Russia And The Middle East Towards A New Foreign Policy:

Russia and the Middle East Talal Nizameddin, 1999 The end of the Soviet Union precipitated a reassessment of Russia's foreign policy in many parts of the world particularly the Middle East This text looks at how a once cherished commitment to ideological goals and superpower rivalry with the United States was replaced after 1991 with a pragmatic foreign policy based on national interest epitomized by the appointment of Yevgeni Primakov as foreign minister The book examines Gorbachev's new thinking the foreign policy debates under President Yeltsin and the warning of Russian influence over the Palestinians and its consequent exclusion from the secret Oslo records Case studies of Russia's relations with Israel Syria Lebanon Jordan Saudi Arabia Iraq Turkey and Iran provide the reader with a detailed analysis of the region's wider diplomatic and strategic concerns

Russian Foreign Policy Towards the Middle East Nikolay Kozhanov, 2022-04-28 This book sheds light on Russia's motives in the Middle East examining its growing role in the region and its efforts to defend its national interests As one of the first volumes to address both domestic and external drivers it provides a valuable multi-dimensional account of Moscow's foreign policy Russian Foreign Policy Towards the Middle East also traces the historical evolution of Russia's presence in the region comparing Moscow's current vision of its diplomatic priorities with the strategic goals of the Soviet Union Diverse case studies reveal areas of both divergence and convergence between Russia and various Middle Eastern players on a range of issues including the Syrian Civil War Iran's regional activities and the Yemeni conflict In an era of renewed global tensions this volume provides an important corrective to the notion that Russia's Cold War era confrontation with the West determines its contemporary approach to the Middle East No less important are economic interests and domestic security considerations which push Moscow towards greater interaction with the region Only by examining both new trends and old traditions can we understand Russia's significance as a global player today

[Russia in the Middle East](#) Andrej Kreutz, 2006-11-30 Kreutz examines the goals and strategies of Russia and the former Soviet Union toward most of the Arab states in the Middle East The author argues that Russia has been an important actor in the region for over a century and has tried to regain its influence in several countries following its strategic retreat after the collapse of the Soviet Union in the early 1990s However according to Kreutz Moscow does not seek confrontation with the United States or with the West in general in the region Rather the Russians are interested in peace and stability in the region which is close to its borders Because of that although Moscow wants to cultivate its links with Israel it also seeks to reach a peaceful and balanced solution to the Palestinian Israel and the Arab Israeli conflicts taking Palestinian and Arab interests into account Washington can better engage Moscow as a stabilizing force in the Middle East and as a collaborator in the struggle against Islamic terrorists At the same time the United States must be cognizant of where Washington and Moscow diverge Although Russia may be too weak now to compete with the United States on a global scale it is not happy to see American or EU encroachment close to its own neighborhood If we take their weakness for granted and become blind to the possibilities for

Russian alliances in the region we do so to our disadvantage This book demonstrates Russia's enduring interest and influence in the Arab Middle East *Russia and the GCC* Diana Galeeva, 2022-12-29 In recent decades Russia has played an increasingly active role in the Middle East as states within the region continue to diversify their relations with major external powers Yet the role of specific Russian regions especially those that share an Islamic identity with the GCC has been overlooked In this book Diana Galeeva examines the relations between the Gulf States and Russia from the Soviet era to the present day Using the Republic of Tatarstan one of Russia's Muslim polities as a case study Galeeva demonstrates the emergence of relations between modern Tatarstan and the GCC States evolving from concerns with economic survival to a rising paradiplomacy reliant on shared Islamic identities Having conducted fieldwork in the Muslim Republics of Tatarstan Bashkortostan and Dagestan the book includes interviews with high ranking political figures heads of religious organisations and academics Moving beyond solely economic and geopolitical considerations the research in this book sheds light on the increasingly important role that culture and shared Islamic identity play in paradiplomacy efforts **Routledge Handbook of International Relations in the Middle East** Shahram Akbarzadeh, 2019-03-26 This handbook examines the regional and international dynamics of the Middle East It challenges the state society dichotomy to make sense of decision making and behavior by ruling regimes The 33 chapter authors include the world's leading scholars of the Middle East and International Relations IR in order to make sense of the region This synthesis of area studies expertise and IR theory provides a unique and rigorous account of the region's current dynamics which have reached a crisis point since the beginning of the Arab Spring The Middle East has been characterized by volatility for more than a century Although the region attracts significant scholarly interest IR theory has rarely been used as a tool to understand events The constructivist approach in IR highlights the significance of state identity shaped by history and culture in making sense of international relations The authors of this volume consider how IR theory can elucidate the patterns and principles that shape the region in order to provide a rigorous account of the contemporary challenges of the Middle East The Routledge Handbook of International Relations in the Middle East provides comprehensive coverage of International Relations issues in the region Thus it offers key resources for researchers and students interested in International Relations and the Middle East *The Middle East in International Relations* Fred Halliday, 2005-01-24 The international relations of the Middle East have long been dominated by uncertainty and conflict External intervention interstate war political upheaval and interethnic violence are compounded by the vagaries of oil prices and the claims of military nationalist and religious movements The purpose of this book is to set this region and its conflicts in context providing on the one hand a historical introduction to its character and problems and on the other a reasoned analysis of its politics In an engagement with both the study of the Middle East and the theoretical analysis of international relations the author who is one of the best known and most authoritative scholars writing on the region today offers a compelling and original interpretation Written in a clear accessible and interactive style the book is designed for

Rising Powers and the Arab-Israeli Conflict since 1947 Guy Burton, 2018-02-26 What has been the role of rising powers in the Arab Israeli conflict What does this tell us about rising powers and conflict management as well as rising powers behavior in the world more generally This book studies the way that five rising powers Brazil Russia India China and South Africa the BRICS countries have approached the conflict since it first became internationalized in 1947 Conflict management consists of different methods from peacekeeping to mediation and the use of economic incentives and sanctions and non enforcement of international legal decisions What distinguishes them is whether they are active or passive active measures seek to transform a conflict and resolve it passive measures seek to ameliorate its worst effects but do not change their underlying causes Since 1947 rising powers active or passive use of these methods has coincided with their rise and fall and rise again in the international system Those rises and falls are tied to global changes including the Cold War the emergence of the Third World economic and ideological retrenchment of the 1980s and 1990s and the shift from unipolarity to multipolarity after 2000 In summary rising powers management of the Arab Israeli conflict has shifted from active to more passive methods since 1947 Their actions have occurred alongside two key changes within the conflict One is the shift from a primarily state based conflict between Israel and the Arabs to one that is more ethnic and territorial in scope between Israel and the Palestinians The other the emergence of the Oslo framework which has frozen power imbalance between Israel and the Palestinians since 1993 By pursuing the Oslo process rising powers have separated conflict management from developing normal diplomatic and economic exchanges with Israel and the Palestinians In adopting this more passive conflict management approach rising powers are disregarding both emerging alternatives that may potentially transform the conflict s dynamics including involvement with civil society actors like the Boycott Divestment and Sanctions movement and undertaking more active efforts at conflict resolution and presenting themselves as global powers
