Companion Species Mathilde van Dijk, 2024-11-28 This book explores the connection between saints and animals and how the power over animals has been a characteristic of saints from their beginnings in the Early Church The connection between saints and humans is examined with the saint as a human rising beyond humanity touching the divine and the non human animal as a creature which is connected to and yet removed from humanity and which may have a connection to the sacred itself This volume transcends traditional religious boundaries by including Christian saints as well as similar figures in Islam and Norse religions It operates on the cusp of two exciting and innovative fields hagiographic and animal studies It shows the complexities of human animal interaction and the sacred authorities clashing with experiential knowledge metaphorical animals as opposed to real animals ranging from helpers or opponents of saints disguises of demons or identity markers of a human community *Companion Species* will be of value to scholars and students interested in medieval history Europe and religion as well as social and cultural history

Center for Medieval and Renaissance Studies,1970 **The Origins of Beowulf** Richard North,2007-02-08 This book suggests that the Old English epic Beowulf was composed in the winter of 826 7 as a requiem for King Beornwulf of Mercia on behalf of Wiglaf the ealdorman who succeeded him The place of composition is given as the minster of Breedon on

the Hill in Leicestershire now Derbyshire and the poet is named as the abbot Eanmund As well as pinpointing the poem's place and date of composition Richard North raises some old questions relating to the poet's influences from Vergil and from living Danes Norse analogues are discussed in order to identify how the poet changed his heroic sources while four episodes from Beowulf are shown to be reworked from passages in Vergil's Aeneid One chapter assesses how the poem's Latin sources might correspond with what is known of Beowulf's now lost library while another seeks to explain Danish mythology in Beowulf by arguing that Beowulf hosted a meeting with Danish Vikings in 809 This fascinating and challenging new study combines careful detective work with meticulous literary analysis to form a case that no future investigation will be able to ignore

A Companion to Gottfried von Strassburg's "Tristan" Will Hasty, 2003 The legend of Tristan and Isolde the archetypal narrative about the turbulent effects of all consuming passionate love achieved its most complete and profound rendering in the German poet Gottfried von Strassburg's verse romance Tristan ca 1200 1210 Along with his great literary rival Wolfram von Eschenbach and his versatile predecessor Hartmann von Aue Gottfried is considered one of three greatest poets produced by medieval Germany and over the centuries his Tristan has lost none of its ability to attract with the beauty of its poetry and to challenge if not provoke with its sympathetic depiction of adulterous love The essays written by a dozen leading Gottfried specialists in Europe and North America provide definitive treatments of significant aspects of this most important and challenging high medieval version of the Tristan legend They examine aspects of Gottfried's unparalleled narrative artistry the important connections between Gottfried's Tristan and the socio cultural situation in

which it was composed and the reception of Gottfried's challenging romance both by later poets in the Middle Ages and by nineteenth and twentieth century authors composers and artists particularly Richard Wagner The volume also contains new interpretations of significant figures episodes and elements Rivalin and Blanscheflur Isolde of the White Hands the Love Potion the performance of love the female figures in Gottfried's revolutionary romance which provocatively elevates a sexual human love to a summum bonum Will Hasty is Professor of German at the University of Florida He is the editor of Companion to Wolfram's Parzival Camden House 1999

Story, World and Character in the Late Íslendingasögur Rebecca Merkelbach, 2024 Argues for new models of reading the complexity and subversiveness of fourteen post classical sagas The late Sagas of Icelanders thought to be written in the fourteenth and fifteenth centuries have hitherto received little scholarly attention Previous generations of critics have unfavourably compared them to classical slendingas gur and fornaldars gur leading modern audiences to project their expectations onto narratives that do not adhere to simple taxonomies and preconceived notions of genre As rogues within the canon they challenge the established notions of what makes an slendingasaga Based on a critical appraisal of conceptualisations of canon and genre in saga literature this book offers a new reading of the relationship between the individual paranormal and social dimensions that form the foundation of these sagas It draws on a multidisciplinary approach informed by perspectives as diverse as possible worlds theory gender studies and social history The post classical sagas are not only read anew and integrated into both their generic and socio historical context they are met on their own terms allowing their fascinating narratives to speak for themselves
