Women and the Historical Enterprise in America: Gender, Race and the Politics of Memory Julie Des Jardins, 2004-07-21 In *Women and the Historical Enterprise in America* Julie Des Jardins explores American women s participation in the practice of history from the late nineteenth century through the end of World War II a period in which history became professionalized as an increasingly masculine field of scientific inquiry Des Jardins shows how women nevertheless transformed the profession during these years in their roles as writers preservationists educators archivists government workers and social activists Des Jardins explores the work of a wide variety of women historians both professional and amateur popular and scholarly conservative and radical white and nonwhite Although their ability to earn professional credentials and gain research access to official documents was limited by their gender and often by their race these historians addressed important new questions and represented social groups traditionally omitted from the historical record such as workers African Americans Native Americans and religious minorities Assessing the historical contributions of Mary Beard Zora Neale Hurston Angie Debo Mari Sandoz Lucy Salmon Mary McLeod Bethune Dorothy Porter Nellie Neilson and many others Des Jardins argues that women working within the broadest confines of the historical enterprise collectively brought the new perspectives of social and cultural history to the study of a multifaceted American past In the process they not only developed the field of women s history but also influenced the creation of our national memory in the twentieth century

The American Review of Reviews ,1917 **Pacifism as War Abolitionism** Cheyney Ryan, 2024-03-12 Responding to the unprecedented violence of our times and the corresponding interest in nonviolent solutions this book takes up the heart of pacifism its critique of what pacifists have termed the war system *Pacifism as War Abolitionism* provides an account of the war system that draws on contemporary sociology history and political philosophy The core of its critique of that system is that war begets war and

hence war will not be ended or even constrained by finding more principled ways to fight war as many imagine War can only be ended by ending the war system which can only be done nonviolently This has been the message of pacifism s great voices like Gandhi Dr Martin Luther King Jr and Dorothy Day It is the principal message of this book Key Features Draws extensively on the sociological and historical research on war to expand the usual philosophical discussion beyond hypothetical accounts Expands the dialogues on the ethics of war beyond just war theory to its principal alternative pacifism Engages discussion of empire and imperialism in relation to the logic and development of the war system Presents pacifism s response to the reality of war today including the idea of never ending war **The American Review of Reviews** Albert

Shaw,1917 **The SAGE Handbook of Feminist Theory** Mary Evans,Clare Hemmings,Marsha Henry,Hazel Johnstone,Sumi Madhok,Ania Plomien,Sadie Wearing,2014-08-12 At no point in recorded history has there been an absence of intense and heated discussion about the subject of how to conduct relations between women and men This Handbook provides a comprehensive guide to these omnipresent issues and debates mapping the present and future of thinking about feminist theory The chapters gathered here present the state of the art in scholarship in the field covering Epistemology and marginality Literary visual and cultural representations Sexuality Macro and microeconomics of gender Conflict and peace The most important consensus in this volume is that a central organizing tenet of feminism is its willingness to examine the ways in which gender and relations between women and men have been and are organized The authors bring a shared commitment to the critical appraisal of gender relations as well as a recognition that to think theoretically is not to detach concerns from lived experience but to extend the possibilities of understanding With this focus on theory and theorizing about the world in which we live this Handbook asks us across all disciplines and situations to abandon our taken for granted assumptions about the world and interrogate both the origin and the implications of our ideas about gender relations and feminism It is an essential reference work for advanced students and academics not only of feminist theory but of gender and sexuality across the humanities and social sciences *Classical American Philosophy* Rebecca L. Farinas,2021-01-14 In *Classical American Philosophy Poiesis in the Public Square* Rebecca Farinas takes seven major figures from the American philosophical canon and examines their relationship with an artistic or scientific interlocutor It is a unique insight into the origins of American philosophy and through case studies such as the friendship between Alain Locke and the biologist E E Just and the collaboration between Jane Addams and George Herbert Mead Farinas provides a new insight into these thinkers ideas Her new perspective allows her to move beyond relational aesthetics to consider these theorists phenomenological metaphysical religious and cosmological ideas and reapply them to the modern world Indeed the partnerships she examines have proved especially valuable to newer philosophical fields like value theory ethics pedagogy and semiotics Her links between art and science also provide new vantage points on our society s continuing artistic endeavours and technological advances and introduce an exciting new perspective on early American philosophy and its
