**Poetics of the Face in Modern English, Polish and Russian Literature (1835-1965)** Kamila Pawlikowska, 2015-10-05 Anti Portraits Poetics of the Face in Modern English Polish and Russian Literature 1835 1965 is a study of a physiognomic descriptions of the face It demonstrates that writers such as George Eliot Leo Tolstoy Edgar Allan Poe Nicolay Gogol Virginia Woolf and Witold Gombrowicz vigorously resisted the belief that facial features reflect character While other studies tend to focus on descriptions which affirm physiognomy this book examines portraits which question popular face reading systems and contravene their common premise the surface depth principle Such portraits reveal that physiognomic formula is a cultural construct invented to abridge organise and regulate legibility of the human face Most importantly strange and unreadable fictional faces frequently expose the connection between physiognomic judgement and stereotyping prejudice and racism      **Title Nation** Jason Eskenazi, Valeri Nistratov, 2010 On the face of it no one could have been less equipped for the job than these gently nurtured girls who walked straight out of the Edwardian drawing rooms into the manifest horrors of the First World War Yet the volunteer nurses rose magnificently to the occasion In leaking tents and draughty huts they fought another war a war against agony and death as men lay suffering from the pain of unimaginable wounds or diseases we can now cure almost instantly It was here that young doctors frantically forged new medical techniques of blood transfusion dentistry psychiatry and plastic surgery in an attempt to save soldiers shattered in body or spirit And it was here that women achieved a quiet but permanent revolution by proving beyond question they could do anything All of this is superbly captured in The Roses s of No Man s Land a panorama of hardship disillusion and despair yet also of endurance and supreme courage

Reissued to mark the centenary of the outbreak of the First World War      *Portrait of a Russian Province* Catherine Evtuhov, 2011-11-13 Several stark premises have long prevailed in our approach to Russian history It was commonly assumed that Russia had always labored under a highly centralized and autocratic imperial state The responsibility for this lamentable state of affairs was ultimately assigned to the profoundly agrarian character of Russian society The countryside home to the overwhelming majority of the nation's population was considered a harsh world of cruel landowners and ignorant peasants and a strong hand was required for such a crude society A number of significant conclusions flowed from this understanding Deep and abiding social divisions obstructed the evolution of modernity as experienced naturally in other parts of Europe so there was no Renaissance or Reformation merely a derivative Enlightenment and only a distorted capitalism And since only despotism could contain these volatile social forces it followed that the 1917 Revolution was an inevitable explosion resulting from these intolerable contradictions and so too were the blood soaked realities of the Soviet regime that came after In short the sheer immensity of its provincial backwardness could explain almost everything negative about the course of Russian history This book undermines these preconceptions Through her close study of the province of Nizhnii Novgorod in the nineteenth century Catherine Evtuhov demonstrates how nearly everything we thought we knew about the dynamics of Russian society was wrong Instead of peasants ground down by poverty and ignorance we find skilled farmers talented artisans and craftsmen and enterprising tradespeople Instead of an exclusively centrally administered state we discover effective and participatory local government Instead of pervasive ignorance we are shown a lively cultural scene and an active middle class Instead of a defining Russian exceptionalism we find a world recognizable to any historian of nineteenth century Europe Drawing on a wide range of Russian social environmental economic cultural and intellectual history and synthesizing it with deep archival research of the Nizhnii Novgorod province Evtuhov overturns a simplistic view of the Russian past Rooted in but going well beyond provincial affairs her book challenges us with an entirely new perspective on Russia's historical trajectory      **Russian Literary Culture in the Camera Age** Stephen Hutchings, 2004-06-02 This book explores how one of the world's most literary oriented societies entered the modern visual era beginning with the advent of photography in the nineteenth century focusing then on literature's role in helping to shape cinema as a tool of official totalitarian culture during the Soviet period and concluding with an examination of post Soviet Russia's encounter with global television As well as pioneering the exploration of this important new area in Slavic Studies the book illuminates aspects of cultural theory by investigating how the Russian case affects general notions of literature's fate within post literate culture the ramifications of communism's fall for media globalization and the applicability of text image models to problems of intercultural change      **The Russian Kurosawa** Olga V. Solovieva, 2023 Offers a new historical and thematic perspective on the work of the renowned Japanese director Akira Kurosawa through a detailed discussion of the four films he made based on Russian sources      *Russian Romance* Aleksandr Sergeevich Pushkin, 1875      Photographing, Exploring and Exhibiting

Russian Turkestan Inessa Kouteinikova, 2022-12-30 This book illuminates the crucial role photography played from the very beginning of the Russian colonial presence in Central Asia and its entanglement with the orientalist legacy that followed Inessa Kouteinikova examines these under studied materials while also addressing the photographic market and reception of photography in the Russian Empire the position of the popular press the place of public exhibitions and emergence of the first ethnographic museums that took pace from Moscow to Tashkent during the time of the Russian conquest This book embraces the dominant mode for representing the new colonial territories in the mid late 19th century Russia by outlining the technical commercial and artistic milieus during the Golden Age of Russian orientalism The book will be of interest to scholars working in art history history of photography and Russian studies The Photographic News ,1876 A Picture Held Us Captive Tea Lobo, 2019-05-20 While there are publications on Wittgenstein s interest in Dostoevsky s novels and the recurring mentions of Wittgenstein in Sebald s works there has been no systematic scholarship on the relation between perception such as showing and pictures and the problem of an adequate presentation of interiority such as intentions or pain for these three thinkers This relation is important in Wittgenstein s treatment of the subject and in his private language argument but it is also an often overlooked motif in both Dostoevsky s and Sebald s works Dostoevsky s depiction of mindset discrepancies in a rapidly modernizing Russia can be analyzed interms of multi aspectivity The theatricality of his characters demonstrates especially well Wittgenstein s account of interiority s interrelatedness with overt public practices and codes In Sebald s Austerlitz Wittgenstein s notion of family resemblances is an aesthetic strategy within the novel Visual tropes are most obviously present in Sebald s use of photography and can partially be read as an ethical aesthetic imperative of rendering pain visible Tea Lobo s book contributes towards a non Cartesian account of literary presentations of inner life based on Wittgenstein s thought **Monumental Names** Galina Oustanova-Stjepanovic, 2022-12-30 What stands behind the propensity to remember victims of mass atrocities by their personal names Grounded in ethnographic and archival research with Last Address and Memorial one of the oldest independent archives of Soviet political repressions in Moscow and a winner of the Nobel Peace Prize the book examines a version of archival activism that is centred on various practices of documentation and commemoration of many dead victims of historical violence in Russia to understand what kind of historicity is produced when a single name is added to an endless list What do acts of accumulation of names of the dead affirm when they are concretised in monuments and performance events The key premise is that multimodal inscriptions of names of the dead entail a political aesthetic and conceptual movement between singularity and multitude that honours each dead name yet conveys the scale of a mass atrocity without reducing it to a number Drawing on anthropology history philosophy and aesthetic theory the book yields a new perspective on the politics of archival and historical justice while it critically engages with the debates on relations and distinctions between names and numbers of the dead monumental art and its political effects law and history image and text the specific one and the infinite many **A Royal Passion** Anne M.

Lyden,2014-02-04 In January 1839 photography was announced to the world Two years prior a young Queen Victoria ascended to the throne of Great Britain and Ireland These two events while seemingly unrelated marked the beginnings of a relationship that continued throughout the nineteenth century and helped construct the image of an entire age A Royal Passion explores the connections between photography and the monarchy through Victoria s embrace of the new medium and her portrayal through the lens Together with Prince Albert her beloved husband the Queen amassed one of the earliest collections of photographs including works by renowned photographers such as Roger Fenton Gustave Le Gray and Julia Margaret Cameron Victoria was also the first British monarch to have her life recorded by the camera images of her as wife mother widow and empress proliferated around the world at a time when the British Empire spanned the globe The featured essays consider Victoria s role in shaping the history of photography as well as photography s role in shaping the image of the Queen Including more than 150 color images several rarely seen before drawn from the Royal Collection and the J Paul Getty Museum this volume accompanies an exhibition of the same name on view at the J Paul Getty Museum from February 4 to June 20 2014

**Picturing Russia's Men** Allison Leigh,2020-09-17 Winner of the Heldt Prize for Best Book in Slavic East European and Eurasian Women s and Gender Studies 2021 There was a discontent among Russian men in the nineteenth century that sometimes did not stem from poverty loss or the threat of war but instead arose from trying to negotiate the paradoxical prescriptions for masculinity which characterized the era Picturing Russia s Men takes a vital new approach to this topic within masculinity and art historical studies by investigating the dissatisfaction that developed from the breakdown in prevailing conceptions of manhood outside of the usual Western European and American contexts By exploring how Russian painters depicted gender norms as they were evolving over the course of the century each chapter shows how artworks provide unique insight into not only those qualities that were supposed to predominate but actually did in lived practice Drawing on a wide variety of source material including previously untranslated letters journals and contemporary criticism the book explores the deep structures of masculinity to reveal the conflicting desires and aspirations of men in the period In so doing readers are introduced to Russian artists such as Karl Briullov Pavel Fedotov Alexander Ivanov Ivan Kramskoi and Ilia Repin all of whom produced masterpieces of realist art in dialogue with paintings made in Western European artistic centers The result is a more culturally discursive account of art making in the nineteenth century one that challenges some of the enduring myths of masculinity and provides a fresh interpretive history of what constitutes modernism in the history of art

**Library of Congress Subject Headings** Library of Congress,2010 *Russian Literature, Modernism and the Visual Arts* Catriona Kelly,Stephen Lovell,2000-03-09 In the Russian modernist era literature threw itself open to influences from other art forms most particularly the visual arts Collaborations between writers artists designers and theatre and cinema directors took place more intensively and productively than ever before or since Equally striking was the incursion of spatial and visual motifs and structures into verbal texts Verbal and visual principles of creation
