Crisis and Commitment Sonia Alland, Alexander Alland Jr., 2014-04-23 Using ethnographic field data from the Larzac plateau in Southern France Alexander and Sonia Alland document one of the longest and most successful popular protests in modern French history the Larzac movement More than a record of events the book describes the transformation from the early 1970s of rural defiance into a symbol of left wing action for France and the world This revised edition examines the activities of the movement since 1995 including the demonstrations at the Seattle meeting of the World Trade Organisation the great hamburger war against McDonalds and the broadening of the movement to embrace struggles elsewhere such as the anti nuclear protests in French Polynesia Particular attention is paid to the charismatic Jose Bove who has become the figurehead and focus of the campaign during this period This account will be of particular interest to anthropologists and historians of contemporary France and Europe as well as students of protest and social movements and of contemporary politics in general *National Regeneration in Vichy France* Debbie Lackerstein, 2016-04-22 The creators of the Vichy regime did not intend merely to shield France from the worst effects of military defeat and occupation rather the leaders of Vichy were inspired by a will to regenerate France to establish an authoritarian new order that would repair the degenerative effects of parliamentary democracy and liberal society Their plan to effect this change took the form of a far reaching programme they called the National Revolution This is the first study of the National Revolution as the expression of Vichy's ideology and aims It reveals the variety and complexity of both right wing and other strands of French thought in the

context of the turbulent years of the 1930s when Vichy's history really begins and under the Occupation when internal rivalries and divisions as well as the pressures of war doomed Vichy's programme of national regeneration. The book is structured around a consideration of the rhetoric of right wing ideology and such key catchwords as decadence, action, order, realism and new man and shows how these phrases only served to mask the political and ideological incoherence of the Vichy government. Origins of the French Welfare State Paul V. Dutton, 2002-05-16

This is the first comprehensive analysis of public and private welfare in France available in English or French which offers a deeply researched explanation of how France's welfare state came to be and why the French are so attached to it. The author argues that France simultaneously pursued two different paths toward universal social protection. Family welfare embraced an industrial model in which class distinctions and employer control predominated. By contrast protection against the risks of illness, disability, maternity and old age followed a mutual aid model of welfare. The book examines a remarkably broad cast of actors that includes workers, unions, employers, mutual leaders, the parliamentary elite, *haut fonctionnaires*, doctors, pronatalists, women's organizations, both social Catholic and feminist and diverse peasant organisations. It also traces foreign influences on French social reform particularly from Germany's former territories in Alsace Lorraine and Britain's Beveridge Plan. **The Road to a United**

Europe Ann-Christina L. Knudsen, 2009. Papers from the Second International RICHIE Conference held in Copenhagen Denmark in December 2006. *The Transition to Capitalism in Modern France* Xavier Lafrance, Stephen Miller, 2023-11-03

Historians since the 1960s argue that the French economy performed as well as did any economy in Europe during the eighteenth and nineteenth centuries thanks to the opportunities for profit available on the market, especially the large consumer market in Paris. Whatever economic weaknesses existed did not stem from the social structure but from exogenous forces such as wars, the lack of natural resources or slow demographic growth. This book challenges the foregoing consensus by showing that the French economy performed poorly relative to its rivals because of noncapitalist social relations. Specifically peasants and artisans controlled lands and workshops in autonomous communities and did not have to improve labor productivity to survive. Merchants and manufacturers cornered markets instead of being subject to the market's competitive imperatives. Thus distinctive features of capitalism, primitive accumulation, the dispossession of peasants and artisans and the competitive obligation faced by merchants and manufacturers to reinvest profits in order to keep the profits did not prevail until the state imposed them in a process lasting for a century after the 1850s. For this reason it was not until the 1960s that France caught up to and in some cases surpassed its economic rivals. **The Resurgence of the Radical**

Right in France Gabriel Goodliffe, 2012-02-13. Recounts the resurgence of significant political movements of the Radical Right in France since the end of the nineteenth century. **Film and Community in Britain and France** Margaret

Butler, 2004-08-27. Relations between France and Britain have always been uneasy and ambivalent. But in cinema WWII changed all that for a time. Although the two countries' wartime fortunes differed, post-war both were busy reintegrating

returning servicemen and prisoners of war and accomodating the changed aspirations of women Margaret Butler examines these subjects and more in her comparative study of the cinemas of Britain and France during and after the war Using the concept of continuity she shows how cinema dealt directly with ideas of belonging and alienation inclusion and exclusion unity and division She also draws on contemporary debates and offers a perceptive reading of key films to reveal the meaning and appeal of French classics like *Les Enfants du Paradis* and notable British productions like *Waterloo Road*
