic integration for instance entrance into the World Trade Organization What are the structural economic and political obstacles that exist in Russia's food policies which in turn hinder closer integration In short will Russia integrate or fall behind and what is the role of food policy in deciding this crucial issue Through an analysis of Russia's contemporary food policies and strategies Wegren places Russia's economic development in a new international context Political scientists economists policymakers and scholars of the Soviet and post Soviet period as well as those interested in rural studies must

read this book **The Bloomsbury Handbook of the Russian Revolution** Geoffrey Swain,Charlotte Alston,Michael C. Hickey,Boris Kolonitskii,Franziska Schedewie,2022-12-15 Through 30 interpretative essays The Bloomsbury Handbook of the Russian Revolution sees an international team of leading scholars comprehensively examine Russia s revolutionary years In the wake of the 2017 centenary this handbook is the first reference point for anyone wishing to learn more about the changes which took place in Russia between 1917 and 1921 and subsequently the 20th century Split into six sections covering political crises politicians and parties social groups identities regions and peoples and civil war the volume covers the collapse of Tsarism and the February Revolution the emergence of the Provisional Government and major historical figures such as Lenin Kerensky and the Socialist Revolutionary leader Viktor Chernov It also explores the events surrounding the Bolshevik seizure of power in October 1917 the first year of Soviet Government until the Bolshevik dictatorship was established and the impact on Russia of the subsequent civil war The focus is broader than these issues of high politics however since this handbook also considers events in the provinces as well as revolutionary Petrograd and examines the social impact of the revolution in terms of class gender age and culture Modernisation in Russia since 1900 Markku Kangaspuro,Jeremy Smith,2006-12-27 Modernisation has been a constant theme in Russian history at least since Peter the Great launched a series of initiatives aimed at closing the economic technical and cultural gap between Russia and the more advanced countries of Europe All of the leaders of the Soviet Union and post Soviet Russia have been intensely aware of this gap and have pursued a number of strategies some more successful than others in order to modernise the country But it would be wrong to view modernisation as a unilinear process which was the exclusive preserve of the state Modernisation has had profound effects on Russian society and the attitudes of different social groups have been crucial to the success and failure of modernisation This volume examines the broad theme of modernisation in late imperial Soviet and post Soviet Russia both through general overviews of particular topics and specific case studies of modernisation projects and their impact Modernisation is seen not just as an economic policy but as a cultural and social phenomenon reflected through such diverse themes as ideology welfare education gender relations transport political reform and the Internet The result is the most up to date and comprehensive survey of modernisation in Russia available which highlights both one of the perennial problems and the challenges and prospects for contemporary Russia Household Capital and the Agrarian Problem in Russia David O'Brien,Valeri Patsiorkovski,Larry Dershem,2017-11-22 This title was first published in 2000 Using micro level data this text shows that rural Russian households have made significant adaptations to an emerging market economy in just a few years It focuses on how household capital household labour social networks and community attachment effect the economic and psychological adaptation of households to rapid socioeconomic change Findings are from 1995 to 1997 panel surveys made in three waves The book deals systematically with micro level processes of household adaptation to a market economy institutional change and emerging informal and formal patterns of land tenure and use in Russia It shows how

structural changes are occurring in rural Russia and their impact on household enterprise development and income Difference in household capital explains the emergence of inequality in the countryside and differences in the degree to which households experience stress and a higher or lower subjective quality of life The Moral Economy Reconsidered S. Wegren, 2005-08-19 Sure to be controversial and spur debate this book presents a powerful analysis of rural change to marketization and globalization Using Russia as a case study it examines the how the rural population responded to reform policies during the transition away from communism Wegren draws upon extensive field work survey data interviews and wide ranging Russian language source material to investigate adaptive behaviours by different groups of the rural population The differentiated and nuanced analysis sheds considerable light on debates over whether actors are motivated mainly by rational or moral considerations

The Art and Science of Making the New Man in Early 20th-Century Russia Yvonne Howell, Nikolai Kremmentsov, 2021-12-02 The idea that morally mentally and physically superior new men might replace the currently existing mankind has periodically seized the imagination of intellectuals leaders and reformers throughout history This volume offers a multidisciplinary investigation into how the new man was made in Russia and the early Soviet Union in the first third of the 20th century The traditional narrative of the Soviet new man as a creature forged by propaganda is challenged by the strikingly new and varied case studies presented here The book focuses on the interplay between the rapidly developing experimental life sciences such as biology medicine and psychology and countless cultural products ranging from film and fiction dolls and museum exhibits to pedagogical projects sculptures and exemplary agricultural fairs With contributions from scholars based in the United States Canada the UK Germany and Russia the picture that emerges is emphatically more complex contradictory and suggestive of strong parallels with other new man visions in Europe and elsewhere In contrast to previous interpretations that focused largely on the apparent disconnect between utopian new man rhetoric and the harsh realities of everyday life in the Soviet Union this volume brings to light the surprising historical trajectories of new man visions their often obscure origins acclaimed and forgotten champions unexpected and complicated results and mutual interrelations In short the volume is a timely examination of a recurring theme in modern history when dramatic advancements in science and technology conjoin with anxieties about the future to fuel dreams of a new and improved mankind

Attitudes, Poverty and Agency in Russia and Ukraine Ann-Mari S tre, Ildik  Asztalos Morell, 2017-10-02 One of the main ideas behind this book was to trace continuities from the Soviet time to post Soviet Russia There are many similarities between Russia and Ukraine indicating such a continuation Russia and Ukraine had a lot in common in terms of culture language and history partly also because of their common origin After the dissolution of the Soviet Union however the two independent countries chose different routes of development This makes it possible to distinguish between the effects of politics reforms on the one hand and the impacts from the Soviet system on the other After some more or less chaotic development paths in the 1990s showing clear differences between the two countries

and before the contemporary conflict broke out in Eastern Ukraine 2013 they had once again more similarities in terms of political leadership and policies in general The chapters in this book focus on Ukraine and on two regions in Russia Nizhny Novgorod and Archangelsk Contributors look at attitudes towards poverty and poor people strategies of the poor and policies against poverty This book was published as a special issue of the Journal of Contemporary Central and Eastern Europe

Land Reform in the Former Soviet Union and Eastern Europe Stephen K. Wegren, 2003-10-04 Land reform is a key factor in determining the political economic and social future of the transitional states of the former Soviet Union and Eastern Europe This book represents the first major study in this area Utilizing extensive field work unpublished materials statistical data and interviews with land reform officials the contributors explore the key issues **Works in Progress** Jenny Leigh Smith, 2014-10-28 This book is the first to investigate the gap between the plans and the reality of the Soviet Union's mid twentieth century project to industrialize and modernize its agricultural system Historians agree that the project failed badly agriculture was inefficient unpredictable and environmentally devastating for the entire Soviet period Yet assigning the blame exclusively to Soviet planners would be off the mark The real story is much more complicated and interesting Jenny Leigh Smith reveals in this deeply researched book Using case studies from five Soviet regions she acknowledges hubris and shortsightedness where it occurred but also gives fair consideration to the difficulties encountered and the successes however modest that were achieved *Global Land Grabbing and Political Reactions 'from Below'* Marc Edelman, Ruth Hall, Saturnino M. Borrás Jr., Ian Scoones, Ben White, Wendy Wolford, 2017-08-15 When the 2007-2008 food and financial crises triggered a global wave of land grabbing scholars activists and policy practitioners assumed that this would be met with massive peasant resistance As empirical evidence accumulated however it became clear that political reactions from below to land grabbing were quite varied and complex Violent resistance outright expulsions everyday weapons of the weak and demands for better terms of incorporation into land deals were among the outcomes that emerged Readers of this collection will encounter a multinational group of scholars who use the tools of social movements theory and critical agrarian studies to examine cases from Argentina Mexico Guatemala Nicaragua Colombia Ethiopia Madagascar Mozambique Uganda Mali Ukraine India and Laos as well as the Rio 20 Sustainable Development Conference Initiatives from below in response to land deals have involved local and transnational alliances and the use of legal and extra legal methods and have brought victories and defeats This book was first published as a special issue of The Journal of Peasant Studies *Putin's Russia* Dale Roy Herspring, 2007 A fifth edition of this book is now available This thoroughly revised and updated edition of the classic text provides the most current and authoritative assessment of Russia available Distinguished scholars offer a full scale assessment of Putin's leadership exploring the daunting domestic and international problems facing Russia today Evaluating the regime's continued efforts to rebuild a country in shambles the contributors consider a comprehensive array of economic political and social issues In addition to updated core chapters the book includes new essays on Putin's

leadership law foreign policy and the decline of democracy The book concludes that Putin will continue to address his country's problems in an incremental and centralized manner as he moves toward his goal of restoring Russia to the status of a world power

The Oxford Handbook of the History of Communism S. A. Smith, 2014 Draws on documentation released since the fall of the Soviet Union to offer a global history of communism in the twentieth century **Famine Politics in Maoist China and the Soviet Union** Felix Wemheuer, 2014-06-24 During the twentieth century 80 percent of all famine victims worldwide died in China and the Soviet Union In this rigorous and thoughtful study Felix Wemheuer analyzes the historical and political roots of these socialist era famines in which overambitious industrial programs endorsed by Stalin and Mao Zedong created greater disasters than those suffered under prerevolutionary regimes Focusing on famine as a political tool Wemheuer systematically exposes how conflicts about food among peasants urban populations and the socialist state resulted in the starvation death of millions A major contribution to Chinese and Soviet history this provocative analysis examines the long term effects of the great famines on the relationship between the state and its citizens and argues that the lessons governments learned from the catastrophes enabled them to overcome famine in their later decades of rule

Stategraphy Tatjana Thelen, Larissa Vettters, Keebet von Benda-Beckmann, 2017-11-30 Stategraphy the ethnographic exploration of relational modes boundary work and forms of embeddedness of actors offers crucial analytical avenues for researching the state By exploring interactions and negotiations of local actors in different institutional settings the contributors explore state transformations in relation to social security in a variety of locations spanning from Russia Eastern Europe and the Balkans to the United Kingdom and France Fusing grounded empirical studies with rigorous theorizing the volume provides new perspectives to broader related debates in social research and political analysis **Gazing at**

Welfare, Gender and Agency in Post-socialist Countries Maija Jäppinen, Meri Kulmala, Aino Saarinen, 2010-10-12 The volume presents a new and unique view of welfare in Russia and Eastern European countries from an intersectional perspective of welfare gender and agency Since the collapse of socialism the welfare structures of the post socialist states have experienced large and rapid changes The discussions on the reforming welfare models serve as the integrating theme for the volume The authors discuss past and current developments and make comparisons in time and space between the early 1990s and late 2000s and between post socialist and transitional countries Welfare and political democratization are analyzed on the one hand as structures and processes and on the other hand as cultural meanings and through agency which all are strongly gendered Macro level analyses and in depth case studies by scholars from different countries and disciplines provide a wide and multilayered picture of welfare developments and gendered practices of social services caregiving and civic activism among others Special attention is given to research methodologies particularly on fieldwork and micro level understanding of the related topics The contributors come from social and political sciences and from both former socialist and Western countries from Russia and Slovenia as well as the US the UK Germany and Finland In their studies the authors

examine various regions of Russia and other post socialist countries such as the Czech Republic Romania Moldova and Slovenia **Migration, Displacement and Identity in Post-Soviet Russia** Hilary Pilkington, 2002-11-01 The displacement of 25 million ethnic Russians from the newly independent states is a major social and political consequence of the collapse of the former Soviet Union Pilkington engages with the perspectives of officialdom of those returning to their ethnic homeland and of the receiving populations She examines the policy and the practice of the Russian migration regime before looking at the social and cultural adaptation for refugees and forced migrants Her work illuminates wider contemporary debates about identity and migration *Resources in Education* ,1998
