Rural Change In Ireland:

Rural Change in Ireland John Davis, 1999 Written by leading scholars this provides penetrating insights and analyses of economic and social change in rural Ireland from the early 19th century to the end of the 20th century **Social change and everyday life in Ireland, 1850-1922** Caitriona Clear, 2013-07-19 Men and women who were born grew up and died in Ireland between 1850 and 1922 made decisions to train to emigrate to stay at home to marry to stay single to stay at school based on the knowledge and resources they had at the time This the first comprehensive social history of Ireland for the years 1850 1922 to appear since 1981 tries to understand that knowledge and to discuss those resources for men and women at all social levels on the island as a whole Original research particularly on extreme poverty and public health is supplemented by neglected published sources local history journals popular autobiography newspapers Folklore and Irish language sources are used extensively All recent scholarly books in Irish social history are of course referred to throughout the book but it is a lively read reproducing the voices of the people and the stories of individuals whenever it can questioning much of the accepted wisdom of Irish historiography over the past five decades Statistics are used from time to time for illustrative purposes but tables and graphs are consigned to the appendix at the back There are some illustrations An idea summary for the student loaded with prompts for future research this book is written in a non cliched jargon free style aimed at the general reader The Environmental Movement in Ireland Liam Leonard, 2007-12-03 This book examines key themes in Irish environmental politics including the main components that have come to define such events and incidents of environmental collective action in this country during forty years of growth and development The author analyses the mobilization and framing processes undertaken in these disputes locating them in the context of a wider rural identity that has shaped grassroots environmentalism in the Irish case **A History of Settlement in Ireland** Terry Barry, 2012-11-12 A History of Settlement in Ireland provides a stimulating and thought provoking overview of the settlement history of Ireland from prehistory to the present day Particular attention is paid to the issues of settlement change and distribution within the contexts of environment demography culture The collection goes further by setting the agenda for future research in this rapidly expanding area of academic interest This volume will be essential reading for all those with an interest in the archaeology history and social geography of Ireland The Routledge Companion to Rural Planning Mark Scott, Nick Gallent, Menelaos Gkartzios, 2019-01-28 The Routledge Companion to Rural Planning provides a critical account and state of the art review of rural planning in the early years of the twenty first century Looking across different international experiences from Europe North America and Australasia to the transition and emerging economies including BRIC and former communist states it aims to develop new conceptual propositions and theoretical insights supported by detailed case studies and reviews of available data The Companion gives coverage to emerging topics in the field and seeks to position rural planning in the broader context of global challenges climate change the loss of biodiversity food and energy security

and low carbon futures It also looks at old established questions in new ways at social and spatial justice place shaping economic development and environmental and landscape management Planning in the twenty first century must grapple not only with the challenges presented by cities and urban concentration but also grasp the opportunities and understand the risks arising from rural change and restructuring Rural areas are diverse and dynamic This Companion attempts to capture and analyse at least some of this diversity fostering a dialogue on likely and possible rural futures between a global community of rural planning researchers Primarily intended for scholars and graduate students across a range of disciplines such as planning rural geography rural sociology agricultural studies development studies environmental studies and countryside management this book will prove to be an invaluable and up to date resource

Racism and social change in the Republic of Ireland Bryan Fanning, 2018-09-30 Now in its second edition *Racism and Social Change in the Republic of Ireland* provides an original and challenging account of racism in twenty first century Irish society and locates this in its historical political sociological and policy contexts It includes specific case studies of the experiences of racism in twenty first century Ireland alongside a number of historical case studies that examine how modern Ireland came to marginalize ethnic minorities Various chapters examine responses by the Irish state to Jewish refugees before during and after the Holocaust asylum seekers and Travellers Other chapters examine policy responses to and academic debates on racism in Ireland A key focus of the various case studies is upon the mechanics of exclusion experienced by black and ethnic minorities within institutional processes and of the linked challenge of taking racism seriously in twenty first century Ireland

Poverty and the Poor Law in Ireland, 1850-1914 Virginia Crossman, 2013 The book provides the first detailed comprehensive assessment of the ideological basis and practical operation of the poor law system in the post Famine period in Ireland 1850-1914

Church, state and social science in Ireland Peter Murray, Maria Feeney, 2016-11-18 The immense power the Catholic Church once wielded in Ireland has considerably diminished over the last fifty years During the same period the Irish state has pursued new economic and social development goals by wooing foreign investors and throwing the state's lot in with an ever widening European integration project How a less powerful church and a more assertive state related to one another during the key third quarter of the twentieth century is the subject of this book Drawing on newly available material it looks at how social science which had been a church monopoly was taken over and bent to new purposes by politicians and civil servants This case study casts new light on wider processes of change and the story features a strong and somewhat surprising cast of characters ranging from Sean Lemass and T K Whitaker to Archbishop John Charles McQuaid and Father Denis Fahey

Sixties Ireland Mary E. Daly, 2016-03-24 A radical new perspective revealing the truth behind the making of modern Ireland from economic rebirth to entering the EEC

Ireland R. W. G. Carter, A. J. Parker, 2020-10-28 This book looks at Ireland's problems from geographic and environmental perspectives placing them within their regional national and international context It is invaluable to students decision makers and all those interested in the current situation in Ireland

and its future *Change and Development in Rural Ireland* Proinnsias Breathnach, Mary E. Cawley, 1986 **The Irish in Post-War Britain** Enda Delaney, 2007-09-20 Exploring the neglected history of Britain's largest migrant population this is a major new study of the Irish in Britain after 1945 The Irish in Post War Britain reconstructs with both empathy and imagination the histories of the lost generation who left independent Ireland in huge numbers to settle in Britain from the 1940s until the 1960s Drawing on a wide range of previously neglected materials Enda Delaney illustrates the complex process of negotiation and renegotiation that was involved in adapting and adjusting to life in Britain Less visible than other newcomers it is widely assumed that the Irish assimilated with relative ease shortly after arrival The Irish in Post war Britain challenges this view and shows that the Irish often perceived themselves to be outsiders located on the margins of their adopted home Many contemporaries frequently lumped the Irish together as all being essentially the same but Delaney argues that the experiences of Britain's Irish population after the Second World War were much more diverse than previously assumed and shaped by social class geography and gender as well as nationality The book's original approach demonstrates that any understanding of a migrant group must take account of both elements of the society that they had left as well as the social landscape of their new country Proximity ensured that even though these people had left Ireland home as an imagined sense of place was never far away in the minds of those who had settled in Britain Farming in Modern Irish Literature Nicholas Grene, 2021-08-05 This innovative study analyzes the range of representation of farming in Irish literature in the period since independence partition in 1922 as Ireland moved from a largely agricultural to a developed urban society In many different forms including poetry drama fiction and autobiography writers have made literary capital by looking back at their rural backgrounds even where those may be a generation back The first five chapters examine some of the key themes the impact of inheritance on family in the patriarchal system where there could only be one male heir the struggles for survival in the poorest regions of the West of Ireland the uses of childhood farming memories whether idyllic or traumatic and the representation of communities challenging the homogeneous idealizing images of the Literary Revival the impact of modernization on successive generations into the twenty first century The final three chapters are devoted to three major writers in whose work farming is central Patrick Kavanagh the small farmer who had to find an individual voice to express his own unique experience John McGahern in whose fiction the life of the farm is always posited as alternative to a rootless urban milieu and Seamus Heaney who reimagined his farming childhood in so many different modes throughout his career Farming in Modern Irish Literature yields original insights into the literary iconography of rural Ireland and its interplay with social and cultural history opening up fresh vistas on the achievements of Irish writers in different genres styles and historical eras **Land questions in modern Ireland** Fergus Campbell, Tony Varley, 2016-05-16 This collection of essays explores the nature and dynamics of Ireland's land questions during the nineteenth and twentieth centuries and also the ways in which the Irish land question has been written about by historians The book makes a vital contribution to the study of

historiography by including for the first time the reflections of a group of prominent historians on their earlier work These historians consider their influences and how their views have changed since the publication of their books so that these essays provide an ethnographic study of historians thoughts on the shelf life of books exploring the way history is made The book will be of interest to historians of modern Ireland and those interested in the revisionist debate in Ireland as well as to sociologists and anthropologists studying Ireland or rural societies **Ireland** P. J. Drudy,1982 *An Anthropology of the Irish in Belgium* Sean O' Dubhghaill,2019-07-22 The first anthropological account of the Irish diaspora in Europe in the 21st century this book provides a culture centric examination of the Irish diaspora Focusing less on an abstract or technical definition of Irish self identification the author allows members of this group to speak through vignettes and interview excerpts providing an anthropological lens that allows the reader to enter a frame of self reference This book therefore provides architecture to understand how diasporic communities might understand their own identities in a new way and how they might reconsider the role played by mobility in changing expressions of identity Providing firsthand experiential and narrative insight into the Irish diaspora in Europe this volume promises to contribute an anthropological perspective to historical accounts of the Irish overseas theoretical works in Irish studies and sociological examinations of Irish identity and diaspora Self-Neglect in Older Adults Mary Rose Day,Geraldine McCarthy,Joyce J. Fitzpatrick,2017-08-28 An unequalled compendium of cutting edge information on self neglect This authoritative resource in provides nurses and healthcare professionals with a comprehensive overview and analysis of self neglect in older adults With an aging global population self neglect is emerging as a complex problem that crosses multiple disciplines of health and social care Characterized by a harmful inattention to health and hygiene self neglect manifests in a variety of ways across the world that healthcare professionals need to be able to recognize and manage The only text with the latest analysis of theoretical perspectives research and evidence from global leaders in the field chapters tackle the interdisciplinary problem of self neglect to deliver current professional practice tools and clinical practice interventions Replete with case studies that examine the ethical legal and medical issues of self neglect the content is immediately applicable to researchers and clinicians An extensive list of contributors from the U S Ireland England Scotland Australia Israel Canada and Korea include respected researchers practitioners and academics from multiple health and social care disciplines along with health and social care services who have played a critical role in advancing research public awareness and policy on self neglect Key Features Delivers multifaceted cutting edge information on self neglect in older adults for nurses and related healthcare professionals Addresses theory research evidence assessment and measurement and clinical practice interventions Includes practical applications case studies and illustrations in each chapter Authored by an international panel of authoritative leaders in gerontology Provides debate and discussion on self neglect that will promote further enquiry and research **Demography, State and Society** Enda Delaney,2000-01-01 Between the foundation of the new Irish state in 1921 22 and the early 1970s

approximately one and a half million people left independent Ireland the vast majority travelling to Britain Demography State and Society is the first comprehensive analysis of the twentieth century Irish exodus to Britain Meticulously researched using an exhaustive range of previously unused source materials this book provides a detailed examination of the many ways in which migration shaped twentieth century Irish society The book focuses on a number of vital themes many of them rarely mentioned by previous studies state policy in Ireland official responses in Britain gender dimensions individual migrant experience patterns of settlement in Britain and the crucial phenomenon of return migration A major study of Irish migration this book also offers much that will be of interest to scholars students and general readers in the wider fields of modern British and Irish history

Understanding Contemporary Ireland Richard Breen, Damian F Hannan, 2016-07-27 Thirty years ago the Irish State embarked on a programme of development which rapidly transformed the economy and with it Irish society This book is about that transformation and its effects In particular it focuses on the relationship between the policies pursued by the State and the class structure of Ireland It argues that despite promises of general prosperity the benefits of Ireland s economic development have been very unevenly distributed leading to a growing polarisation between social classes
