Looking West Cultural Globalization And Russian Youth Culture:

Looking West?: Cultural Globalization and Russian Youth Cultures, Russian youth culture has been a subject of great interest to researchers since 1991 but most studies to date have failed to consider the global context Looking West engages theories of cultural globalization to chart how post Soviet Russia's opening up to the West has been reflected in the cultural practices of its young people Visitors to Russia's cities often interpret the presence of designer clothes shops Internet cafés and a vibrant club scene as evidence of the Westernization of Russian youth As Looking West shows however the younger generation has adopted a pick and mix strategy with regard to Western cultural commodities that reflects a receptiveness to the global alongside a precious guarding of the local The authors show us how young people perceive Russia to be positioned in current global flows of cultural exchange what their sense of Russia's place in the new global order is and how they manage to live with the West on a daily basis Looking West represents an important landmark in Russian Western collaborative research Hilary Pilkington and Elena Omelchenko have been at the heart of an eight year collaboration between the University of Birmingham U K and Uliyanovsk State University Russia This book was written by Pilkington and Omelchenko with the team of researchers on the project Moya Flynn Uliana Bliudina and Elena Starkova **Eastern**

Past in Estonia Francisco Martinez, 2018-07-06 What happens to legacies that do not find any continuation In Estonia a new generation that does not remember the socialist era and is open to global influences has grown up As a result the impact of the Soviet memory in people's conventional values is losing its effective power opening new opportunities for repair and revaluation of the past Francisco Martinez brings together a number of sites of interest to explore the vanquishing of the Soviet legacy in Estonia the railway bazaar in Tallinn where concepts such as market and employment take on distinctly different meanings from their Western use Linnahall a grandiose venue whose Soviet heritage now poses difficult questions of how to present the building's history Tallinn's cityscape where the social spatial and temporal co evolution of the city can be viewed and debated Narva a city that marks the border between the Russian Federation NATO and the European Union and represents a place of continual negotiation of belonging and the new Estonian National Museum in Raadi an area on the outskirts of Tartu that has been turned into a memory field The anthropological study of all these places shows that national identity and historical representations can be constructed in relation to waste and disrepair too also demonstrating how we can understand generational change in a material sense Praise for *Remains of the Soviet Past in Estonia* By adopting the tropes of repair and waste this book innovatively manages to link various material registers from architecture intergenerational relations affect and museums with ways of making the past present Through a rigorous yet transdisciplinary method Martinez brings together different scales and contexts that would often be segregated out In this respect the ethnography unfolds a deep and nuanced analysis providing a useful comparative and insightful account of the processes of repair and waste making in all their material social and ontological dimensions Victor Buchli Professor of Material Culture at UCL This book comprises an endearingly transdisciplinary ethnography of postsocialist material culture and social change in Estonia Martinez creatively draws on a number of critical and cultural theorists together with additional research on memory and political studies scholarship and the classics of anthropology Grappling concurrently with time and space the book offers a delightfully thick description of the material effects generated by the accelerated post Soviet transformation in Estonia inquiring into the generational specificities in experiencing and relating to the postsocialist condition through the conceptual anchors of wasted legacies and repair This book defies disciplinary boundaries and shows how an attention to material relations and affective infrastructures might reinvigorate political theory Maria M Ikksoo Senior Lecturer Brussels School of International Studies at the University of Kent

Drugs and Culture Geoffrey Hunt, 2016-05-13 Current approaches to drugs tend to be determined by medical and criminal visions that emerged over a century ago: the concepts of addiction on the one hand and drug control on the other, having imposed themselves as the unquestionable central notions surrounding drug issues and discourses. Pathologization and criminalization are the dominant perspectives on psychoactive drugs, and it is difficult to describe drug consumption in any terms other than those of medicine or to conceive of regulation except in terms of control and eradication. *Drugs and Culture* presents other voices and understandings of drug issues, highlighting the socio-cultural features of drug use and regulation in modern societies. It examines the cultural dimensions of drugs and their regulation, with special attention to questions of how consumption of specific psychoactive substances becomes associated with particular social groups, the social dynamics involved in our coming to think of these phenomena as we do, and the factors that determine the political and policy responses to drug use. Adopting approaches from anthropology, sociology, history, political science and geopolitics to challenge the prevailing pathologization and criminalization of drug use, this book provides international and comparative perspectives on drug research based on the latest research in Europe, the USA, the Middle East and Hong Kong.

Business Strategies for Economies in Transition Petr G. Chadraha, Reiner Springer, 2020-10-27 The book of readings *Business Strategies for Economies in Transition* is a collection of papers describing various business issues as they occurred during the economic transitions in Central and Eastern European countries. The book's sections are organized along the typical academic business disciplines: Marketing, Management, Advertising, Finance and Banking, and Human Resource Management. This organization allows professors from various disciplines to focus on articles within the area of their specific interest. The Maculan case is a multifaceted exercise. The scope is very broad, covering topics such as management, multi-cultural environment, changing regulations, and corporate growth, to name a few. The accompanying Teaching Note gives some classroom guidance on how to approach this case. However, educators may find other issues in this case worth discussing with students. While the readings are from CEE countries, we feel that much of the material can and should be used when looking at other economies, be they in transition or in the process of economic development. There are many countries that are in one of these two stages. Many of the problems addressed in this book are relevant to developing economies. Any major change in the economic system, be that transition or development, impacts people. As such, the response of the population will directly influence the chance of a successful transformation.

The Whole World Was Watching Robert Edelman, Christopher Young, 2019-12-10 In the Cold War era, the confrontation

between capitalism and communism played out not only in military diplomatic and political contexts but also in the realm of culture and perhaps nowhere more so than the cultural phenomenon of sports where the symbolic capital of athletic endeavor held up a mirror to the global contest for the sympathies of citizens worldwide *The Whole World Was Watching* examines Cold War rivalries through the lens of sporting activities and competitions across Europe Asia Africa Latin America and the U S The essays in this volume consider sport as a vital sphere for understanding the complex geopolitics and cultural politics of the time not just in terms of commerce and celebrity but also with respect to shifting notions of race class and gender Including contributions from an international lineup of historians this volume suggests that the analysis of sport provides a valuable lens for understanding both how individuals experienced the Cold War in their daily lives and how sports culture in turn influenced politics and diplomatic relations
