China's Long March to Freedom Kate Zhou,2017-09-08 China is more than a socialist market economy led by ever more reform minded leaders It is a country whose people seek liberty on a daily basis Their success has been phenomenal despite the fact that China continues to be governed by a single party Clear distinctions between the people and the government are emerging underlining the fact that true liberalization cannot be imposed from above Although a large percentage of the Chinese people have been part of China s long march to freedom farmers entrepreneurs migrants Chinese gays sex pleasure seekers and black marketers played a particularly important role in the beginning Lawyers scholars journalists and rights activists have jumped in more recently to ensure that liberalization continues Social dissatisfaction with the government is now published in the media addressed in public forums and deliberated in courtrooms Intellectuals devoted to improvement in human rights and continued liberalization are part of the process This grassroots social revolution has also resulted from the explosion of information available to ordinary people especially via the Internet and far reaching international influences All have fundamentally altered key elements of the moral and material content of China s party state regime and society at large This social revolution is moving China towards a more liberal society despite its government The Chinese government reacts rather than leads in this trans formative process This book is a landmark a decade in the making *Urban Migration and Public Governance in China* Shangguang Yang,Danyang Wang,2023-08-21 This book focusing on urban migration and public governance reviews on the concepts and theories of urban migration and urban governance across the globe and sums up world migration trends and policy changes coupled with the characteristics and types of China s urban migration What

differs this book from other books is that it probes into the main factors and mechanisms influencing urban migration and inclusion and that it adopts Shanghai as a sample and capitalizes on Shanghai's urban migration data to verify the subjective and objective reasons affecting urban migrants' inclusion. Moreover, this book takes a further step to conduct a theoretical reflection from the perspectives of population migration and migration policies and explores current dilemmas facing China in terms of urban migration management and possible ways to make a difference. In the final part, this book puts forward some theory-based and practicable countermeasures to transform urban migration governance in China.

Migrant Workers in Pacific Asia Yaw A. Debrah, 2018-12-07 The migration of workers to the high growth countries in Pacific Asia in the 1980s was a new phenomenon in these countries. As such, the host governments did not have in place adequate housing, social security, and legal protection, but the tight controls following the financial crisis have pushed these issues to the back burner. This volume discusses the debates and controversies surrounding this issue in Malaysia, Taiwan, Singapore, South Korea, Japan, and China.

China's Changing Economy Curtis Andressen, 2016-05-20 One of the most dramatic events in the global economy over the past few decades has been the rise of China as a global economic power. From humble beginnings in the late 1970s, the policy shift in China from a planned to a market economy has led to economic growth of tremendous speed. This book examines the changes taking place in China's economy today and the impacts of these changes in China and abroad. The central theme is that the rapid economic growth has come at a cost, as many problems have emerged as a result in China's economy and society, including a dramatic rich-poor gap, labour issues, problems in the banking sector, and severe inflation in the cost of housing, as well as challenges with respect to China's external trade. The Chinese government recognizes these problems and is taking steps to rebalance its economy and society. The book takes a political economy perspective in order to investigate the interplay between the political system in China and the way in which the economy is structured and the manner in which economic changes take place. Demonstrating that in order for China to achieve sustained economic growth and social improvement, it must undertake serious policy changes, it also highlights that if countries are going to deal with China in a stable and productive manner, a thorough understanding of key contemporary developments in that country is vital. Covering a range of the most pertinent issues facing China today, this book will be of interest to students and scholars of Chinese Economics, Economic Development, and Political Economy.

The Great Urbanization of China Ding Lu, 2012 As China rises to become the world's largest economy, it is expected to alleviate half a billion people from being rural villagers to urban residents in the coming decades. The great urbanization of the world's most populated country is sure to be one of the most remarkable social-economic events in the 21st century. This book aims to give the reader a clear and comprehensive review of this unfolding event. It not only presents a historical review of the evolution of public policies and institutional reforms regarding urban development but also an up-to-date survey and in-depth analysis of various social-economic forces that define and contribute to the process of urbanization. The target audiences include students of modern China and

professionals interested in China's urban development The general public as well as scholars may also find the book informative and fascinating
