Rural Emergency Medical Services Maria Elizabeth Hewitt,1989 **A narrowing space: Violence and discrimination against India's religious minorities** ,2017-06-29 Religious minorities have long been the target of a range of different forms of persecution such as hate crimes threats attacks on places of worship and forced conversion Nevertheless in recent

years there has been rising hostility against India's religious minorities particularly since the current right wing BJP government promoting Hindu nationalism took power at the national level after its election in May 2014. In particular communal violence disproportionately affects India's religious minorities especially Muslims but also Christians and Sikhs. While often instrumentalized for political gains communal violence draws on and exacerbates a climate of entrenched discrimination against India's religious minorities with far reaching social economic cultural and political dimensions. Such violence is frequently met with impunity and in certain instances direct complicity from state actors ranging from inciting violence through hate speech to refusing to properly investigate communal incidents after they have occurred. The aim of this short briefing is to contextualise these recent developments drawing attention to the ways communal violence is linked to wider discrimination against religious minorities and infringes upon their enjoyment of minority rights.

Spatial Appropriations in Modern Empires, 1820-1960 Didier Guignard, Iris Seri-Hersch, 2019-09-18 This book provides fresh insights into colonial and imperial histories by focusing on spatial appropriations. Moving away from European notions of property appropriation encompasses the many ways in which social actors consider a space as their own. This space may be physical or immaterial public or intimate lived or imagined. In modern empires spatial appropriations amounted neither to a material and violent dispossession orchestrated by European or Japanese powers nor to an ongoing and unquestioned resistance by subaltern peoples. They were rather sites of complex interactions in which the part of each actor owed as much to foreign domination as to other political social economic and environmental factors. Cutting across common historiographical boundaries the chapters of this book bring to light the declination and conjugation of various forms of spatial appropriation in the modern imperial age 1820-1960 taking readers on
