Encountering the Pacific in the Age of the Enlightenment John Gascoigne,2014-03-20 The Pacific Ocean was the setting for the last great chapter in the convergence of humankind from across the globe Driven by Enlightenment ideals Europeans sought to extend control to all quarters of the earth through the spread of beliefs the promotion of trade and the acquisition of new knowledge This book surveys the consequent encounters between European expansionism and the peoples of the Pacific John Gascoigne weaves together the stories of British French Spanish Dutch and Russian voyages to destinations throughout the Pacific region In a lively and lucid style he brings to life the idealism adventures and frustrations of a colourful cast of historical figures Drawing upon a range of fields he explores the complexities of the relationships between European and Pacific peoples Richly illustrated with historical images and maps this seminal work provides new perspectives

on the significance of European contact with the Pacific in the Enlightenment **The Northwest Coast** Barry M. Gough, 1992 The Northwest Coast documents Britain's rise to pre-eminence in this far-flung corner of the empire. It shows how the relentless activities of its commercial interests, the adroit use of its naval power and the steely resolve of its diplomats secured British claims to dominion and rights to trade along the Northwest Coast. Written by a leading maritime scholar and based on fresh research into known manuscripts and printed works on Pacific trade and exploration, this book incorporates new interpretations on exploration and commercial activity in this area.

Historical Dictionary of the Discovery and Exploration of the Pacific Islands Max Quanchi, John Robson, 2005-10-18 The South Seas as this region used to be called conjured up images of adventure, belles and savages, romance and fabulous fortunes, but the long voyages of discovery and exploration of the vast Pacific Ocean were really an exercise in amazing logistics, navigation, hard grit, shipwreck and pure luck. The motivations were scientific and geographic but at the same time nationalistic and materialistic. A series on global exploration and discovery would not be complete without this book by Quanchi and Robson. It is ambitious and informative and includes the familiar names of Laperouse, Bougainville, Cook and Dampier as well as the intriguing stories of the Bounty Mutiny, scurvy and the mysterious Northwest Passage, Terra Australis, Ignatia and Davis Land. There are entries on first contacts, ships, navigational instruments, mapping and botany. The scene is carefully set in the introduction; the chronology spans several centuries and the extensive bibliography offers a guide to further reading. There are more than just dry facts in this book. It has a whiff of salt air, the clash of empires, cross-cultural beach encounters and personal adventure.

The Survival of Easter Island J. J. Boersema, 2015-04-13 Jan J. Boersema reconstructs the ecological and cultural history of Easter Island and critiques the hitherto accepted theory of its collapse.

Pacific Encounters Steven Hooper, 2006-06-30 Pacific Encounters brings together for the first time many stunning Polynesian objects collected by voyagers and missionaries during the eighteenth and nineteenth centuries. Illustrated are over 270 items gathered from the major regions of Polynesia. Many are from the British Museum, which houses fine and rare material from the expeditions of Captain Cook, Captain Vancouver and members of the London Missionary Society. Ranging from massive images of gods to small fish hooks, they are discussed in the contexts of their local use and meanings and their journeys to museums all over the world. These pieces have remarkable stories to tell of encounters between humans and their gods, between Polynesians and Europeans, their respective chiefs and priests, beliefs and technologies. Pacific Encounters is a groundbreaking book that conveys the wonder and excitement not only of the objects themselves but of the fascinating Polynesian cultures that produced them.

Twelve Days at Nuku Hiva Elena Govor, 2010-03-31 In August 1803 two Russian ships, the *Nadezhda* and the *Neva*, set off on a round-the-world voyage to carry out scientific exploration and collect artifacts for Alexander I's ethnographic museum in St. Petersburg. Russia's strategic concerns in the north Pacific, however, led the Russian government to include as part of the expedition an embassy to Japan headed by statesman Nikolai Rezanov, who was given authority over the ships.

commanders without their knowledge Between them the ships carried an ethnically and socially disparate group of men Russian educated elite German naturalists Siberian merchants Baltic naval officers even Japanese passengers Upon reaching Nuku Hiva in the Marquesas archipelago on May 7 1804 and for the next twelve days the naval officers revolted against Rezanov's command while complex crosscultural encounters between Russians and islanders occurred Elena Govor recounts the voyage reconstructing and exploring in depth the tumultuous events of the Russians stay in Nuku Hiva the course of the mutiny its resolution and aftermath and the extent and nature of the contact between Nuku Hivans and Russians Govor draws directly on the writings of the participants themselves many of whom left accounts of the voyage Those by the ships captains Krusenstern and Lisiansky and the naturalist George Langsdorff are well known but here for the first time their writings are juxtaposed with recently discovered textual and visual evidence by various members of the expedition in Russian German Japanese and by the Nuku Hivans themselves Two sailor beachcombers a Frenchman and an Englishman who acted as guides and interpreters later contributed their own accounts which feature the words and opinions of islanders Govor also relies on a myth about the Russian visit recounted by Nuku Hivans to this day With its unique polyphonic historical approach *Twelve Days at Nuku Hiva* presents an innovative crosscultural ethnohistory that uncovers new approaches to and understandings of what took place on Nuku Hiva more than two hundred years ago

Taking the High Ground Atholl Anderson, Douglas J. Kennett, 2012-11-01 This volume brings the remote and little known island of Rapa firmly to the forefront of Polynesian archaeology Thirteen authors contribute 14 chapters covering not only the basic archaeology of coastal sites rock shelters and fortifications but faunal remains agricultural development and marine exploitation The results presented within a chronology framed by Bayesian analysis are set against a background of ethnohistory and ethnology Highly unusual in tropical Polynesian archaeology are descriptions of artefacts of perishable material *Taking the High Ground* provides important insights into how a group of Polynesian settlers adapted to an isolated and in some ways restrictive environment

Reinterpreting Exploration Dane Keith Kennedy, 2014 Exploration was a central and perhaps defining aspect of the West's encounters with other peoples and lands Rather than reproduce celebratory narratives of individual heroism and national glory this volume focuses on exploration's instrumental role in shaping a European sense of exceptionalism and its iconic importance in defining the terms of cultural engagement with other peoples In chapters offering broad geographic range the contributors address many of the key themes of recent research on exploration including exploration's contribution to European imperial expansion Western scientific knowledge Enlightenment ideas and practices and metropolitan print culture They reassess indigenous peoples' responses upon first

contacts with European explorers their involvement as intermediaries in the operations of expeditions and the complications that their prior knowledge posed for European claims of discovery Underscoring that exploration must be seen as a process of mediation between representation and reality this book provides a fresh and accessible introduction to the ongoing reinterpretation of exploration s role in the making of the modern world **The Empire of Necessity** Greg

Grandin,2014-01-14 From the acclaimed author of *Fordlandia* the story of a remarkable slave rebellion that illuminates America s struggle with slavery and freedom during the Age of Revolution and beyond One morning in 1805 off a remote island in the South Pacific Captain Amasa Delano a New England seal hunter climbed aboard a distressed Spanish ship carrying scores of West Africans he thought were slaves They weren t Having earlier seized control of the vessel and slaughtered most of the crew they were staging an elaborate ruse acting as if they were humble servants When Delano an idealistic anti slavery republican finally realized the deception he responded with explosive violence Drawing on research on four continents *The Empire of Necessity* explores the multiple forces that culminated in this extraordinary event an event that already inspired Herman Melville s masterpiece *Benito Cereno* Now historian Greg Grandin with the gripping storytelling that was praised in *Fordlandia* uses the dramatic happenings of that day to map a new transnational history of slavery in the Americas capturing the clash of peoples economies and faiths that was the New World in the early 1800s
