Postcards from Vermont Allen Freeman Davis, 2002 A vivid picture of four decades of social and cultural history in the Green Mountain State

Union County, Pennsylvania Charles McCool Snyder, John W. Downie, Lois Kalp, 2000 This updated and revised book covers the gamut of Union County s history It begins with the region s earliest days when the Delaware Indians were in residence and how the arrival of settlers who ventured into this frontier area from Berks and Lancaster counties marked the beginning of major changes Synder s text first published in 1976 has been expanded and updated to reflect newly discovered material on such groups as the Amish and the developments in Union County up to 2000 Distributed by Penn State University Press by arrangement with the Union County Historical Society

Adirondack Vernacular Robert Bogdan, 2003-02-01 Henry M Beach was a prolific and accomplished upstate New York photographer who documented the North Country during the first quarter of the twentieth century Although much less known and celebrated Beach s work is as important to the twentieth century Adirondacks as Seneca Ray Stoddard s is to the nineteenth century Illustrated with over 250 examples of his work including ten panoramic foldouts this book covers the range of Beach s subject matter Robert Bogdan s lively and accessible approach to the photographer s work encourages the reader to explore the North Country s people and places through Beach s photography and life Although

Beach's postcard pictures and other photographs were taken to sell in bulk to hotel managers, tourist shop owners and other retail merchants; they are not just mass-produced stylized pretty pictures. Beside the bubbling brooks and shady woodland paths are factory boomtowns and paper mills belching pollution. As the rails brought increasing numbers of middle-class tourists to the Adirondacks, the wealthy created their own exclusive wilderness playground. Beach photographed dandy visitors at play as well as manual laborers sweating in the forest logging camps, factories, mines and construction sites. Images of great camps sit next to modest abodes, small stores and family-owned resorts. Pictures of trains in scenic surroundings give way to mangled wrecks after tragic railroad accidents. In addition to standard view cards, he produced montages and advertisement postcards, serious visual commentary as well as lighthearted picture play. Beach's best works stir the heart and provoke the imagination, and his whimsical down-to-earth approach to photography produced images that are a treat to the eye.

Union County River Towns Jeannette Lasansky, 2011. High ridges and lush valleys teeming with natural resources abutted Union County's river towns of Allenwood, White Deer, New Columbia, West Milton and Winfield. Creeks emptying into the Susquehanna River connected gristmills and communities like Spring Garden to their river neighbors. Narrow gauge railroad lines brought excursions from White Deer to Tea Springs and men and lumber to operations run by lumber barons. The Reading Railroad ran beside the Susquehanna, but other lines crossed it, establishing West Milton as a railroad hub. Central Oak Heights and Devitt's Camp perched above West Milton, Allenwood and Spring Garden, while groves and islands at the river's edge were dotted with rustic camps. In the mid-20th century, a new Route 15 altered most of these towns' streetscapes, as World War II took the town of Alvira and area farmlands by eminent domain for explosives production. Through vintage photographs, Union County River Towns chronicles the rich history and evolution of this former frontier land.

Lewisburg Marion Lois Huffines, Richard A. Sauers, 2010. Lewisburg has always been a center of trade and culture as a river and canal town on the banks of the Susquehanna River. Once served by two railroads and a tiny airport, Lewisburg's bridges and roads connected it to distant cities and rich hinterlands. Lewisburg grew from its layout in 1785 by Ludwig Derr to become the home of thriving businesses, elegant 18th and 19th century homes and churches clustered on many of its corners. Along with adjacent Kelly and East Buffalo Townships, Lewisburg prospered on the backs of hardworking people with ideas, vision and a willingness to take risks. Named as the Union County seat in 1855, Lewisburg today has the resources of a city but the charm of a small town surrounded by farms and fields.

Mifflinburg and the West End Marion Lois Huffines, 2012. Mifflinburg and the towns of the West End have a story to tell. The hard work of making a life in early America demanded courage and determination of its settlers. There were good times when the towns thrived and tough times when efforts failed. Fires and accidents destroyed dreams and financial distress halted progress, but the towns survived, and those that did celebrated their successes with fairs, parades, bands and church dinners. Mifflinburg's buggy factories shipped buggies and sleighs across the young nation. The timber industry of the West End produced thousands of board feet which

built towns and propped up mines Images of America Mifflinburg and the West End tells the unfolding stories of Mifflinburg and the West End towns of Swengel Millmont Laurel Park Pardee Glen Iron Weikert Hartleton and Laurelton It is a history full of surprises and wonderful spirit **New Berlin and the Buffalo Valley** Jeannette Lasansky,2013 Located in the heartland of Union County New Berlin was considered a cultural educational and governmental center for craftsmen farmers and tradesmen The county seat from 1813 to 1855 New Berlin was the gateway to the Buffalo Valley Located in an area rich in natural resources New Berlin is bounded by Penns Creek and Shamokin Mountain The creek was a busy waterway that was used to transport goods while Shamokin Mountain is known for being rich with iron ore and timber New Berlin and the Buffalo Valley highlights what life was like in New Berlin and the surrounding communities of Dry Valley White Springs Vicksburg Buffalo Crossroads Mazeppa Cowan Red Bank Rand and Forest Hill the latter a gateway to lush woodlands and clear streams The Renaissance Perfected D. Medina Lasansky,2004 Mussolini s bold claims upon the monuments and rhetoric of ancient Rome have been the subject of a number of recent books D Medina Lasansky shows us a much less familiar side of the cultural politics of Italian Fascism tracing its wide ranging efforts to adapt the nation s medieval and Renaissance heritage to satisfy the regime s programs of national regeneration Anyone acquainted with the beauties of Tuscany will be surprised to learn that architects planners and administrators working within Fascist programs fabricated much of what today s tourists admire as authentic Public squares town halls palaces gardens and civic rituals including the famed Palio of Siena were all restored to suit a vision of the past shaped by Fascist notions of virile power social order and national achievement in the arts Ultimately Lasansky forces readers to question long standing assumptions about the Renaissance even as she expands the parameters of what constitutes Fascist culture The arguments in The Renaissance Perfected are based in fresh archival evidence and a rich collection of illustrations many reproduced for the first time ranging from photographs and architectural drawings to tourist posters and film stills Lasansky s groundbreaking book will be essential reading for students of medieval Renaissance and twentieth century Italy as well as all those concerned with visual culture architectural preservation heritage studies and tourism studies The South Carolina Review ,1997

Minnesota History Theodore Christian Blegen,Bertha Lion Heilbron,2004 Vol 6 includes the 23d Biennial report of the Society 1923 24 as an extra number As We Were Rosamond B. Vaule,2004 Today no one seriously doubts the value both aesthetic and historic of the ubiquitous American photographic postcard This was the medium that really brought photography to the masses these cards were affordable they were topical and they could be sent for a penny anywhere in the country The variety of imagery much of it developed anonymously in small studios much of it taken by inspired amateurs these were the days when anyone could and many folks did own a camera displays America in all its variety and vitality Most postcards were mass produced and printed in ink by the collotype or halftone process But a few were original photographic prints exposed directly from glass plates or film negatives Known as real photos these were real photographs aristocrats of

the genre and spectacular examples of vernacular photography In this charming and scholarly book Vaule selects the best of them from all over the country addressing their social and historical contexts explaining the mysteries of their manufacture and dissemination and describing the characteristics and identities of their makers many of whose names and studios are listed in the book But without doubt it is the images themselves that still hold us storefronts and townships frisky children and sober adults air ships and barn raisings Over one hundred are reproduced here each in fine line duotone each as fascinating and compelling today as when first fixed on paper

Postcards David Prochaska, Jordana Mendelson, 2010
Examines postcards as images that are carriers of text and textual correspondence that circulate images across boundaries of class gender nationality and race Discusses issues concerning the concrete practices of production consumption collection and appropriation
