about the visual arts From John Ruskin's five volume celebration of J M W Turner to Walter Pater's essays on the Italian Renaissance Victorian writers disseminated a new idea in the nineteenth century that art spectatorship could provide one of the most intense and meaningful forms of human experience In *The Literate Eye* Rachel Teukolsky analyzes the vivid archive of Victorian art writing to reveal the key role played by nineteenth century authors in the rise of modernist aesthetics Though traditional accounts locate a break between Victorian values and the experimental styles of the twentieth century Teukolsky traces how certain art writers promoted a formalism that would come to dominate canons of twentieth century art Well known texts by Ruskin Pater and Wilde appear alongside lesser known texts drawn from the rich field of Victorian print culture including gallery reviews scientific treatises satirical cartoons and tracts on early photography Spanning the years 1840 to 1910 her argument lends a new understanding to the transition from Victorianism to modernism a period of especially lively exchange between artists and intellectuals here narrated with careful attention to the historical particularities and real events that informed British aesthetic values Lavishly illustrated and marked by meticulous research *The Literate Eye* offers an eloquent argument for the influence of Victorian art culture on the museum worlds of modernism in a revisionary account that ultimately relocates the notion of the modern to the heart of the nineteenth century

Pedro Lorente, 2020-04-01 The art world has become a point of contention within a range of debates and yet strangely enough while art criticism has been discussed at length very little is said about art critics Following in the footsteps of Lionello Venturi's *History of Art Criticism* in the current volume Lorente provides an updated reassessment of the great art critics from the Enlightenment down to the turn of the millennium Conceived as a didactic handbook with a recommended bibliography at the end of each chapter this concise work tells the history of a profession in permanent crisis while also paying homage to its most influential practitioners in different cultural contexts

*Building Ruskin's Italy* Stephen Kite, 2017-07-05 Based on extensive fieldwork and research into John Ruskin's still little interpreted archival material notebooks and drawings in the Ruskin Library Lancaster University UK and elsewhere Stephen Kite offers an unprecedented account of the evolution of Ruskin's architectural thinking and observation in the context of Italy where his watching of building achieved its greatest intensity Venice naturally figures large in a work that also examines other key sites including Verona Lucca Pisa Florence Milan and Monza here the fabrics are vividly read in their contexts against the rich evidence of Ruskin's diaries his pocket book sketches architectural worksheets drawings and daguerrotypes the early form of photography and the drafts and published editions of the texts Kite presents the complex story of Ruskin's visual thinking in architecture as a narrative of deepening interpretation and representation focusing on the humbler monuments of Italy He

shows how Ruskin's early picturesque naturalism was transformed by the realisation that to understand the built realities confronting him in Italy demanded a closer engagement with the substance of the stones themselves reflecting Ruskin's sense of his task as a near archaeological gleaning and gathering of remains hidden in many a grass grown court and silent pathway and lightless canal
