Moving Forward, Looking Back Sarah M. Misemer, 2010 Many critical shifts in concepts of time and society's consciousness of modernity were derived from the railway and World Standard Time in the nineteenth century These innovations restructured the way people viewed the world and dealt with public and private time The forward projectile motion along a linear track mimicked the passage of public chronological time Conversely the train also invoked a private nostalgic view of time as the traveler was yanked from his/her traditional view of the space time continuum via the train's velocity Travelers observed the landscape disappear in their backward glance from the window although the landscape and interior compartment's space remained stagnant This optical illusion caused passengers to perceive the world in new ways Thus the train unveils a conflictive blend of nostalgia and progress in the River Plate as these countries move forward but look back

Urban Ministry Ronald E. Peters, 2011-07-01 A comprehensive introduction to the particular challenges and opportunities of congregational ministry in urban settings Urban ministry has long been a part of seminary curricula but a basic and definitive understanding of what students should know as they prepare for congregational ministry in the city has remained elusive Too often it is assumed that the theological resources developed for ministry in other settings are adequate for urban ministry but these resources fail to account for the unique challenges and opportunities of the urban setting Ronald Peters clarifies the nature of urban ministry as a theological discipline by showing how its core values of love justice community and reconciliation among others engage the issues of economics education family life public health ethnic relations and religious life in the urban environment Arguing that the city has always served as an arena of God's activity Peters articulates a theological rationale for urban ministry that is both hopeful and yet realistic affirming that God loves the city and its people and encouraging practitioners to do the same

Postcolonial Screen Adaptation and the British Novel Vivian Y. Kao, 2020-10-01 This book brings film adaptation of literature to bear on the question of how nineteenth century imperial ideologies of progress continue to inform power inequalities in a global capitalist age Not simply the promotion of general betterment for all improvement in the British colonial context licensed a superior master race to uplift its colonized populations morally socially and economically This book argues that on the one hand film adaptations of nineteenth century novels reveal the arrogance and coercive intentions that underpin contemporary notions of development humanitarianism and modernity improvement's post Victorian guises On the other hand the book also argues that the films use their nineteenth century source texts to criticize these same legacies of imperialism By bringing together film adaptation postcolonial theory and literary studies the book demonstrates that adaptation as both method and cultural product provides a way to engage with the baggage of ideological heritage in our contemporary global media environment
