Social Policy in Post-Industrial Singapore Kwen Fee Lian,Chee-Kiong Tong,2008-03-31 Notwithstanding the lean years that followed 1986 and 1997 sustained economic growth since the late 1970s has propelled Singapore into the post industrial age and reproduced the demographic and social structure of advanced western societies The rapid shift to a knowledge intensive economy requiring highly skilled

services has resulted in a two speed society consisting of a highly competitive but rewarding sector and a marginalized population that is increasingly at risk. Being avowedly anti-welfarist, the state for ideological reasons has resisted pressures to introduce a comprehensive welfare regime for its risk population, preferring to privilege its productive citizenry. Is Singapore a counter-factual to the convergence thesis by preferring to put in place a social policy driven by the belief of its leaders that the more successful a society is, the more it is able to care for those who fall behind?

Examining Crime and Justice around the World Janet P. Stamatel, 2020-11-04. A thorough and timely investigation of both well-established and emerging crime and punishment issues, this book provides readers with compelling examples of how different countries around the world confront these problems. This book offers a detailed look at 10 hot topics in crime and punishment that are shared by many countries. Some of these topics are well-established within the field of criminology, such as patterns of criminal behavior, juvenile delinquency, drug trafficking, policing, and punishment; others are emerging topics that have not been well studied across a variety of countries, such as violence against women, hate crimes, and gun control. Within each topic, the book explores how eight countries experience the issue, highlighting similarities across different places as well as unique treatments of the problem. The chapter on punishment addresses the widespread use of incarceration as criminal punishment but also considers different philosophies with respect to the purpose of incarceration and whether or not this strategy is effective in the face of large-scale criminal events such as mass atrocities. The country narratives provide historical context for understanding the particular crime or punishment issue, current trends, and relevant statistical data for describing the extent of the issue and changes over time, in addition to contemporary examples of the issue.
