The International Politics of the Persian Gulf Mehran Kamrava, 2011-06-29 For much of the contemporary history of the Middle East the Persian Gulf has stood at the center of the region's strategic significance At the same time the Gulf has been wracked by political instability and tension As far back as the late nineteenth and early twentieth centuries Britain zeroed in on the Persian Gulf as a critical passageway to its crown jewel India and entered into protectorate agreements with local ruling families thus bestowing on them international legitimacy and eventually the resources and support necessary to ascend to kingships Today the region is undergoing profound changes that range from rapid economic and infrastructural development to tumultuous social and cultural transformations Far from eroding the area's political significance these changes have only accentuated rivalries and tensions and have brought to the forefront new challenges to international security and stability Together the essays in this volume present a comprehensive detailed and accessible account of the international politics of the region Focusing on the key

factors that give the Persian Gulf its strategic significance contributors look at the influence of vast deposits of oil and natural gas on international politics the impact of the competing centers of power of Iran and Saudi Arabia the nature of relationships among countries within the Persian Gulf and the evolving interaction between Islam and politics Throughout the collection issues of internal and international security are shown to be central Drawing on the comprehensive knowledge and experience of experts in the region The International Politics of the Persian Gulf shines a bright light on this area offering insights and thoughtful analyses on the critical importance of this troubled region to global politics

Bruck,2019-01-01 *Mirrored Loss* tells the story of Amat al Latif al Wazir only daughter of Abdullah al Wazir the leader of Yemen's constitutional movement of the mid twentieth century for democratisation of the autocratic imamate Her relationship with her adored father who was accused of treason takes centre stage in this biographical narrative Amat al Latif enjoyed a privileged childhood in a high ranking family at the heart of Yemeni politics yet the failed revolt of 1948 was the family's downfall leaving her and other close relatives exposed to social indignities and privation She then spent many years in exile where she suffered a personal calamity that compounded the earlier catastrophe Through one family's story Gabriele vom Bruck explores how violence translates into tragedy in the personal realm and how individual lives and larger cultural and political worlds intersect in Yemen Her narrative makes these tragic events compellingly tangible especially at the level of gendered subjectivity female Yemenis have been either unknown to or deemed insignificant by most male historians of this period *Mirrored Loss* is a significant step in righting that omission
