Planning, Markets and Rural Housing Nick Gallent,2014-01-02 This book analyses the key forces affecting the affordability of rural homes in Britain and the changing shape of housing markets It takes as its

starting point demographic trends impacting upon rural communities and upon market dynamics From this point it explores consequent patterns of housing affordability examining changing opportunities in the rental and sale markets at different spatial scales The book also focuses on how markets are analysed and how data are selectively used to demonstrate low levels of affordability or a lack of need for additional housing in small village locations Building on the demographic theme the book considers the housing implications of an aging population before the focus finally shifts to community initiative in the face of housing undersupply and planning s future role in delivering and procuring a more constant and predictable supply of affordable homes In a speculative conclusion the book ends by examining the current political trajectory in England and the prospects for housing in the countryside in the context of localism and neighbourhood planning at a village level This book was published as a special issue of Planning Practice and Research
