## **Ruskin And Modernism:**

**Ruskin and Modernism** Giovanni Cianci, Peter Nicholls, 2000-12-12 The extent of John Ruskin's influence has long been acknowledged though his impact on the development of Anglo American modernism has received little systematic attention In this volume published to mark the centenary of Ruskin's death a group of international scholars consider what is often an awkward and conflicted relation Ruskin's voluminous writings are seen to shelter an incipient modernism whose antipathy to a degraded modernity powerfully predicts a major current within the work of the new century **The Works of John**

**Ruskin: Modern painters, v.1-5** John Ruskin, 1890 **Ruskin and the Twentieth Century** Toni Cerutti, 2000

Victorian Modernism Jessica R. Feldman, 2009-10 In *Victorian Modernism Pragmatism and the Varieties of Aesthetic Experience* Jessica Feldman sheds a pragmatist light on the relation between the Victorian age and Modernism by dislodging truistic notions of Modernism as an art of crisis rupture elitism and loss She examines aesthetic sites of Victorian Modernism including workrooms parlours friendships and family relations as well as printed texts and paintings as they develop through interminglings and continuities as well as gaps and breaks Examining the works of John Ruskin art critic and social thinker Dante Gabriel Rossetti poet and painter Augusta Evans best selling domestic novelist and William James philosopher and psychologist Feldman relates them to selected twentieth century creations She reveals these sentimental domestic and sublime works to be pragmatist explorations of aesthetic realms This study which leads Modernism back into the Victorian age will be of interest to scholars of literature art history and philosophy **The Senses of Modernism** Sara Danus, 2019-01-24 In *The Senses of Modernism* Sara Danus develops a radically new theoretical and historical understanding of high modernism The author closely analyzes Thomas Mann's *The Magic Mountain* Marcel Proust's *Remembrance of Things Past* and James Joyce's *Ulysses* as narratives of the sweeping changes that affected high and low culture in the age of technological reproduction In her discussion of the years from 1880 to 1930 Danus proposes that the high modernist aesthetic is inseparable from a technologically mediated crisis of the senses She reveals the ways in which categories of perceiving and knowing are realigned when technological devices are capable of reproducing sense data Sparked by innovations such as chronophotography phonography radiography cinematography and technologies of speed this sudden shift in perceptual abilities had an effect on all arts of the time Danus explores how perception notably sight and hearing is staged in the three most significant modern novels in German French and British literature *The Senses of Modernism* connects technological change and formal innovation to transform the study of modernist aesthetics Danus questions the longstanding acceptance of a binary relationship between high and low culture and describes the complicated relationship between modernism and technology challenging the conceptual divide between a technological culture and a more properly aesthetic one *Rilke, Modernism and Poetic Tradition* Judith Ryan, 1999-11-25 If the rise of modernism is the story of a struggle between the burden of tradition and a desire to break free of it then Rilke's poetic development is a

key example of this tension at work Taking a sceptical view of Rilke's own myth of himself as a solitary genius Judith Ryan reveals how deeply his writing is embedded in the culture of its day She traces his often desperate attempts to grapple with problems of fashion influence and originality as he shaped his career during the crucial decades in which modernism was born This 1999 book was the first systematic study of Rilke's trajectory from aestheticism to modernism as seen through the lens of his engagement with poetic tradition and the visual arts It is full of surprising discoveries about individual poems Above all it shifts the terms of the debate about Rilke's place in modern literary history

German Cities and Bourgeois Modernism, 1890-1924 Maiken Umbach, 2009-06-25 This is a study of a distinctive brand of modernism that first emerged in late nineteenth century Germany and remained influential throughout the inter war years and beyond Its supporters saw themselves as a new elite ideally placed to tackle the many challenges facing the young and rapidly industrializing German nation state They defined themselves as bourgeois and acted as self appointed champions of a modern consciousness Focusing on figures such as Hermann Muthesius Fritz Schumacher and Karl Ernst Osthaus and the activities of the Deutscher Werkbund and other networks of bourgeois designers writers and experts this book shows how bourgeois modernism shaped the infrastructure of social and political life in early twentieth century Germany Bourgeois modernism exercised its power not so much in the realm of ideas but by transforming the physical environment of German cities from domestic interiors via consumer objects to urban and regional planning Drawing on a detailed analysis of key material sites of bourgeois modernism and interpreting them in conjunction with written sources this study offers new insights into the history of the bourgeois mindset and its operations in the private and public realms Thematic chapters examine leitmotifs such as the sense of locality and place the sense of history and time and the sense of nature and culture Yet for all its self conscious progressivism German bourgeois modernism was not an inevitable precursor of neo liberal global capitalism It remained a hotly contested historical construct which was constantly re defined in different geographical and political settings

**Modernism's History** Bernard Smith, 1998-01-01 The history of twentieth century visual arts can no longer be written as a succession of avant garde movements contends eminent art historian Bernard Smith in this stimulating book He argues that a return to the concept of period style is inevitable and that modernism the dominant style of art that emerged at the end of the nineteenth century and continued through the 1960s deserves recognition as a period style Smith renames this period Formalesque since it is no longer modern and since it emphasizes the formal values of art more than any previous period does In a wide ranging reformulation of art history in the twentieth century the author defines the nature and development of Formalesque an avant garde style that arose between 1890 and the First World War was institutionalized between the world wars and flourished anew between 1945 and 1960 Identifying the Formalesque period says Smith makes it possible also to identify dialectical adversaries such true oppositional avant garde styles of the twentieth century as Dada Surrealism and the Neue Sachlichkeit These constitute the formative elements of the modernism now called postmodernism

that became increasingly dominant after 1960 The author locates twentieth century artistic movements and developments in a broad cultural context and concludes with a thought provoking examination of the relation between the Formalesque and European and American cultural imperialism      **Vernacular Modernism** Maiken Umbach, Bernd-Rüdiger Hüppauf, 2005 Vernacular Modernism advocates a rethinking of the importance of the vernacular as part of the modernist discourse of place from art to literature from architectural to social practice      *Modernism and Morality* M. Halliwell, 2001-09-12 Modernism and Morality discusses the relationship between artistic and moral ideas in European and American literary modernism Rather than reading modernism as a complete rejection of social morality this study shows how early twentieth century writers like Conrad Faulkner Gide Kafka Mann and Stein actually devised new aesthetic techniques to address ethical problems By focusing on a range of decadent naturalist avant garde and expatriate writers between 1890 and the late 1930s this book reassesses the moral trajectory of transatlantic fiction      *Great War Modernism* Nanette Norris, 2015-12-16 New Modernist Studies while reviving and revitalizing modernist studies through lively scholarly debate about historicity aesthetics politics and genres is struggling with important questions concerning the delineation that makes discussion fruitful and possible This volume aims to explore and clarify the position of the so called core of literary modernism in its seminal engagement with the Great War In studying the years of the Great War we find ourselves once more studying the giants about whom there is so much more to say as well as adding hitherto marginalized writers and a few visual artists to the canon The contention here is that these war years were seminal to the development of a distinguishable literary practice which is called modernism but perhaps could be further delineated as Great War modernism a practice whose aesthetic merits can be addressed through formal analysis This collection of essays offers new insight into canonical British American European modernism of the Great War period using the critical tools of contemporary expansionist modernist studies By focusing on war and on the experience of the soldier and of those dealing with issues of war and survival these studies link the unique forms of expression found in modernism with the fragmented violent and traumatic experience of the time

**and Music at the Birth of Modernism, 1815?915 "** James H. Rubin, 2017-07-05 Introducing the concept of music and painting as rival sisters during the nineteenth century this interdisciplinary collection explores the productive exchange from rivalry to inspiration to collaboration between the two media in the age of Romanticism and Modernism The volume traces the relationship between art and music from the opposing claims for superiority of the early nineteenth century to the emergence of the concept of synesthesia around 1900 This collection puts forward a more complex history of the relationship

between art and music than has been described in earlier works including an intermixing of models and distinctions between approaches to them Individual essays from art history musicology and literature examine the growing influence of art upon music and vice versa in the works of Berlioz Courbet Manet Fantin Latour Rodin Debussy and the Pre Raphaelites among other artists

*Britain and Italy from Romanticism to Modernism* Martin McLaughlin, 2017-12-02 In this volume a team of experts in various fields considers the impact of Italian politics and culture on British life from the early nineteenth century to the first decades of the twentieth century The essays cover a wide range of topics politics music the visual arts literature and the intellectual life as well as the emergence of Italian as an academic discipline Edited with an introduction by Martin McLaughlin the volume includes essays by Ian Campbell Hilary Fraser T G Griffith David Kimbell John Lindon Denis Mack Smith Brian Moloney and J R Woodhouse as well as the last article written by the late Serena Professor of Italian at Cambridge Uberto Limentani

**The Avant-Garde in Interwar England** Michael T. Saler, 2001-05-24 The Avant Garde in Interwar England addresses modernism's ties to tradition commerce nationalism and spirituality through an analysis of the assimilation of visual modernism in England between 1910 and 1939 During this period a debate raged across the nation concerning the purpose of art in society On one side were the aesthetic formalists led by members of London's Bloomsbury Group who thought art was autonomous from everyday life On the other were England's so called medieval modernists many of them from the provincial North who maintained that art had direct social functions and moral consequences As Michael T Saler demonstrates in this fascinating volume the heated exchange between these two camps would ultimately set the terms for how modern art was perceived by the British public Histories of English modernism have usually emphasized the seminal role played by the Bloomsbury Group in introducing celebrating and defining modernism but Saler's study instead argues that during the watershed years between the World Wars modern art was most often understood in the terms laid out by the medieval modernists As the name implies these artists and intellectuals closely associated modernism with the art of the Middle Ages building on the ideas of John Ruskin William Morris and other nineteenth century romantic medievalists In their view modernism was a spiritual national and economic movement a new and different artistic sensibility that was destined to revitalize England's culture as well as its commercial exports when applied to advertising and industrial design This book then concerns the busy intersection of art trade and national identity in the early decades of twentieth century England Specifically it explores the life and work of Frank Pick managing director of the London Underground whose famous patronage of modern artists architects and designers was guided by a desire to unite nineteenth century arts and crafts with twentieth century industry and mass culture As one of the foremost adherents of medieval modernism Pick converted London's primary public transportation system into the culminating project of the arts and crafts movement But how should today's readers regard Pick's achievement What can we say of the legacy of this visionary patron who sought to transform the whole of sprawling London into a post impressionist work of art And was medieval modernism itself a movement of pioneers or

dreamers In its bold engagement with such questions The Avant Garde in Interwar England will surely appeal to students of modernism twentieth century art the cultural history of England and urban history      **The Renaissance, English Cultural Nationalism, and Modernism, 1860-1920** L. Hinojosa, 2009-04-26 Contextualising the emergence of literary and aesthetic modernism and cultural nationalism within the popularity of the Renaissance this volume offers new insights into high and low culture as well as historical periodization      *Modeled abstractions* Charles Loughhead, 1983
